Operation and Maintenance

Appropriation Summary:	(\$ in Millions)					
	FY 1998 <u>Actual</u>	Price <u>Growth</u>	Program <u>Growth</u>	FY 1999 <u>Estimate</u>	Price <u>Growth</u>	Program <u>Growth</u>
Operation and Maintenance, Active	20,411.1	208.3	-1,642.7	18,976.7	163.5	1,223.0
						20,363.2

Description of Operations Financed: The Air Force Operation and Maintenance (O&M) appropriation supports the Air Force capability to develop, train, sustain, and integrate the elements of air and space power to produce: core competencies of air and space superiority, global attack, rapid global mobility, precision engagement, information superiority, and agile combat support. The synergy of these competencies provides the full range of air and space capabilities to combined forces commanders. More specifically, the requested funds allow the Air Force to operate and maintain aircraft, space and related weapon systems; train personnel; operate communications, command and control systems; and purchase supplies, equipment and fuel. O&M resources also directly support essential combat related activities such as intelligence, logistics, weather, air traffic control, search and rescue, operation and maintenance of airfields runways and base facilities, and the working and living environment of Air Force personnel.

Operating Forces consists of Air Operations, Combat Related Operations, and Space Operations. These funds provide support for fighter, bomber, and missile forces assigned to Air Force operational commands. They also provide global command, control, and communications; the capability to launch payloads into various earth orbits; and a worldwide network of sites and terminals to relay data gathered by satellites. Also included in this budget activity are unique missions such as combat test and training fighter aircraft; electronic warfare aircraft; Tactical Air Control aircraft; command, control and communications, including the Airborne Warning and Control aircraft; Dissimilar Air Combat Training aircraft; support ranges; and command and base support personnel and activities.

Mobilization includes Airlift Operations; Airlift Operations Command, Control, Communications and Intelligence (C3I); Mobilization Preparedness; and Payment to the Transportation Business. Mobility Operations provides global mobility through strategic and theater airlift to support peacetime, contingency, and wartime operations in pursuit of national objectives. The rapid movement and sustainment of United States combat forces anywhere in the world to deter aggression or provide humanitarian/peacekeeping assistance is a major instrument of United States national security policy. The Joint Chiefs of Staff (JCS), the military services, other Department of Defense (DoD) and government agencies, depend heavily on Air Force Mobility operations for essential cargo and troop movements in support of a variety of missions. Success in Desert Storm and humanitarian assistance efforts amplify the importance of our Mobility force projection.

Appropriation Highlights

Operation and Maintenance, Active

Training and Recruiting supports three broad mission areas: Accession Training, Specialized Skills and Flight Training, and Recruiting & Other Training and Education. Accession Training operations produce the enlisted and officer personnel needed to meet total force requirements. Officer accessions receive indoctrination training through the United States Air Force Academy (USAFA), Air Force Reserve Officer Training Corps (AFROTC), Officer Accession and Training School (OATS), and Airmen Education and Commissioning Program (AECP). Specialized Skills provide Air Force personnel (and individuals of other services) training and education essential to operate, maintain, and manage complex Air Force weapon systems and associated support structure. Flying training programs include flight screening, undergraduate pilot training, specialized undergraduate pilot training (SUPT), specialized undergraduate and advanced navigator training, and pilot instructor training (PIIT). Other training programs cover initial and follow-on technical skill progression training, professional military education, specialized professional development, and related training support.

Administration and Servicewide funds four broad mission areas: Logistic Operations, Servicewide Support, Security Programs, and Support to Other Nations. Logistics Operations includes Air Force Logistics Operations, Technical Support Activities, Servicewide Transportation, and Base Support. It primarily funds the operation of Air Force Materiel Command (AFMC), which provides Air Force-wide cradle-to-grave acquisition and logistics support and comprises 90 percent of the resources in this activity group. The Servicewide Activities cut across the entire Air Force to ensure combat capability and maintain readiness, effective leadership, efficient management, and adequate support to Air Force units and personnel in diverse geographic locations. Much of this is accomplished via a number of highly specialized and unique Air Force organizations. The Security Programs includes the Air Force Office of Special Investigations (AFOSI) and a series of classified programs. Finally, the Support to Other Nations activity group provides support to the North Atlantic Treaty Organization (NATO); Supreme Headquarters Allied Powers Europe (SHAPE); North Atlantic Treaty Organization, other international headquarters.

Pricing and Transfers. The major pricing changes from FY 1999 to FY 2000 include increases of \$184.4 million for civilian personnel pay raises, \$98.5 million for other purchased services including contracts, \$94.8 million for supplies/materials and equipment, \$39.5 million for Communication Services, and \$32.0 million in transportation. These price increases were offset primarily by price decreases of \$261.0 million in fuel and \$67.1 million in organic depot maintenance. Major transfers into O&M include \$314.8 million for Competition and Privatization from Air Force Military Personnel, \$18.9 million for Johnston Atoll host management from the Defense Threat Reduction Agency, \$9.0 million for leased vehicles from Other Procurement, and \$6.2 million for Advanced Medium Range Air-to-Air Missiles from Missile Procurement. The major transfer from O&M was the realignment of \$400.8 million of Real Property Maintenance to a Defense-Wide appropriation.

Narrative Explanation of Major Changes by Budget Activity:

Budget Activity 1: Operating Forces (FY 1999 - FY 2000 Change \$610.8 million)

The FY 2000 budget of \$10,550.0 million includes a price increase of \$8.9 million, program increases of \$703.6 million and net functional transfers out of \$101.8 million. Major functional transfers include \$86.2 million from the Military Personnel Appropriation for functions deemed “not military essential” to be either contracted out or converted to in-house civilian labor, \$18.6 million for host management of Johnston Atoll from the Defense Threat Reduction Agency, \$6.2 million for Advanced Medium Range Air-to-Air missiles from Aircraft Procurement, \$3.7 million for Electronic Warfare Integration from Aircraft Procurement, \$2.9 million for Ranges from the Air National Guard, and a transfer out of \$226.1 million of Real Property Maintenance to the Quality of Life Enhancement, Defense appropriation.

Major Program Changes FY 1999 - FY 2000

- Additional Base Support of \$233.9 million will directly improve quality of life programs, increase funding for base operating support, real property services, and increase environmental compliance funding to meet all level one environmental projects
- Primary Combat Forces increase of \$214.1 million for increases to flying hour supplies, support for 8 additional B-1 and 2 additional B-2 aircraft, F-16 Squadron contract engineering, and improvements to technical orders

Appropriation Highlights
Air Force
Operation and Maintenance, Active

- Real Property Maintenance increase of \$149.8 million supports demolition and disposal of excess facilities, maintenance and repair of facilities, minor construction programs, and additional support to environmental programs
- Air Operations Training increased \$53.6 million for additional Combat Air Forces (CAF) training, CAF readiness training, and additional range support to include training exercises
- Primary Combat Weapons increase of \$23.9 million primarily supports Minuteman, Air Launch Cruise Missiles (ALCM) and Advanced Cruise Missiles, but also makes advances with precision attack systems and advanced medium range air-to-air missiles

Budget Activity 2: Mobilization (FY 1999 - FY 2000 Change \$87.7 million)

The FY 2000 budget of \$2,685.6 million includes a price decrease of \$8.6 million, program decrease of \$93.7 million and net functional transfers in of \$3.2 million. The major functional transfers include \$42.2 million in from the Military Personnel Appropriation for functions deemed “not military essential” to be either contracted out or converted to in-house civilian labor, according to the rules of OMB Circular A-76 and \$50.7 million transfer out for Real Property Maintenance to the Quality of Life Enhancement, Defense appropriation.

Major Program Changes FY 1999 - 2000

- Airlift Operations increase by \$48.4 million are predominantly driven by C-130 upgrades, increases in training, and KC-10 repairs
- Increase of \$44.0 million in Base Support will facilitate closure of the 24th Wing and relocation of the C-130 aircraft from Howard AFB, Panama to Borinquen, Puerto Rico, buy-back unrealized savings, improve base communications, address environmental issues with increased pollution prevention funding, and increase funding for base operation support and real property services
- Airlift Operations C3I increase of \$4.5 million for Air Mobility Command and Control systems
- A decrease of \$181.8 million in payments to the Defense Working Capital Fund for Transportation as a result of the recovery of FY 1998 revenue and expense imbalances in FY 1999
- A reduction of \$17.6 million as a result of the one-time increase in FY 1999 to recover depot maintenance operating losses outside of the stabilized rate structure

Budget Activity 3: Training and Recruiting (FY 1999 - FY 2000 Change \$143.9 million)

The FY 2000 budget of \$1,868.2 million includes a price increase of \$22.2 million, program increases of \$179.4 million and net functional transfers out of \$57.7 million. The major functional transfers include a transfer in of \$9.4 million from the Military Personnel Appropriation for functions deemed “not military essential” to be either contracted out or converted to in-house civilian labor and one for \$9.1 million from various

Appropriation Highlights
Air Force
Operation and Maintenance, Active

appropriations for the DoD Computer Crimes and Forensic Lab Training Program. These increases are partially offset by the transfer out of \$73.7 million for Real Property Maintenance to the Quality of Life Enhancement, Defense appropriation.

Major Program Changes FY 1999 - 2000

- Flight Training increases by \$77.5 million for increased undergraduate pilot and navigator production to offset lower than expected pilot retention rates
- Recruiting and Advertising increases by \$40.2 million to address the declining propensity to enlist of our nations youth and offset lower than expected retention rates
- Specialized Skill Training increases by \$21.6 million to offset declining enlisted airman reenlistment rates. Also, implements recommendations of the Kasseebaum-Baker Report on Gender Integrated Training
- Increase of \$13.7 million for ROTC scholarships and operations

Budget Activity 4: Administration & Servicewide Activities (FY 1999 - FY 2000 Change \$737.3 million)

The FY 2000 budget of \$5,259.4 million includes a price increase of \$141.0 million, program increases of \$3608.4 million and net functional transfers out of \$12.1 million. Major functional transfers include \$49.3 million from the Military Personnel Appropriation for functions deemed "not military essential" to be either contracted out or converted to in-house civilian, \$6.2 million for leased vehicles from Other Procurement, and a transfer out of \$50.3 million for Real Property Maintenance to the Quality of Life Enhancement, Defense appropriation.

Major Program Changes FY 1999 - 2000

- Service-wide Activities increase of \$101.2 million will improve the Air Force Communications Center engineering and installation support and overall Service-wide support for contract environmental services, as well as Information Technology programs
- Additional Base Support of \$95.6 million will directly improve quality of life programs, increase funding for base operating support, real property services, and increase environmental compliance funding to meet all level one environmental projects
- Servicewide Communication increase of \$71.8 million supports long-haul communications, the Defense Message Center, high frequency radio systems, and general Air Force communications systems
- Commissary Operations increase of \$309.1 million reflects Section 8113, Appropriation Conference Report (HR 105-746) transfer of all FY 1999 funding to the Defense Working Capital Fund for commissary operations
- Real Property Maintenance increase of \$30.5 million supports demolition and disposal of excess facilities, maintenance and repair of facilities, and minor construction programs

AIR FORCE

Operation and Maintenance, Active Forces

Budget Activity: Operating Forces

Activity Group: Air Operations

Detail by Subactivity Group: Primary Combat Forces

I. Description of Operations Financed: Primary Combat Forces is comprised of the Air Force's front-line fighters and bombers (A-10, B-1, B-2, B-52, F-15, F-16, and F-117 aircraft), representing the "tip of the global power projection spear." These forces provide a strong capability to counter a wide range of threats to the U.S. and its allies and helps assure a viable deterrent posture. Funding is used for civilian personnel, support equipment, necessary facilities, and the associated costs specifically identifiable and measurable to: wing headquarters, fighter squadrons, bomber squadrons, organizational avionics, and consolidated aircraft maintenance. The objective is to increase readiness and functional proficiency through flying and ground operations training with personnel/equipment/systems that would be involved in responding to war/crisis/contingency/emergency situation. Overall adjustments to military manpower in this sub-activity reflect an ongoing transition to an Expeditionary Air Force (EAF) structure, as well as a shift in support personnel positions into primary mission areas to more accurately depict the balance between the "tooth" and "tail" of the Air Force.

II. Force Structure Summary:

	FY 1998	FY 1999	FY 2000
Squadrons (Aircraft)	63	60	60
Primary Aircraft Inventory (PAA)	1,046	1,024	1,074
Total Aircraft Inventory (TAI)	1,261	1,233	1,259
Flying Hours.....	353,612	350,538	352,264
Military End Strengths.....	40,392	39,463	62,871
Civilian End Strengths.....	622	706	706

7.	Price Changes.....	\$-5.5
8.	FY 1999 Current Estimate	\$2,239.9
9.	Price Changes.....	\$-52.9
10.	Functional Program Transfers.....	\$0.1
a.	Transfers In.....	\$0.1
1)	Competition & Privatization.....	\$0.1
	After careful review, the Air Force determined certain activities/functions do not need to be accomplished by military personnel. A cost comparison/direct conversion study is underway to determine whether the workload will be contracted out or performed by in-house civil service employees. OMB Circular A-76 applies.	
11.	Program Increases	\$249.5
a.	B-2 Squadrons (FY 1999 Base: \$137.8).....	\$92.2
	Reflects updated flying hour consumption factors [\$19.4]; net flying hour changes (final airframes added to operational inventory in FY 2000 and Ready Aircrew Program adjustments) [\$21.6]; critical subsystems transitioning from ICS to CLS [\$32.9]; decentralization of Tech Order funding from AF Materiel Command to using commands [\$3.3]; sustaining engineering adjustment (to 76 percent of requirement) [\$-9.4]; reduced tech data procurement [\$-4.3]; additional supplies, equipment, equipment maintenance, and other requirements related to increased flying hours [\$28.2]; and Depot Level Reparables adjustment (from 95 to 100 percent of requirement) [\$3.5].	
b.	F-15 A/B/C/D Squadrons (FY 1999 Base: \$466.8)	\$84.8

AIR FORCE

Operation and Maintenance, Active Forces

Budget Activity: Operating Forces

Activity Group: Air Operations

Detail by Subactivity Group: Primary Combat Forces

Reflects updated flying hour consumption factors [\$.29.8]; net flying hour changes (primarily Ready Aircrew Program adjustments) [\$.3.4]; start-up of Distributed Mission Training (links non-collocated simulators to allow composite training and mission rehearsals with significantly reduced training costs) [\$.8.9]; Contractor Logistics Support (CLS) for new APG-63 (V-1) radar which will help critical shortfall [\$.12.9]; additional funding to eliminate backlog of unpublished tech data (flight safety issue) [\$.12.9]; increased presence in Iceland [\$.2.8]; and Depot Level Reparables adjustment (from 95 to 100 percent of requirement) [\$.20.9].

- | | | |
|----|--|--------|
| c. | F-16 Squadrons (FY 1999 Base: \$.473.2) | \$35.7 |
| | Reflects updated flying hour consumption factors [\$.9.7]; net flying hour changes (fighter force structure changes to accommodate increased fighter pilot production and Ready Aircrew Program adjustments) [\$.14.1]; contract logistics support for new multi-ship Distributed Mission Trainer [\$.10.1]; decentralization of Tech Order funding from AF Materiel Command to using commands [\$.2.0]; additional funding to eliminate backlog of unpublished tech data (flight safety issue) [\$.1.9]; sustaining engineering adjustment (to 76 percent of requirement) [\$.28.5]; and Depot Level Reparables adjustment (from 95 to 100 percent of requirement) [\$.17.0]. | |
| d. | A-10 Squadrons (FY 1999 Base: \$.51.2) | \$25.5 |
| | Reflects updated flying hour consumption factors [\$.1.4]; net flying hour changes (consolidation of A/OA-10 units, re-coding 48 aircraft from Forward Air Control (OA-10) to Combat Air Support and General Purpose (A-10), and Ready Aircrew Program adjustments) [\$.21.6]; decentralization of Tech Order funding from AF Materiel Command to using commands [\$.4]; sustaining engineering adjustment (to 76 percent of requirement) [\$.1.3]; additional funding to eliminate backlog of unpublished tech data (flight safety issue) [\$.1.2]; and Depot Level Reparables adjustment (from 95 to 100 percent of requirement) [\$.2.4]. | |
| e. | B-52 Squadrons (FY 1999 Base: \$.184.4) | \$9.0 |

AIR FORCE

Operation and Maintenance, Active Forces

Budget Activity: Operating Forces

Activity Group: Air Operations

Detail by Subactivity Group: Primary Combat Forces

Reflects updated flying hour consumption factors [\$1.1]; net flying hour changes (elimination of low level training vice stand-off capability and Ready Aircrew Program adjustments) [\$-24.6]; decentralization of Tech Order funding from AF Materiel Command to using commands [\$1.5]; sustaining engineering adjustment (to 76 percent of requirement) [\$11.8]; additional funding to eliminate backlog of unpublished tech data (flight safety issue) [\$2.2]; non-fly AVPOL, supplies, and other requirements related to retaining 5 additional Attrition Reserve aircraft [\$11.8]; and Depot Level Reparables adjustment (from 95 to 100 percent of requirement) [\$5.2].

f.	F-22 Squadrons (FY 1999 Base: \$0.0)	\$2.2	
g.	Reflects CLS funding for F-22 continuing modification as this program transitions from production to operations [\$2.2].		
	Civilian Separation Incentives.....	\$0.1	
	Civilian separation incentives are authorized by Section 4436 of P.L. 102-484. These costs reflect the incremental funds required in FY 2000 over and above salary savings. DoD activities may pay up to \$25,000 for separation incentives plus 15% of basic pay to OPM. The current policy is to offer incentives before a person is involuntarily separated.		
12.	Program Decreases	\$-35.3	
a.	F-15E Squadrons (FY 1999 Base: \$321.6)	\$-13.1	
	Reflects updated flying hour consumption factors [\$-9.6]; net flying hour changes (primarily Ready Aircrew Program adjustments) [\$-3.6]; decentralization of Tech Order funding from AF Materiel Command to using commands [\$1.1]; sustaining engineering adjustment (to 76 percent of requirement) [\$-8.4]; additional funding to eliminate backlog of unpublished tech data (flight safety issue) [\$1.3]; system support adjustment to non-fly supplies related to net flying hour changes[\$-5.5]; and Depot Level Reparables adjustment (from 95 to 100 percent of requirement) [\$12.6].		

AIR FORCE

Operation and Maintenance, Active Forces

Budget Activity: Operating Forces

Activity Group: Air Operations

Detail by Subactivity Group: Primary Combat Forces

b. F-117A Squadrons (FY 1999 Base: \$254.4).....\$-11.3

Reflects updated flying hour consumption factors [\$.7]; net flying hour charges (primarily Ready Aircrew Program adjustments) [\$2]; changes to the AF Mission Planning System to accommodate critical F-117A pre-mission planning requirements[\$.5]; reduced procurement and CLS of support equipment [\$.11.4]; and Depot Level Reparables adjustment (from 95 to 100 percent of requirement) [\$.1].

c. B-1B Squadrons (FY 1999 Base: \$350.5).....\$-10.8

Reflects updated flying hour consumption factors [\$12.2]; net flying hour changes (three year delay in CC coding of attrition reserve aircraft brought back in FY 2000, stand-up of dedicated Flight Instructor and Academic Training squadron at Dyess AFB, maintaining crew ratio at 1.5 vice 1.31 until FY02, transfer of two aircraft from ANG, and Ready Aircrew Program adjustments) [\$-14.5]; reduced commercial training simulator services [\$.9.9]; decentralization of Tech Order funding from AF Materiel Command to using commands [\$3.1]; sustaining engineering adjustment (to 76 percent of requirement) [\$-14.7]; reduced bulk ground fuel and non-fly AVPOL [\$.5]; Depot Level Reparables adjustment (from 95 to 100 percent of requirement) [\$13.5].

d. Competition and Privatization Savings.....\$-0.1

Decrease reflects estimated savings which will be achieved through increased competition and expanded employee/private sector participation. These savings have been realigned from Air Force O&M to Air Force modernization accounts.

13. FY 2000 Budget Request.....\$2,401.2

AIR FORCE

Operation and Maintenance, Active Forces

Budget Activity: Operating Forces

Activity Group: Air Operations

Detail by Subactivity Group: Primary Combat Weapons

I. Description of Operations Financed: Primary Combat Weapons includes resources supporting the Air Force's two legs of the TRIAD, including Peacekeeper and Minuteman Intercontinental Ballistic Missiles (ICBMs), helicopters that support them, plus the bomber force's air launched missiles: the Air Launched Cruise Missile (ALCM), and the Advanced Cruise Missile (ACM). Also includes conventional weapons such as the Harpoon, the Standoff Attack Missile, LANTIRN and the Maverick.

II. Force Structure Summary:

	FY 1998	FY 1999	FY 2000

Detail by Subactivity Group: Primary Combat Weapons

C. Reconciliation of Increases and Decreases (\$s in Millions):

1.	FY 1999 President's Budget	\$236.2
	a. Distributed Congressional Adjustment.....	\$-1.8
	1) Lantirn PMA Office.....	\$-1.8
2.	FY 1999 Revised.....	\$234.4
	a. Undistributed Congressional Adjustment.....	\$-0.5
	1) Revised Economic Assumption.....	\$-0.5
3.	FY 1999 Appropriation	\$233.9
4.	Emergency Supplemental	\$0.6
	a. Flying Hours/Spares.....	\$0.6
5.	Price Changes.....	\$-1.1
6.	Functional Transfers.....	\$+0.1
	a. Transfers In.....	\$+0.1
	(1) Competition and Privatization	\$+0.1
	This is a transfer into O&M from the Military Personnel Appropriation. After careful review, the Air Force has designated these activities/functions as not military essential. A cost comparison study/direct conversion is underway to determine whether the workload will be contracted or remain in-house in accordance with the guidelines in OMB Circular A-76.	
7.	Program Decreases.....	\$-2.9

AIR FORCE

Operation and Maintenance, Active Forces

Budget Activity: Operating Forces

Activity Group: Air Operations

Detail by Subactivity Group: Primary Combat Weapons

a.	Base Realignment and Closure (BRAC)	\$-1.8
	Reflects a refinement in the distribution of anticipated BRAC savings associated with relocating Onizuka Air Station, CA operations and inactivation of 321 st Missile Group at Grand Forks AFB, ND.	
b.	FY 1999 Flying Hour Consumption Changes	\$-1.1
	The FY 1999 Flying Hour Program was repriced to reflect the latest CY 1998 AF Cost Analysis Improvement Group (AFCAG) approved cost factors which are based on the most current consumption data available. Included in this reprice are AVPOL, System & General Support supplies, and Depot Level Reparables (DLRs). The most significant changes have occurred in the costs of General Support supplies and Depot Level Reparables.	
8.	FY 1999 Current Estimate	\$230.6
9.	Price Growth	\$+3.9
10.	Functional Transfers	\$+6.3
a.	Transfers In	
(1)	Advanced Medium Range Air-To-Air Missile (AMRAAM)	\$+6.2
	This is a transfer into O&M from the Missile Procurement Appropriation to comply with a June 1997 DoD Source of Repair decision which directed AMRAAM Contractor Logistics Support instead of organic depot repair.	
(2)	Competition and Privatization	\$+0.1
	This is a transfer from the Military Personnel Appropriation. After careful review, the Air Force has designated these activities/functions as not military essential. A cost comparison study/direct conversion is underway to determine	

AIR FORCE

Operation and Maintenance, Active Forces

Budget Activity: Operating Forces

Detail by Subactivity Group: Primary Combat Weapons

whether the workload will be contracted or remain in-house in accordance with the guidelines in OMB Circular A-76.

- | | |
|--|---------|
| 11. Program Increases | \$+30.6 |
| a. Cruise Missiles (ACM & ALCM) (FY 1999 Base \$20.1) | \$+14.3 |
| Plus up reflects Air Force decision to maintain and support the Advanced Cruise Missile (ACM) and the Air Launched Cruise Missile (ALCM) to at least FY 2020.
Funding will support depot repair increases to extend program life. | |
| b. Minuteman Squadrons (FY 1999 Base \$115.1) | \$+10.6 |
| Increase reflects additional requirements and increased cost of existing requirements under the new Intercontinental Ballistic Missiles (ICBM) Prime Integrating Contract (PIC). | |
| c. LANTIRN and AGM-86C Conventional ALCMS (FY 1999 Base \$3.5) | \$+5.7 |
| Funding increase is for contract engineering used for post-production support, material improvement projects, and placing the systems manufacturer on contract for Low Altitude Navigation and Targeting InfraRed for Night (LANTIRN) and Conventional Air Launched Cruise Missiles.. These actions will help work logistical problems, such as finding replacement parts when the original manufacturer is no longer in business or finding/building a part that does work. | |
| 12. Program Decreases..... | \$-6.7 |
| a. Peacekeeper Squadrons (FY1999 Base \$77.5) | \$-4.6 |
| This decrease reflects the reduction of sustaining engineering requirements and the lower cost of doing business for the peacekeeper under the ICBM Prime Contract. | |
| b. AGM-142 Missile System (FY 1999 Base \$2.0) | \$-2.1 |
| HAVE NAP weapon sustainment and maintenance terminate in FY 2000. | |

AIR FORCE

Operation and Maintenance, Active Forces

Budget Activity: Operating Forces

Activity Group: Air Operations

Detail by Subactivity Group: Combat Enhancement Forces

- I. Description of Operations Financed: Supports electronic warfare and manned destructive suppression assets employed to enhance the effectiveness of other operational weapons systems. Specific programs include EC-130H (Compass Call) aircraft, Tactical Air to Ground Missile, common electronic countermeasures equipment, mission planning systems, electronic combat support, shore-based electronic warfare squadrons (EA-6B crews), combat identification, information warfare support, and the information warfare squadron.

II. Force Structure Summary:

	<u>FY 1998</u>	<u>FY 1999</u>	<u>FY 2000</u>
Squadrons.....	3	4	4

Program Changes	<u>2.1</u>	<u>14.4</u>
Current Estimate	\$ 186.6	\$ 204.1

C. Reconciliation of Increases and Decreases (\$s in Millions):

1. FY 1999 President's Budget.....	\$196.0
2. FY 1999 Revised.....	\$196.0
a. Undistributed Congressional Adjustments	\$-11.7
1) Travel Reduction.....	\$-2.7
2) ADP Legacy Systems.....	\$-3.3
3) Miscellaneous Equipment	\$-0.7
4) Revised Economic Assumptions	\$-1.1
5) Bulk Fuel Savings	\$-3.9
3. FY 1999 Appropriation	\$184.3
4. Emergency Supplemental (Flying Hours/Spares)	\$0.8

AIR FORCE
 Operation and Maintenance, Active Forces
 Budget Activity: Operating Forces
 Activity Group: Air Operations
 Detail by Subactivity Group: Combat Enhancement Forces

5.	Price Changes.....	\$-0.6
6.	Program Increases.....	\$2.1
	a. Simulator Validation (SIMVAL).....	\$1.2
	Realignment to meet program execution.	
	b. Information Warfare Squadron (FY 1999 Base \$3.0)	\$0.9
	Increase supports additional supplies and equipment (\$+0.9).	
7.	FY 1999 Current Estimate	\$186.6
8.	Price Changes.....	\$3.1
9.	Program Increases.....	\$19.9
	a. Mission Planning Systems (FY 1999 Base: \$17.8)	\$6.0
	Increase reflects 21 additional Mission Design Series (MDSs) being incorporated into the AF Mission Planning System, necessitating additional contractor support (\$+4.5) to develop, integrate, test, and maintain required software changes and additional supplies and equipment (\$+1.5).	
	b. Unmanned Aerial Vehicle Operations (FY 1999 Base: \$23.7).....	\$5.3
	Two additional Predator systems will be delivered to the AF in FY 2000. Funds are required for contractor logistics support (\$+3.2) and additional supplies and equipment (\$+2.1) to operate the two new systems.	

<u>AIR FORCE</u>		
Operation and Maintenance, Active Forces		
Budget Activity: Operating Forces		
Activity Group: Air Operations		
Detail by Subactivity Group: Combat Enhancement Forces		
c. Information Warfare (IW) Support (FY 1999 Base: \$59.0)	\$3.0	
Increase supports contractual services to develop IW tools supporting connectivity update to joint data bases (allows AF access to joint information), which will improve our ability to operate in this increasingly critical operational spectrum (\$+3.0).		
d. Compass Call (FY 1999 Base: \$57.0)	\$2.1	
Increases Depot Level Reparables funding from 95 to 100 percent of requirement (\$+0.3) and additional supplies and equipment for increased readiness and operational reliability (+1.8).		
e. Special Operations (FY 1999 Base: \$3.8).....	\$1.5	
Net increase supports training requirements and equipment associated with the new MC-130H aircraft simulator at Kirtland AFB (\$+2.0) and reduced supplies and other purchased services due to less electronic combat range support (operational testing) at the Nellis Complex (\$-0.5).		
f. Information Warfare Squadron (FY 1999 Base: \$3.0)	\$1.0	
Increase supports training for additional warfare specialists who will be assigned to the squadron at Shaw AFB but operationally located with supported units and activities (\$+0.8) and additional supplies and equipment (\$+0.2).		
g. Podded Reconnaissance System (FY 1999 Base: \$0.0)	\$0.4	
Reflects start-up and sustainment costs for shipping mission critical spares, contractor logistics support, and miscellaneous contract services for new C-130 podded reconnaissance system.		
h. Combat Identification (FY 1999 Base: \$3.4)	\$0.3	
Reflects additional training, supplies, and contractual services to fully fund the AF's fair share of the annual All Service Combat Identification Evaluation Team.		

AIR FORCE

Operation and Maintenance, Active Forces

Budget Activity: Operating Forces

Activity Group: Air Operations

Detail by Subactivity Group: Combat Enhancement Forces

i.	Tactical AGM Program (FY 1999 Base: \$2.9).....	\$0.3
	Fully funds engineering change proposals (ECBs) for software upgrades (Block IV to Block V) to the High-Speed Anti-Radar Missile (HARM), AGM-88C, which will improve the operational capability of this key weapon.	
10.	Program Decreases.....	\$-5.5
a.	Suppression of Enemy Air Defenses (FY 1999 Base: \$11.0).....	\$-4.1
	Decrease reflects completion of the new Personal Computer Planning System and replacement of obsolete depot test equipment in FY 1999. Additionally, planned retrofit of HARM Targeting System pods was increased in FY 1999 to meet operational requirements, but returns to normal levels in FY 2000.	
b.	Common Electronic Countermeasures Equipment (FY 1999 Base: \$5.0).....	\$-1.4
	Net decrease reflects reduced personnel management administration (PMA) costs associated with development and acquisition of ALE-50 towed decoy countermeasure system and reduced miscellaneous contractual services for repair and support of ALE-50 decoys in the field.	
11.	FY 2000 Budget Request.....	\$204.1

AIR FORCE

Operation and Maintenance, Active Forces

Budget Activity: Operating Forces

Activity Group: Air Operations

Detail by Subactivity Group: Air Operations Training

- I. Description of Operations Financed: Air Operations Training is comprised of the assets and resources necessary to conduct fighter lead-in training, combat training, and advanced tactical training for fighter pilots and missile launch training for missile crew members. Funding supports the operation and maintenance of training and aggressor squadron aircraft; training range activities, facilities, and equipment; combat simulation training; dissimilar air combat training; and training deployments and exercises.

II. Force Structure Summary:

	FY 1998	FY 1999	FY 2000
Squadrons.....	14	14	14
Primary Aircraft Authorizations (PAA)	412	416	411
Total Aircraft Inventory (TAI)	460	485	489
Flying Hours.....	127,653	122,464	122,511
Military End Strengths	8,559	8,771	8,563
Civilian End Strengths.....	720	797	800

Detail by Subactivity Group: Air Operations Training

C. Reconciliation of Increases and Decreases (\$s in Millions):

1.	FY 1999 President's Budget	\$562.8
	a. Distributed Congressional Adjustments	\$5.1
	1) Combat Training Ranges	\$5.1
2.	FY 1999 Revised.....	\$567.9
	a. Undistributed Congressional Adjustments	\$-1.5
	1) Revised Economic Assumptions	\$-1.2
	2) Foreign Currency	\$-0.3
3.	FY 1999 Appropriation	\$566.4
4.	Emergency Supplemental	\$29.0
	a. Flying Hours/Spares.....	\$29.0
5.	Reprogramming/Transfer Actions	\$-4.6
	a. Depot Maintenance Reprogramming	\$-4.6
6.	Price Changes.....	\$-1.1
7.	Functional Program Transfers	\$5.1
	a. Transfer In	\$5.1

AIR FORCE

Operation and Maintenance, Active Forces

Budget Activity: Operating Forces

Activity Group: Air Operations

Detail by Subactivity Group: Air Operations Training

1)	Utah Test and Training Range (UTTR) Realignment	\$5.1
	Realigns UTTR from AF Materiel Command to Air Combat Command and related funding from Combat Developments (Sub Activity Group: Other Combat Operations Support) to Air Warfare Center - Nellis Complex (Sub Activity Group: Air Operations Training). Places management and funding responsibility for O&M funded Major Range & Test Facility Bases (MTRFBs) in a central program under the predominate using command.	
8.	Program Decreases.....	\$-0.2
a.	Base Realignment and Closure (BRAC)	\$-0.2
	Reflects a refinement in the distribution of anticipated BRAC savings associated with relocating Onizuka Air Station, CA operations and inactivation of 321st Missile Group at Grand Forks AFB, ND.	
9.	FY 1999 Current Estimate	\$594.6
10.	Price Change	\$-11.2
11.	Functional Program Transfers	\$2.3
a.	Transfers In.....	\$3.0
1)	Competition and Privatization	\$.1
	Funds transfer from the Military Personnel Appropriation. After careful review, the Air Force determined certain activities/functions do not need to be accomplished by military personnel. A cost comparison/direct conversion study is underway to determine whether the workload will be contracted out or performed by in-house civil service employees. OMB Circular A-76 applies.	

AIR FORCE

Operation and Maintenance, Active Forces

Budget Activity: Operating Forces

Activity Group: Air Operations

Detail by Subactivity Group: Air Operations Training

2) Range Transfer	\$2.9
Responsibility for maintenance of electronic equipment and facilities at Saylor Creek Range, Idaho transferred from the Air National Guard to the Air Force. This change realigns the associated O&M funding from the Air National Guard to the Air Force.	
b. Transfers Out	\$-0.7
1) Common User Communications	\$-0.7
Complies with OSD direction to transition dedicated long haul communications to common user communications. Transition will provide C2 and combat support users with common user voice and data communications access.	
12. Program Increases	\$71.7
a. CAF Training (FY 1999 Base \$408.6)	\$30.1
Reflects incremental increase (+40) in fighter pilot production requiring additional (+4,951) flying hours (\$5.0); OPTEMPO funding for training exercises and competitions supporting advanced tactical training (\$9.5); and increased Depot Level Reparables funding from 95 to 100 percent (\$15.6).	
b. CAF Exercises (FY 1999 Base: \$75.3)	\$16.5
Funds 4 additional Red/Green/Maple Flag exercises, 8 additional Air Warrior I exercises (combat air support to U.S. Army National Training Center), and 7 additional Air Warrior II exercises (combat air support to the Army Joint Readiness Training Center) for total weapon delivery system training and testing in a realistic combat environment.	

AIR FORCE

Operation and Maintenance, Active Forces

Budget Activity: Operating Forces

Activity Group: Air Operations

Detail by Subactivity Group: Air Operations Training

c.	Air Warfare Center (Nellis Complex) (FY 1999 Base: \$46.8).....	\$13.9
	Fully funds Utah Test & Training Range (provides test bed for large footprint weapons such as Advanced Cruise Missile, Air Launched Cruise Missile, Joint Air-to-Surface Standoff Missile, Advanced Medium Range Air-to-Air Missile, etc.) and Avon Park (largest bombing and gunnery range east of Mississippi River) (\$7.0); funds threat emitters and targets at 100% from 25% and 50%, respectively (\$2.7); maintains 3 additional electronic scoring systems (\$3.9); and funds additional non-flying supplies to support increased student throughput (\$0.3).	
d.	Readiness Training (FY 1999 Base: \$56.8).....	\$8.7
	Fully funds combat range operating requirements (i.e., electronic threat system, weapon scoring system, air combat maneuvering instrumentation, and support infrastructure) (\$5.6); start-up of F-22 training (initial training cadre) (\$1.5); AF Operations Resource Management System (to achieve full capability in FY 2000) (\$0.9); and additional targets for the Enhanced Training in Idaho Initiative (\$0.7).	
e.	Flying Hour Consumption Changes (FY 1999 Base \$308.3).....	\$1.4
	The FY 2000 Flying Hour Program was updated to reflect current consumption rates. Included in this update were adjustments to AVPOL, General Support supplies, and Depot Level Reparables (DLRs). The most significant changes occurred in General Support supplies and Depot Level Reparables.	
f.	Tactical Fighter Training (Aggressor Squadron) (FY 1999 Base: \$6.7).....	\$1.1
	Reflects increased Depot Level Reparables funding (from 95 to 100 percent) (\$0.4) and flying hours for adversary support for increased fighter pilot production (\$0.7).	
13.	FY 2000 Budget Request	\$657.4

AIR FORCE

Operation and Maintenance, Active Forces

Budget Activity: Operating Forces

Activity Group: Air Operations

Detail by Subactivity Group: Combat Communications

- I. Description of Operations Financed: Combat Communications provides support for theater air control systems such as: forward air control posts, air operations centers, air support operations centers, ground theater air control systems, and airborne command and control systems (including the E-3 AWACS, EC-135K, EC-130E, Joint STARS (E-8A), and OA-10s). Also includes Theater Battle Management, Special Reconnaissance Systems to include the Defense Airborne Reconnaissance Program (DARP) (including RC-135s, U-2s, Predator, High Altitude Endurance Unmanned Aerial Vehicles (HAE UAVs), Tactical Intelligence/Cryptologic Activities, Electronic Warfare Integrated Reprogramming (EWIR), and funding for modeling, simulation and analyses activities to provide the tools to train the warfighter. The Theater Air Control System (TACS) provides the Air Force Component Commander (AFCC) and the Joint Force Air Component Commander (JFACC) the capability to plan and conduct theater air operations, including joint US operations and combined operations with allied forces. The TACS supports the Air Force doctrine of centralized control and decentralized execution of air operations. Components of the TACS include the Air Operations Center (AOC); the Wing Operations Center (WOC); non-radar ground-based elements; radar ground-based elements; airborne elements; and the command, control, communications, and computers (C4) to tie it all together. Deployable TACS elements, both airborne and ground-based, contain standard manning and equipment as required by the force projection tenets. They must be sufficiently mobile and flexible to respond to contingencies across the spectrum of warfare. EWIR ensures US EW systems correctly interpret the combat EW environment.

2)	TDY Expenses.....	\$-10.2
3)	Bulk Fuel Savings.....	\$-7.6
4)	Revised Economic Assumptions	\$-2.0
5)	Miscellaneous Equipment.....	\$-1.3
b.	Realigned to meet Congressional Intent	\$+4.0
1.	Battelabs.....	\$+4.0
3.	FY 1999 Appropriation	\$927.8
4.	Emergency Supplemental.....	\$+8.9
a.	Flying/Hour Spares	\$+8.9
5.	Price Changes.....	\$-3.8
6.	Program Increases.....	\$+2.7
a.	Civilian Pay Adjustment	\$+2.7
	The increase represents revised civilian pay funding requirements based on updated assessment of actual workyear costs to reflect the impact of changes such as FY 1998 locality pay.	

AIR FORCE
 Operation and Maintenance, Active Forces
 Budget Activity: Operating Forces
 Activity Group: Air Operations
 Detail by Subactivity Group: Combat Communications

7.	FY 1999 Current Estimate	\$935.6
8.	Price Growth	\$-7.5
9.	Transfers In	\$+8.8
a.	Electronic Warfare Integrated Reprogramming (EWIR)	\$+3.8
	Realigns funding from Aircraft Procurement Appropriation to O&M for sustaining Electronic Counter Measure pods at the Electronic Warfare Avionics Integrated Support Facility.	
b.	Theater Battle Management Core Systems (TBMCs)	\$+2.8
	Transfers funding for Deliberate and Crisis Action Planning and Execution System (DCAPES) from Sub Activity Group Global C3I and Early Warning into Sub Activity Group Combat Communications. This aligns funding for DCAPES with other TBMCs for improved funds management.	
c.	Competition and Privatization	\$+1.1
	This is a transfer into O&M from the Military Personnel Appropriation. After careful review, the Air Force has designated these activities/functions as not military essential. A cost comparison study/direct conversion is underway to determine whether the workload will be contracted or remain in-house in accordance with the guidelines in OMB Circular A-76.	
d.	Long Haul Communications.....	\$+1.1
	Resources transfer from Sub Activity Group Servicewide Communications into Sub Activity Group Combat Communications to more accurately reflect program execution and projected requirements	
10.	Transfers Out	\$-1.7

AIR FORCE

Operation and Maintenance, Active Forces

Budget Activity: Operating Forces

Activity Group: Air Operations

Detail by Subactivity Group: Combat Communications

- | | | |
|-----|--|---------|
| a. | Defense Support Program Assessment and Demonstration Center..... | \$-1.4 |
| | Transfers resources for the Assessment and Demonstration Center from Sub Activity Group Combat Communications into Sub Activity Group Global C3I and Early Warning to allow better oversight. | |
| b. | Common User Communications..... | \$-0.3 |
| | Transfer to Sub Activity Group Servicewide Communications which will provide C2 and combat support users with common user voice and data communications access. | |
| 11. | Program Increases..... | \$+60.7 |
| | | |
| a. | Joint Stars (FY 1999 Base \$82.7)..... | \$+22.5 |
| | Program growth is based on additional OPTEMPO (increase of 2,160 hours) and force structure changes as Joint Stars Inventory increases from four to eight PAA in FY 2000. | |
| b. | Theater Air Control System (TACS) (FY 1999 Base \$23.9)..... | \$+12.4 |
| | The increase provides funding for the Ground TACS System Program Office and an increase in depot level reparables requirements due to a change from depot purchased equipment maintenance. | |
| c. | Manned Reconnaissance Systems (FY 1999 Base \$358.0)..... | \$+8.2 |
| | Increase supports RC-135 Programmed Depot Maintenance contracted through a commercial depot and shipment (via SAAM cargo aircraft) of mission critical spares and personnel to operationally deployed units. | |
| d. | Modeling and Simulation Support (FY 1999 Base \$3.7)..... | \$+4.7 |
| | Increase supports warfighter training for Joint Force Air Component Commander, (JFACC), Air Force Forces (AFFORs), their staffs and AOC personnel by providing | |

AIR FORCE

Operation and Maintenance, Active Forces

Activity Group: Air Operations

Detail by Subactivity Group: Combat Communications

an accurate portrayal of air and space power assets, missions, concepts, strategy, and doctrine in the training environment.

- e. Distributed Training and Exercises (FY 1999 Base \$2.1)
Increase supports the Command and Control Warrior School at Hurlburt Field, FL (\$1.9) and AF involvement in wargames and exercises (\$0.8). \$+2.7
- f. Technical Orders
Provides funding for decentralizing technical order requirements to appropriate weapon system program elements. This provides better visibility of weapons systems costs and provides owner with flexibility to determine and control technical order requirements. \$+2.7
- g. Advanced Communication Systems (FY 1999 Base \$0.0)
Increase supports the two-way high capacity satellite communications' terminals and voice/data networks to deployed Air Expeditionary Force's. It expands our current reachback capacity by incorporating a network management system which allows us to dynamically slice available bandwidth to meet the specific system need – eliminating waste. This will ensure the warfighter has the "pipes" to conduct military operations. \$+2.0
- h. Theater Battle Management Core C2 Systems (FY 1999 Base \$18.4)
Program increase funds contractor support for Theater Battle Management Core Systems (TBMCS) fielding due to expedited fielding schedule and provides technical services to TBMCS systems. \$+1.4
- i. Tactical Information Program (FY 1999 Base \$4.8)
Program increase supports Information Operations participation (\$0.9) and Threat Protection with the increased world-wide threat to US Forces (\$0.3). \$+1.2
- j. Air Force Agency for Modeling & Simulation (AFAMS) (FY 1999 Base \$3.6) \$+1.2

AIR FORCE

Operation and Maintenance, Active Forces

Budget Activity: Operating Forces

Activity Group: Air Operations

Detail by Subactivity Group: Combat Communications

Increase supports the development of Joint training model activities and exercise support implementation.

- | | | |
|-----|--|---------|
| k. | Airborne Battlefield Command and Control Center (ABCCC) (FY 1999 Base \$11.3) ...
Increase supports contract services at deployed flight-test locations, including Joint Tactical Information Distribution System (JTIDS)/data link testing. | \$+1.1 |
| 1. | FY 2000 Flying Hour Consumption Changes
The FY 2000 Flying Hour Program was repriced to reflect the latest CY98 AF Cost Analysis Improvement Group (AFC AIG) approved cost factors which are based on the most current consumption data available. Included in this reprice are AVPOL, General Support supplies, and Depot Level Reparables (DLRs). The most significant changes have occurred in the costs of General Support supplies and Depot Level Reparables. | \$+0.6 |
| 12. | Program Decreases..... | \$-59.6 |
| a. | FY 2000 Flying Hour Changes
Changes in OPTEMPO requirements are primarily decreasing flying hours flown by Tactical Airborne Control OA-10 aircraft (-15,826 hours), AWACS E-3 aircraft (-1,374 hours), and Manned Reconnaissance RC-135 aircraft (-42 hours). | \$-39.7 |
| b. | Distributed Common Ground Station (DCGS) (FY 1999 Base \$115.1).....
Program identified cost savings associated with reduced requirements. | \$-7.1 |
| c. | Airborne Warning & Control System (AWACS) (FY 1999 Base \$153.8)
Decrease due to a one-time plus up in FY 1999 for mission training simulator devices at the controller school at Tyndall AFB, FL. Simulators will provide valuable training to new controllers (\$-6.7). | \$-6.7 |
| d. | Overseas Air Weapon Control System (OAWCS) (FY 1999 Base \$4.8) | \$-5.0 |

AIR FORCE

Operation and Maintenance, Active Forces

Budget Activity: Operating Forces

AIR FORCE

Operation and Maintenance, Active Forces

Budget Activity: Operating Forces

Activity Group: Air Operations

Detail by Subactivity Group: Depot Maintenance

- I. Description of Operations Financed: Depot Purchased Equipment Maintenance (DPEM) in this subactivity group supports the front-line fighters, bombers and missiles of the United States Air Force. Included are the F-15, F-16, F-117, A-10, B-1, B-2, B-52 and Airborne Warning and Control aircraft; and the Minuteman, Peacekeeper and various tactical missiles. DPEM encompasses funding for organic, contract and interservice depot level maintenance of aircraft, missiles, engines, software, other major end items (OMEI), Non-Working Capital Funded (NWCF) Exchangeable Items, Area and Base Support and Local Manufacture (ABM), and Storage.

II. Financial Summary (\$ in Millions):

	FY 1999		FY 2000	
	Budget Request	Appropriation	Current Estimate	Estimate
Operating Forces	\$1,225.8	\$1,022.1	\$1,035.4	\$1,288.3

	a. Funding realigned from Mobility Operations (KC-135) to facilitate the overhaul of four additional F-110 engines	\$+3.2
7.	FY 1999 Current Estimate	\$1,288.3
8.	Price Change	\$-48.7

AIR FORCE

Operation and Maintenance, Active Forces
Budget Activity: Operating Forces
Activity Group: Air Operations
Detail by Subactivity Group: Depot Maintenance

9.	Program Increases.....	\$+120.3
a.	Increase from \$17.2 to \$38.8 in FY 2000 supports training range equipment: includes overhaul of four MSR-T4 Threat Reaction Analysis in Simulated Surface to Air Missile Encounter systems, MST-T1(V) Mini Mutes Threat Emitters and MPQ-T3 electronic Radar Training set. This increase supports Electronic Warfare threat emitters which were added to the ranges after the Gulf War to rectify electronic warfare training shortfalls. These emitters are now coming due for depot maintenance.....	\$+21.6
b.	Supports increase from partial work packages (low observable work surfaces only) to full B-2 Programmed Depot Maintenance (PDM) work packages starting in FY 2000	\$+19.0
c.	Increase due to the transition of Air Force Special Operations Command Electronic Warfare software requirements from acquisition to sustainment. Additionally, funds costs associated with higher than expected Operational Flight program deficiencies for the AC-130H Gunship, MC-130P/N Tanker, and the MC-130H	\$+9.5
d.	Increase results from Joint Stars software maintenance transition from acquisition life cycle phase to sustainment life cycle phase.....	\$+8.1
e.	Supports DOD mandated use of a commercial testing environment for Air Force testers. This effort is to ensure existing air force testers can operate in the new commercial environment.....	\$+8.0
f.	Supports refurbishment of Peacekeeper canisters. Due to expected Peacekeeper deactivation under START II Peacekeeper canister maintenance was deferred. Ogden Air Logistics Center study determined canisters now require refurbishment to maintain safety standards.....	\$+5.5

AIR FORCE

Operation and Maintenance, Active Forces

Budget Activity: Operating Forces

Activity Group: Air Operations

Detail by Subactivity Group: Depot Maintenance

- | | | |
|----|--|--------|
| g. | Costs associated with the overhauling of 53 additional R-12 refueling trucks required to meet mission requirements | \$+5.3 |
| h. | Funds the transition of Satellite Communications Terminals from interim contractor support to organic support. Final costs will be determined upon the closure of Sacramento Air Logistics Center (ALC) and with the expected transfer of this workload to the Ogden ALC..... | \$+4.8 |
| i. | This increase supports the requirement to disassemble stored AIM-7 and AIM-9 missiles for the reclamation of components needed for component inventory and repair..... | \$+4.7 |
| j. | One-time requirement to overhaul 41 additional 60 AP Generators, while converting these units into a combined air conditioner and power unit, to allow for a smaller deployment footprint..... | \$+4.7 |
| k. | Increase is due to increased scope of B-1B engine overhaul work packages and an increased number of engine overhauls required. These overhauls are due to the B1-B engines reaching the 4,000 Total Accumulated Cycles inspection point. Currently there are 361 primary and 58 spare B-1B F101-102 engines in the inventory with 31 requiring maintenance in FY 2000 | \$+4.6 |
| l. | Funds maintenance costs to integrate the Air Force Mission Support System (AFMSS) into 21 weapon systems belonging to Air Mobility Command and Air Education and Training Command. These systems include the C-17, C-5, C-137, C-141, C-130E, C-130H, LC-130, C-9, KC-135E, DC-135R, KC-10, VC-15, C21, C-20, C-32, C-37, and C-27. AFMSS provides the pilot with an integrated mission planning system to plan, calculate and display the mission specific data used to configure the aircraft flight computers before actual flight. Mission planning consists of three major areas; Threat Penetration, Weapons Management and Flight Management. AFMSS is the core system that interfaces with other mission software..... | \$+4.6 |

AIR FORCE

Operation and Maintenance, Active Forces

Budget Activity: Operating Forces

Activity Group: Air Operations

Detail by Subactivity Group: Depot Maintenance

- m. Funds B-1 Block G software modification to correct software system trouble report (SSTR) discrepancies found with previous Block upgrades under the B-1 Conventional Mission Upgrade Program. The prompt correction of these software deficiencies is critical to the proper function of the complex fire control systems, integration of different munitions types and the interoperability of all related systems. These fixes will be incorporated into the Block G software system upgrades. \$+4.6
 - n. Increased cost associated with new technical order guidance to inspect/repair one-fifth of the 4,454 AGM-65 in inventory each year. Inspection is for detecting and repairing corrosion damage caused by aging cryogenic engines..... \$+3.4
 - o. Increase associated with F-16 Engine Life Management Plan implementation and additional inspections. These inspections are for the purpose of increasing engine reliability..... \$+3.2
 - p. Supports repair of software abnormalities detected in the Range Standardization and Automation System. Repairs will bring system back to a fully capable condition. \$+2.1
 - q. Increase due to start of A-10 block cycle Z software to correct various software anomalies..... \$+1.9
 - r. Increase results from requirement to fund software change to Joint Tactical Information Distribution System which converts message traffic into a joint service format and ensures timely tactical communications between services..... \$+1.8
 - s. Funds repair of B-2 software deficiencies that were deferred from FY 1999 to FY 2000 due to increased costs associated with one additional B-2 programmed depot maintenance required in FY 1999 ... \$+1.6
 - t. Funding increases B-2 engine overhauls by 12 in FY 2000 due to increased inventory and flying operations..... \$+ 1.3
10. Program Decreases..... \$-263.0
- a. FY1999 baseline included one-time Congressional increase which is not reflected in FY 2000 budget..... \$-115.9

AIR FORCE

Operation and Maintenance, Active Forces

Budget Activity: Operating Forces

Activity Group: Air Operations

Detail by Subactivity Group: Real Property Maintenance

- I. Description of Operations Financed: Real Property Maintenance (RPM) functions include maintenance and repair projects and minor construction accomplished by contract and by an in-house workforce predominantly at Air Combat Command (ACC), Pacific Air Forces (PACAF), United States Air Forces in Europe (USAFE), and Air Force Special Operations Command (AFSOC) operating installations. Our objectives are to sustain mission capability, quality of life, and workforce productivity and to preserve our physical plant. Overall adjustments to military manpower in this sub-activity reflect an ongoing transition to an Expeditionary Air Force (EAF) structure, as well as a shift in support personnel positions into primary mission areas to more accurately depict the balance between "tooth" and "tail" of the Air Force.

Infrastructure support encompasses a variety of systems, services, and operations. The most significant categories receiving this support are listed below:

Maintenance, Repair, Demolition and Minor Construction of:

Real Property
Aircraft Maintenance Complexes
Aircraft Runways
Roads
Dormitories

Detail by Subactivity Group: Real Property Maintenance

1.	FY 1999 President's Budget	\$575.7
2.	FY 1999 Revised.....	\$575.7
a.	Undistributed Congressional Adjustments	\$-21.6
1)	TDY Expenses.....	\$-1.7
2)	ADP Legacy Systems.....	\$-1.9
3)	Miscellaneous Equipment.....	\$-0.9
4)	Economic Assumptions	\$-0.7
5)	Foreign Currency	\$-5.8
6)	Bulk Fuel Savings.....	\$-10.6
b.	Realignment to meet Congressional Intent	\$5.0
1)	Rail Easement.....	
3.	FY 1999 Appropriation	\$559.1
4.	Emergency Supplemental.....	\$6
a.	Storm Damage Repair	\$6
5.	Price Changes	\$-2.0
6.	Program Increases.....	\$15.2
a.	Program Increases in FY 1999	\$15.2
1)	Real Property Maintenance	\$15.2

Net increase reflects program realignment between real property maintenance and real property services. Realignment correctly adjusts the program between

AIR FORCE

Operation and Maintenance, Active Forces

Budget Activity: Operating Forces

Activity Group: Air Operations

Detail by Subactivity Group: Real Property Maintenance

subactivity groups real property maintenance and real property services. Reflects FY 1997 actual operational levels.

7.	Revised FY 1999 Estimate.....	\$572.9
8.	Price Growth	\$18.8
9.	Transfers In.....	\$8.3
(1)	Competition and Privatization.....	\$8.3
	This is a transfer into O&M from the Military Personnel Appropriation. After careful review, the Air Force has designated these activities/functions as not military essential. A cost comparison study/direct conversion is underway to determine whether the workload will be contracted or remain in-house in accordance with the guidelines in OMB Circular A-76.	
10.	Transfers Out	\$-175.1
(1)	Grounds Maintenance.....	\$-21.0
	The transfer of grounds services to Real Property Services is twofold. First, it is based upon a decision to better align this function with the in-house manpower resources and improves cost accounting within the Real Property Maintenance Activities (RPMA) program. Additionally, grounds services are similar in nature to refuse collection, custodial and other municipal-type services.	
(2)	Realignment of Real Property Maintenance.....	\$-154.1
	In FY 2000, the Department transferred funds (\$1,845 million, DoD-wide) from the O&M account into the Quality of Life Enhancements, Defense appropriation. Funds budgeted for repair and maintenance of QOL-type facilities are included in this account	

AIR FORCE

Operation and Maintenance, Active Forces

Budget Activity: Operating Forces

Activity Group: Air Operations

Detail by Subactivity Group: Real Property Maintenance

to give it special emphasis and to encourage better management of the funds by giving them a two-year life.

- | | |
|---|---------|
| 11. Program Increases..... | \$155.1 |
| a. Program Increases in FY 2000 | \$155.1 |
| 1) Civilian Separation Incentives | \$11.4 |
| Civilian separation incentives are authorized by Section 4436 of P.L. 102-484. These costs reflect the incremental funds required in FY 2000 over and above salary savings. DoD activities may pay up to \$25,000 for separation incentives plus 15% of basic pay to OPM. The current policy is to offer incentives before a person is involuntarily separated. | |
| 2) Real Property Maintenance Programs..... | \$143.7 |
| Increase realigns funds to the preventive maintenance level (PML) of one percent of plant replacement value. PML represents the resources necessary to accomplish day-to-day recurring maintenance required to continue the existing life cycle of real property facilities and infrastructure. Current funding only supports emergency and critical repair work. The impact of deferred maintenance is reduced productivity in maintenance shops, along the flight line and in office areas. | |
| 12. Program Decreases..... | \$-2.4 |
| a. Program Decreases in FY 2000 | \$-2.4 |
| 1) Competition and Privatization Savings..... | \$-2.4 |
| This decrease reflects estimated savings which will be achieved by reducing costs through increased competition and expanded employee/private sector participation. These savings have been realigned to Air Force modernization accounts. | |

AIR FORCE

Operation and Maintenance, Active Forces

Budget Activity: Operating Forces

Activity Group: Air Operations

Detail by Subactivity Group: Base Support

- I. Description of Operations Financed: This subactivity provides funding for base support functions, and engineering and environmental programs in support of Air Force Special Operations Command (AFSOC), Pacific Air Forces (PACAF), Air Combat Command (ACC), and U.S. Air Forces in Europe (USAFE). Overall adjustments to military manpower in this sub-activity reflect an ongoing transition to an Expeditionary Air Force (EAF) structure, as well a shift in support personnel positions into primary mission areas to more accurately depict the balance between the "tooth" and "tail" of the Air Force. The main objectives are to sustain mission capability, quality of life, workforce productivity and infrastructure support. Significant categories of support are listed below:

Audiovisual Information Activities: Funds audiovisual support for video production, graphic art, photo lab, visual information library equipment maintenance, presentation sections, video teleconferencing system, management and operation of audiovisual product distribution, armament delivery recording, still photo, motion picture, television and audio recordings, and electronic and graphics imaging.

Base Communications: Supports base telephone systems, maintenance of intra-base radio systems, base wire communications, official toll calls, Class B toll calls, and other base government-owned commercial communication requirements; dedicated leased long lines that provide connectivity to Air Force and DoD networks; Global Decision Support Systems to support command and control of worldwide airlift/tanker mission requirements; standard base level computer equipment; and secure voice teleconferencing command and control systems.

Base Operating Support: Program funds transportation, security forces, comptroller, staff judge advocate, claims, and personnel organizations; dining facilities, lodging, contracting services, chaplain, administration, mess attendant and equipment maintenance contracts, postal services, data processing, airfield and air operations, furnishings management, and other authorized service activities.

Child Development Centers (CDC) and Family Support Centers (FSC): CDCs support provisions of the Military Child Care Act to include Family Day Care (FDC). Full-day, part-day, and hourly care for children is provided by CDCs. The FDC program supervises individuals who reside in on-base housing and provide full-day care for children. FSCs support readiness and retention as the focal point for family matters and provide core services such as: consultation, family readiness, crisis assistance, Air Force Aid Society, personal financial management, spouse employment, volunteer resource, and relocation and transition assistance programs.

Real Property Services: Provides essential installation facility support for purchased utilities, utility plant operations, grounds maintenance, fire protection, crash rescue, snow removal and ice alleviation, entomological services, elevator maintenance/inspection, and rents and leases. Contracted engineering services include custodial services, refuse collection, corrosion control, sewer and waste systems, facility engineering and public works management, other installation engineering services and annual service requirements performed in-house or by contract.

AIR FORCE
Operation and Maintenance, Active Forces
Budget Activity: Operating Forces
Activity Group: Air Operations
Detail by Subactivity Group: Base Support

Environmental Conservation/Compliance: Environmental Conservation provides for protection and enhancement of natural and cultural resources, environmental surveys, consultations with environmental regulators, and mapping and planning support systems. Environmental Compliance ensures all federal, state, and local environmental laws are enforced through sampling, analysis, and monitoring; hazardous waste characterization and disposal; underground storage tank removal/repair/replacement; leak detection and monitoring; spill response and clean-up; training; maintenance, repair, and minor construction projects for environmental facilities and infrastructure.

Pollution Prevention: This program was established to prevent future pollution by reducing hazardous material use and releases of pollutants into the environment to as near zero as feasible to alleviate environmentally harmful discharges to the air, land, surface and ground water.

AIR FORCE
Operation and Maintenance, Active Forces
Budget Activity: Operating Forces
Activity Group: Air Operations
Detail by Subactivity Group: Base Support

1)	Civilian Impact Cost Comparison.....	\$4.9
	1) This is a transfer from the Military Personnel Appropriation. After careful review, the Air Force has designated these activities/functions as not military essential. A cost comparison study/direct conversion is underway to determine whether the workload will be contracted or remain in-house in accordance with the guidelines in OMB Circular A-76.	
7.	Program Increases	\$6.1
	a. Program Increases in FY99.....	
	1) Real Property Services (FY 1999 Base, \$428.1).....	\$6.1
	Increase funds USAFE's municipal sewer connection fee for the use of Landstuhl Sewage Treatment plant. This changeover is needed since sewage treatment plants at Ramstein AFB, Germany are in need of replacement (exceed host nation permits and allowable standards for sewage outflow, a documented Open Enforcement Action).	
8.	Program Decreases.....	\$-21.6
	a. Program Decreases in FY 1999	
	1) Real Property Services (FY 1999 Base,\$428.1).....	\$-18.5
	Decrease reflects program realignment between real property services and real property maintenance. Realignment correctly adjusts programs to reflect FY 1997 actual operational levels.	

AIR FORCE

Operation and Maintenance, Active Forces

Budget Activity: Operating Forces

Activity Group: Air Operations

Detail by Subactivity Group: Base Support

2) Child Development Centers (FY 1999 Base, \$44.9).....\$-2.5

Funding reduced due to delays in completion of new Government of Japan centers in PACAF. Funding will not be required for these centers until FY 2000.

3) Civilian Pay Adjustment.....\$-.6

The decrease represents revised civilian pay funding requirement based on updated assessment of actual workyear costs to reflect the impact of changes such as FY 1998 locality pay.

9. Revised FY 1999 Current Estimate

10. Price Growth

11. Transfers In

\$1,479.8

\$45.0

\$107.5

a. Competition and Privatization.....\$63.4

This is a transfer from the Military Personnel Appropriation. After careful review, the Air Force has designated these activities/functions as not military essential. A cost comparison study/direct conversion is underway to determine whether the workload will be contracted or remain in-house in accordance with the guidelines in OMB Circular A-76.

b. Grounds Maintenance

The transfer of grounds services to Real Property Services is twofold. First, it is based upon a decision to better align this function with the in-house manpower resources and improves cost accounting within the Real Property Maintenance Activities (RPMA) program. Additionally, grounds services are similar in nature to refuse collection, custodial and other municipal-type services.

AIR FORCE

Operation and Maintenance, Active Forces
Budget Activity: Operating Forces
Activity Group: Air Operations
Detail by Subactivity Group: Base Support

- | | | |
|----|--|--------|
| c. | Johnston Atoll Host-Management..... | \$18.6 |
| | The Air Force has host-management responsibility of Johnston Atoll. Since 1973, host-management was delegated to the Defense Nuclear Agency (DNA), now known as the Defense Threat Reduction Agency (DTRA), to support the atmospheric nuclear testing mission. In 1993, DNA's mission was terminated, however, DNA retained the host-management mission to support the Army's chemical munitions demilitarization mission. The Army's presence at Johnston Atoll is scheduled to end 1 Oct 2001. Since there are no follow-on DoD missions identified, the host-management responsibilities and funding for Johnston Atoll have been returned to the Air Force. This increase provides the resources necessary to fund the Johnston Atoll base maintenance contract and provides day-to-day supplies, equipment and materials required for base operations. | |
| d. | Leased Vehicles..... | \$2.8 |
| | The FY 1999 Appropriations Conference Report reduced the Air Force Procurement appropriation by \$12.6 million and approved \$2.4 million for leasing vehicles. The committee recommended each service lease general purpose vehicles in order to exploit the competitive market, reduce base motor pool personnel and plan for infrastructure reductions. In response to the conference mark, the Air Force has realigned FY 2000 funds from the Procurement appropriation account to O&M to continue the transition to increased leasing of vehicles. | |
| e. | Financial Services Officer | \$1.7 |
| | Increase reflects a transfer from military to civilian authorizations, to create a senior accountant position within the Financial Services Offices (FSO) at the wing level. Implements an Air Force Inspection Agency Financial Management Review recommendation. By strengthening the financial accounting function at the wing level, long standing deficiencies within FSOs can be corrected. | |

12.	Transfers Out	\$-1.8
	a. Defense Message Center Manpower.....	\$-1.5
	This decrease realigns the Defense Messaging System (DMS) manpower from multiple program elements into the DMS program element. It will support manpower to run the DMS mail servers at each base in the Air Force.	
	b. Common User Communications	\$.3
	Transfer complies with OSD direction to transition dedicated long haul communications to common user communications. Transition will provide C2 and combat support users with common user voice and data communications access. Transferred to Servicewide Communications (SAG 42B).	
13.	Program Increases	\$219.5
	a. Program Increases in FY 2000	\$219.5
	1) Base Operating Support (FY 1999 Base, \$775.5)	\$121.5
	This increase addresses critical Base Operating Support shortfalls. The Air Force can no longer sustain readiness without an adequate level of BOS funding for combat service support and quality of life for home base and forward deployed forces. Funds mobility/deployment requirements (mobility gear, weapons qualification equipment, HAZMAT protective clothing), bench stock (supplies and equipment for transient alert, aircraft maintenance, airfield operations), vehicle operations and maintenance, transportation of forces, transportation of engines and other repair parts, training of services personnel (wartime readiness training), and messing service contracts.

- | | |
|---|--------|
| 2) Undefined Re-engineering (Competition and Privatization) | \$36.5 |
| Increase eliminates unrealized FY 1999 savings for Undefined Reengineering (Competition & Privatization). This one-time funding increase restores programs to historically funded levels. | |
| 3) Aviano 2000 | \$13.7 |
| Aviano 2000 is a comprehensive base plan to consolidate like functions, and address force protection concerns at Aviano AB, Italy. The drawdown of U.S. forces in Europe and the commencement of Operation Deny Flight in 1994, has increased, Aviano AB's populace from 1,800 in 1994 to over 4,000 personnel, without commensurate infrastructure support. Several base functions are located in the downtown area and present serious force protection concerns. While NATO has provided conjunctive funding for facility projects, these funds are required to address communication, drayage and dormitory furnishings shortfalls. | |
| 4) Pollution Prevention Program (FY 1999 Base, \$11.3) | \$10.5 |
| This increase supports the use of pollution prevention as the first choice to achieve compliance and the Air Force's Environmental mission to achieve and maintain compliance with U.S. environmental laws. | |
| 5) Base Communications (FY 1999 Base, \$95.1) | \$10.0 |
| Increase funding will support additional Air Force Operation Security Centers, core network infrastructure maintenance, and switch board operations. Funding will ensure network operating system standardization and interoperability across the Air Force and helps keep pace with escalating information flow. Increase also supports the Defense Message System, Global Broadcast System, and Global Combat and Control System. | |

AIR FORCE
Operation and Maintenance, Active Forces
Budget Activity: Operating Forces
Activity Group: Air Operations
Detail by Subactivity Group: Base Support

- | | |
|--|-------|
| 6) Munitions Support Squadron..... | \$7.9 |
| Increased funding provides base maintenance contract support at nuclear weapon munitions sites throughout Europe. | |
| 7) Civilian Separation Incentives..... | \$7.8 |
| Civilian separation incentives are authorized by Section 4436 of P.L. 102-484. These costs reflect the incremental funds required in FY 2000 over and above salary savings. DoD activities may pay up to \$25,000 for separation incentives plus 15% of basic pay to OPM. The current policy is to offer incentives before a person is involuntarily separated. | |
| 8) Environmental Compliance (FY 1999 Base, \$111.1) | \$7.3 |
| Funding supports requirements which consists of Level I projects (currently out of compliance or will be out of compliance if not funded). Increase complies with Department of Defense Final Governing Standards (FGS). The most critical clean-up and non-compliant projects will target water/waste water projects (various oil/water separators and water pretreatment facilities), installation of vapor recovery systems, and removal/replacement of underground storage tanks. Failure to fund these Level I projects would place Air Force installations at an increased risk of open enforcement actions and notices of violations. | |
| 9) Child Development Centers (FY 1999 Base, \$42.4) | \$4.3 |
| Increase supports new child development centers and school age centers at Ellsworth, Aviano, Incirlik, Misawa, Kadena, Vogelweh and Yokota. These centers have been built with Military Construction (MILCON), NATO, or Government of Japan funds. Additional funding is required for the appropriated fund personnel, supplies, equipment, etc. to operate the centers. | |

AIR FORCE

Operation and Maintenance, Active Forces

Budget Activity: Operating Forces

Activity Group: Combat Related Operations

Detail by Subactivity Group: Global C3I & Early Warning

- I. Description of Operations Financed: Global C3I & Early Warning includes resources that provide Strategic Offensive C3I, Strategic Defensive C3I, and Air Force-Wide Communications.

Strategic Offensive C3I and Computer (C4) assets comprise the medium by which interconnected airborne and ground based command centers execute commands for offensive strikes against opposing threats. This capability relies on systems which are fast, accurate, reliable, secure, resistant to destruction and disruption, and tailored to the needs of the National Command Authority, Commander-in-Chief, US Strategic Command (USCINCSTRAT), and operational commanders. More details on specific functions, capabilities, and assets follow.

The National Military Command Center (NMCC) provides crisis management including modern graphic information displays and accommodations for expanded crisis watch personnel. It is the center of all Joint Chiefs of Staff (JCS) activity. Collocated with the NMCC are the National Military Intelligence Center (NMIC), the Joint Reconnaissance Center (JRC), and a Logistics Coordination Center. The NMCC, the hub of the Global Command and Control System (GCCS), provides the National Command Authority, through the JCS, a medium to direct US military forces anywhere in the world. The Center provides effective coordination and liaison with other US government agencies such as the White House Situation Room, the Department of State, the Central Intelligence Agency, and the National Security Agency.

The National Airborne Operations Center (NAOC), a primary node of the National Military Command System (NMCS), now provides a survivable command, control, and communications platform for the President, Secretary of Defense, and Joint Chiefs of Staff during all phases of peace and war. The NCA worldwide ground communications network links NAOC, Air Force One, and other airborne ground and mobile command posts with the National Command Authority. The network consists of fixed and mobile ground radio sites and circuitry, and interfaces with military and commercial communications systems. The NMCS consists of equipment for emergency actions and contingency communication among the National Military Command Center (NMCC), Commanders-in-Chief (CINC) Command Centers, Air Force Operations Center (AFOC), Major Command Centers, the White House, allies, and State Department operations worldwide.

C4 systems support USCINCSTRAT's execution of US national security policy and military strategy through all levels of conflict and in any environment. The program includes the United States Strategic Command's suite of equipment for the Commander in Chief's Mobile Consolidated Command Center (MCCCC). The MCCCC is a series of ground transportable "trailers" to support the battle staff functions. Also included is the modernization initiatives, and the automated data processing for the Strategic War Planning System (SWPS) which supports development and analysis of the Single Integrated Operational Plan (SIOP), our National War Plan.

AIR FORCE

Operation and Maintenance, Active Forces

Budget Activity: Operating Forces

Activity Group: Combat Related Operations

Detail by Subactivity Group: Global C3I & Early Warning

Other assets include the USSSTRATCOM Airborne Command Post (ABNCP) whose battlestaff crew members fly aboard the Navy's Take Charge and Move Out (TACAMO) aircraft that serves as an airborne alternate USSSTRATCOM command post which would assume command and control for various strategic elements in the event of war; survivable communication links for the NCA world-wide ground communications Ground Entry Points (GEPs); and technical support for current USSSTRATCOM command and control programs and improvements.

Strategic Defensive C3I supports the strategic defensive surveillance and tactical warning mission which provides radar surveillance and timely, reliable warning of enemy attack through employment of a worldwide network of assets such as: the Joint Surveillance System (JSS) long range radar sites; the North Warning System (NWS) radar; the North Atlantic Defense System (NADS); the Ballistic Missile Early Warning and Attack Assessment (TW/AA) System; the Ballistic Missile Early Warning System (BMEWS); the Sea Launched Ballistic Missile (SLBM) System; and the Over-the-Horizon Backscatter (OTH-B) Radar System.

The Joint Surveillance System (JSS) provides command, control, and communications (C3) and air surveillance capability in support of North American Aerospace Defense Command (NORAD) atmospheric Tactical Warning and Attack Assessment (TW/AA), air sovereignty, and air defense requirements. The program consists of joint-use radars around the periphery of the CONUS, 12 radars in Alaska, three Sector Air Operations Centers (SAOCs) in the CONUS, and three Regional Air Operations Center (RAOCs). The SAOC and RAOC together provide command and control of forces for airspace control and air defense against atmospheric attack. The R/SAOCs receive sensor data from radar sites to detect, track, identify and intercept, if necessary, aircraft penetrating U.S. sovereign airspace. Control centers also receive tactical warning information from the North Warning System (NWS) sites to provide warning of bomber attack so that survival decisions and timely defensive actions can be taken. There are 12 JSS sensor sites in Alaska (12 joint FAA-USAF sites), while in the CONUS there are 40 JSS sensor sites (39 joint FAA-USAF sites and 1 USAF site).

In 1985, the US and Canada agreed to replace the aging Distant Early Warning (DEW) line with a network of 54 new radars. The new network, known as the North Warning System (NWS), consists of 15 Minimally Attended Radars (MARS) and 39 gap filler Unattended Radars (UARs) and one engineering log set radar at the depot. The program is jointly funded on a 60/40 (US/Canada) basis.

The North Atlantic Defense System (NADS) is a NATO program consisting of four radar sites and a control and reporting center in Iceland operated by the Air Force. NADS provides surveillance radar operations essential to the air defense of Iceland and the North Atlantic.

Detail by Subactivity Group: Global C3I & Early Warning

Minimum Essential Emergency Communications Network (MEECN) provides assured communications connectivity between the National Command Authorities and the strategic deterrent forces. While the National Command and Control System (NCCS) operates both survivable and non-survivable communications links, the MEECN network is focused solely on survivable communications, providing assured communications on a global basis throughout the spectrum of conflict.

The Ballistic Missile Early Warning System (BMEWS) provides warning of a limited or mass Intercontinental Ballistic Missile (ICBM) attack against North America, the United Kingdom, and Europe, or a Sea Launched Ballistic Missile (SLBM) attack within the system's geographical coverage. BMEWS provides attack assessment data to the North American Aerospace Defense Command, the United States Space Command, Air Force Space Command, United States Strategic Command, and the National Command Authorities. BMEWS also provides satellite detection and tracking data to the Space Surveillance Network (SSN). The Ballistic Missile Tactical Warning and Attack Assessment (TW/AA) System provides end-to-end integration and support to the entire ballistic missile warning network to include sensors and communications, command, and control facilities. BMEWS complements the Defense Support Program (DSP) by providing threat areas with a second detection, or second phenomenology.

The SLBM Radar Warning System, which consists of five sites (3 operational , 2 in care taker status), detects and provides warning of an SLBM attack against North America through two radar systems: the Phased Array Radar Systems (PAVE PAWS) and the Perimeter Acquisition Radar Attack Characterization System (PARCS). PAVE PAWS sites are located at Cape Cod AFS, MA; Beale AFB, CA; Eldorado AFS, TX; and Robins AFB, GA. The Eldorado and Robins Systems were placed in cold storage in 1998. The PARCS site is at Cavalier AFS, ND. The SLBM system also complements the Defense Support Program (DSP) by covering threat areas with a second detection phenomenology.

The Over-the-Horizon Backscatter (OTH-B) Radar provides long range (500 to 2000 NM), wide area, all altitude surveillance and tactical warning of aircraft approaching North America. It is composed of two bi-static radar systems: an East Coast radar system and a West Coast radar system. Each radar system consists of three 60 degree radar segments that provide 180 degree coverage of the East and West coasts, respectively. In FY 1997, both the East Coast and West Coast systems transitioned to cold storage from warm storage; funds reflect the cold storage.

The Defense Support Program (DSP) is a highly survivable and reliable satellite-borne surveillance system which provides ballistic missile early warning and other information related to missile launches, surveillance, and detonation of nuclear weapons to the National Command Authorities. This system consists of a constellation of satellites (operational satellite numbers are classified), fixed and mobile ground stations, and a ground network. Three operational ground systems support satellite operations worldwide.

Detail by Subactivity Group: Global C3I & Early Warning

The Nuclear Detonation (NUDET) Detection System (NDS) program provides worldwide highly-survivable capability to detect, locate, and report nuclear detonations in the earth's atmosphere and in near-earth space in near real time. The system is composed of sensors carried as a secondary payload on both GPS and DPS satellites using both fixed and mobile ground terminals. These terminals interface with the Ground Communication Network to provide the National Command Authorities notification of nuclear event detection.

The Space Defense Interface Network connects Cheyenne Mountain AFB to worldwide sensor sites supporting the Space Control and Space Surveillance missions of the Space Control Center. Another Cheyenne Mountain-based program, the TW/AA system delivers timely, unambiguous, and accurate integrated TW/AA information to the National Command Authorities, allies, and Unified and Specified Commanders-in-Chief (CINCs). The program includes the Space Defense Operations Center (SPACDOC) Command, Control, Communications, and Computer (C4) computer system, a component of the Cheyenne Mountain Upgrade (CMU), which is a program to upgrade and/or replace systems in Cheyenne Mountain, as well as the Air Force Space Command suite of equipment for the Commander-in-Chief Mobile Consolidated Command Center (MCCC). CMU completed its final phase of testing on 5 Aug 98, well ahead of the Approved Program Baseline (APB) schedule. The MCCC is a series of ground transportable "trailers" to support the battle staff function. The TW/AA Interface Network provides data and voice communications that link ballistic missile sensor systems to command centers supporting CINC NORAD, USCINCSpace, USCINCSRAF, and the National Command Authorities. These circuits provide data necessary to make force management and force survival decisions.

Air Force-Wide Communications programs support development of a survivable communications capability for worldwide C2 communications during pre-attack, trans-attack, and post-attack periods. It provides satellite communications terminal facilities and activation of the Milstar Mission Control Segment required for system operations. The MILSATCOM program will be able to first sustain current capability and then modernize the MILSATCOM infrastructure on a system-of-systems basis. Tying together the C2 is the Global Command and Control System (GCCS), the DOD's single, compatible, integrated, C4I system. GCCS supports all echelons of US military command structure, and provides a single view of the military C4I for the war fighter through a widely distributed user driven network.

C. Reconciliation of Increases and Decreases (\$s in Millions):

1.	FY 1999 President's Budget	\$669.4
2.	FY 1999 Revised.....	\$669.4
a.	Undistributed Congressional Adjustments	\$-27.2
1)	Bulk Fuel Savings	\$-12.4
2)	TDY Reductions.....	\$-3.3
3)	Legacy Systems	\$-7.4
4)	Miscellaneous Equipment.....	\$-0.7
5)	Revised Economic Assumptions.....	\$-1.4
6)	Foreign Currency	\$-2.0
3.	FY 1999 Appropriation	\$642.2
4.	Emergency Supplemental (Flying Hours/Spares)	\$0.4
5.	Price Changes.....	\$-2.8
6.	Program Increases.....	\$+.1
1)	FY 99 Flying Hour Consumption Changes	\$+.1

The FY 1999 Flying Hour Program was repriced to reflect the latest CY 1998 AF Cost Analysis Improvement Group (AFC AIG) approved cost factors which are based on the most current consumption data available. Included in this reprice are AVPOL, System & General Support supplies, and Depot Level Reparables (DLRs). The most significant changes have occurred in the costs of General Support supplies and Depot Level Reparables.

Operation and Maintenance, Active Forces

Budget Activity: Operating Forces

Activity Group: Combat Related Operations

Detail by Subactivity Group: Global C3I & Early Warning

7.	FY 1999 Current Estimate.....	\$639.9
8.	Price Growth.....	\$+17.7
9.	Transfers In.....	\$+5.0
a.	Competition and Privatization.....	\$+3.5
	This is a transfer into O&M from the Military Personnel Appropriation. After careful review, the Air Force has designated these activities/functions as not military essential. A cost comparison study/direct conversion is underway to determine whether the workload will be contracted or remain in-house in accordance with the guidelines in OMB Circular A-76.	
b.	Defense Support Program (DSP) Assessment & Demonstration Center.....	\$+1.4
	Resources for the Assessment and Demonstration Center transfer from Sub Activity Group, Combat Communications, into Sub Activity Group, Global C3I and Early Warning, to maintain oversight.	
c.	National Military Command System (NMCS).....	\$+.1
	Centralizes funding from Subactivity Group: Servicewide Communications into the NMCS program to provide a clear audit trail for actual expenditures aligning program funding with execution.	
10.	Transfers Out	\$-3.7
a.	Theater Battle Management.....	\$-2.8
	Transfers funding for Deliberate and Crisis Action Planning and Execution System (DCAPES) from Sub Activity Group, Global C3I and Early Warning, into Sub Activity Group, Combat Communications, Theater Battle Management C4i, in an effort to align funding for DCAPES with other TBMCS for improved funds management.	

AIR FORCE

Operation and Maintenance, Active Forces

Budget Activity: Operating Forces

Activity Group: Combat Related Operations

b.	Common User Communications	\$-.7	
	Transfer complies with OSD direction to transition dedicated long haul communications to common user communications. Transition will provide C2 and combat support users with common user voice and data communications access.		
c.	Defense Messaging System Manpower.....	\$-.2	
	This decrease realigns the Defense Messaging System (DMS) manpower from multiple program elements into the DMS program element. These are resources needed to run the DMS mail servers at each base in the Air Force.		
11.	Program Increases.....	\$+22.3	
a.	Defensive Surveillance C3I (FY 1999 Base \$209.5)	\$+11.8	
	1) Increase (\$+5.7) to the North Atlantic Defense System as the AF accepted operational responsibility for the NATO Control and Reporting Center and Iceland Software Support Facility which are primarily O&M contracts. 2) Increase (\$+5.7) to depot level reparables required to sustain continuing operational requirements for the Travelling Wave Tubes, the critical mission component found in the primary space surveillance sensors. 3) Increase (\$+4.6) for increased consumption of supplies and depot level reparables supporting Ballistic Missile Early Warning Systems. 4) Increase (\$+2.6) restores Joint Surveillance Systems (JSS) funding to its normal O&M baseline level. Also included is a Department of Labor mandated wage determination increase for contractor personnel. 5) Increase (\$+1.9) funds a core program disconnect in the US. Nuclear Detonation Detection System. The Integrated Correlation and Display System (ICADS) requires 24-hour-a-day, 7-days-per-week fixed site operations to maintain overall system response. 6) Increase (\$+.9) to pay for minimum maintenance for Over-the-horizon radar placed in cold storage. This increase corrects shortfalls created during the cold storage transfer and meets minimal contractual requirements only. 7) Increase (\$+.9) funds reflects unit support costs at the European Relay Station, Relay Ground Station-Pacific, Survivable Relay Ground Station, and Interim		

AIR FORCE

Operation and Maintenance, Active Forces

Budget Activity: Operating Forces

Activity Group: Combat Related Operations

Detail by Subactivity Group: Global C3I & Early Warning

Mission Control Backup (IMCS-B). 8) Decrease (\$-5.7) reflects the transition of the current Defense Support Program (DSP) operations to Spaced Based Infrared Systems (SBIRS). 9) Decrease (\$-4.8) to the North Warning System as FY 1999 is the last year of programmed debt repayment to Canada.

b.	Air Force-Wide Communications C3I (FY 1999 Base \$136.1)	\$+9.9
	1) Increase (\$+5.3) providing Air Force receive terminals which will transfer imagery, weather, and video (i.e. Predator) to the warfighter. 2) Increase (\$+2.4) to support implementation of the Deliberate Crisis Action Planning and Execution System. 3) Increase (\$+2.2) to enhance operational point to point communications capability between the military command and control primaries and provides National Command Authority with improved automated tools to notify senior leadership of emergency situations.	
c.	Undefined Reengineering (Competition & Privatization)	\$+.6
	Increase eliminates unrealized savings for Undefined Reengineering (Competition & Privatization). This one-time funding increase restores programs to historical funding levels to the Air Force-Wide C3I program.	
12.	Program Decreases.....	\$-15.3
a.	Strategic Offensive C3I (FY 1999 Base \$172.5)	\$4.7
	1) Decrease (\$-8.6) the Strategic War Planning System's (SWPS) software development as applications move from mainframe to the client-server environment. This is part of an overall SWPS modernization effort and long term program cost reduction plan as many long term modernization efforts have taken place. 2) Decrease (\$-2.7) to Worldwide Joint Strategic Communications resulting from steep reductions to voluntary separation incentive payments. 3) Decrease (\$-.1) reflect the complete retirement of the EC-135s in Oct 98. 4) Increase (\$+3.9) reflects the sustainment funding required to maintain new E-4 National Airborne Operations Center(NAOC) Command and Control Systems (NAOC). 5) Increase (\$+2.8) to provide the National	

AIR FORCE

Operation and Maintenance, Active Forces

Budget Activity: Operating Forces

Activity Group: Combat Related Operations

Detail by Subactivity Group: Global C3I & Early Warning

Military Command Center (NMCC) increased Global Situation Assessment and Mapping System tools critical to global arena evaluations. Additionally, this increase supports 40 different contractual services, to include site security, essential to NMCC operations and maintenance.

b. Strategic Defensive C3I (FY 1999 Base \$122.2).....\$-6.9

1) Decrease (\$-7.1) is the result of several completed Tactical Warning/Attack Assessment System (TW/AA) initiatives to include the Thin Line EMP Hardness Restoral, some Y2K hardware and software modifications, and External Systems Clear Radar Upgrade (CRU). 2) Increase (\$+.2) to upgrade regional and sector air operations center communications and additional costs to support the orderly transition of the TW/AA network from AUTO DIN (current messaging system) to the new Defense Messaging System.

c. Competition and Privatization Savings.....\$-3.7
This decrease reflects estimated savings which will be achieved by reducing costs through increased competition and expanded employee/private sector participation. These savings have been realigned from Air Force O&M to Air Force modernization accounts.

13. FY 2000 Budget Request.....\$665.9

AIR FORCE

Operation and Maintenance, Active Forces

Budget Activity: Operating Forces

Activity Group: Combat Related Operations

Detail by Subactivity Group: Navigation/Weather Support

- I. Description of Operations Financed: The Air Force Air Traffic Control, Approach and Landing System (ATCALS) combines Air Force ground facilities and equipment with associated avionics, personnel and procedures to provide safe, orderly and expeditious aerospace vehicle movements on a worldwide basis. The program encompasses those navigation and control systems common to the DoD mission and not provided by the Federal Aviation Administration (FAA) in the following major functional areas: enroute and terminal navigation, approach and landing, air traffic control communications and air traffic control simulators. It also provides selected support for the Air Traffic Control Enhancement (R-2508) in restricted airspace over the Mojave Desert. Under a reimbursable agreement the FAA provides air traffic services and maintains equipment. Examples of assets supported and initiatives include the LORAN-C/D equipment in PACAF and USAFE and integration of new radars and communication equipment into the R-2508 test range complex in the upper Mojave Desert. The number of radars have decreased as a result of base closures.

The Weather Program supports the operations, management, readiness, and sustainment of the Air Force weather forces and space environmental support system. This system provides weather observing and forecasting services at over 200 locations to the Air Force, Army, Unified Commands and national agencies. It ensures that general and specialized support is provided to Air Force and Army combat operations worldwide. It provides for the centralized strategic support services of the Air Force Weather Agency (Offutt AFB, NE), the USAF Combat Climatology Center (Asheville, NC), the 55th Space Weather Squadron (Schriever AFB, CO), and the Joint Typhoon Warning Center (Andersen AFB, Guam). The Air Force weather support system also provides a space environmental observation and forecast capability required to continuously monitor solar activity and to assess its potential impact on military space systems and communications. The Weather/Notices to Airmen (NOTAM) communications includes all weather and NOTAM communications connectivity to DoD locations worldwide and non-DoD agencies in support of mutually cooperative agreements. Due to the Air Force transition to an Expeditionary Air Force (EAF), only civilian and military positions and associated pay has been realigned. O&M support tails will be moved as EAF requirements become finalized.

C. Reconciliation of Increases and Decreases (\$s in Millions):

1.	FY 1999 President's Budget Request	\$118.4
2.	FY 1999 Revised.....	\$118.4
a.	Undistributed Congressional Adjustments	\$-5.8
1)	TDY	\$-2.1
2)	Bulk Fuel Savings.....	\$-1.8
3)	Legacy Systems	\$-1.2
4)	Miscellaneous Equipment.....	\$-0.2
5)	Revised Economic Assumptions	\$-0.3
6)	Foreign Currency	\$-0.2
b.	Realignment to meet Congressional Intent	\$5.0
1)	University Partnering for Operational Support.....	\$5.0
3.	FY 1999 Appropriation	\$117.6
4.	Price Changes.....	\$-.3
5.	Program Decreases.....	\$-4.3
a.	Civilian Pay Adjustment	\$4.3
	The decrease represents revised civilian pay funding requirements based on updated assessment of actual workyear costs to reflect the impact of changes such as FY1998 locality pay.	
6.	FY 1999 Current Estimate	\$113.0
7.	Price Growth	\$+4.2

AIR FORCE
Operation and Maintenance, Active Forces
Budget Activity: Operating Forces
Activity Group: Combat Related Operations
Detail by Subactivity Group: Navigation/Weather Support

8.	Transfers In	\$+3.3
	a. Competition & Privatization.....	\$+3.3
	This is a transfer into O&M from the Military Personnel Appropriation. After careful review, the Air Force has designated these activities/functions as not military essential. A cost comparison study/direct conversion is underway to determine whether the workload will be contracted or remain in-house in accordance with the guidelines in OMB Circular A-76.	
9.	Transfers Out	\$-.1
	a. Air Traffic Control Enhancement Common User Communications.....	\$-.1
	Transfer transitions dedicated long haul communications to common user communications in Subactivity Group: Servicewide Communications. Transition will provide C2 and combat support users with common user voice and data communications access.	
10.	Program Increases.....	\$+16.1
	a. Weather Service & NOTAM Communications (FY 1999 Base \$85.6)	\$+11.8
	In FY 2000 the Weather Service and NOTAM Communication programs were merged into a single program. This increase funds contracts supporting eleven new regional hubs and equipment maintenance merged from the NOTAM Communications program. The regional hubs are a response to a loss of experienced weather forecasters at each base by centralizing the in-depth forecasting function. These hubs will provide theater-scale weather forecasts, fine scale target forecasts, and issue weather warnings to Air Force and Army component decision makers.

Budget Activity: Operating Forces

Activity Group: Combat Related Operations

Detail by Subactivity Group: Navigation/Weather Support

\$+4.3

- b. Air Traffic Control & Landing Systems (FY 1999 Base \$24.7).....
Increase (\$2.7) reflects contractor logistic support (CLS) costs for the new Voice Communications Switching System and the Military Airspace Management System coming out of warranty. Increase (\$.8) covers engineering costs associated with lifecycle extension for the GPN-12 and GPN-20 airport surveillance radars, the TPX-42 beacon system, and the integration of existing Air Force airport surveillance radars with FAA's Standard Terminal Automation Replacement Systems (STARS). Increase (\$.8) covers funding for contracts for new Air Force Terminal Instrument Procedures software used to draw and validate instrument approaches to airfields. This requirement was identified in an after action report driven home by a fatal aircraft (CT-43) mishap.

- I. **Description of Operations Financed:** Resources provide for support equipment, necessary facilities and other costs in support of defensive training; civil engineer heavy repair squadrons (Red Horse); organizations, activities, and procedures structured to provide intelligence and intelligence functional support to USAF Tactical Command and Control. Also supported are other USAF tactical force elements; aircraft delivery; ground processing and interpretation of reconnaissance imagery acquired by USAF tactical reconnaissance aircraft; national security emergency preparedness; engineering installation support; base physical security systems. (i.e., perimeter detection sensors); chemical and biological defensive equipment items and materials; specialized equipment to mislead hostile intelligence regarding the disposition of USAF tactical forces; combat development activities to support experimentation, tests, projects, evaluations necessary to develop and/or validate new doctrine, material and organization; anti-terrorism programs; and electronic combat intelligence support programs.

- | | | |
|-----|---|---------|
| a. | Transfers In..... | \$+7.7 |
| 1) | Engineering and Installation Support | \$+6.6 |
| | Increase is due to divestiture of the 38th Engineering and Installation Wing (EIW) at Tinker AFB of unit organic installation and engineering services. In FY 2000 these services will be accomplished via centrally managed contracts. This program transferred from Subactivity Group: Other Servicewide Activities. | |
| 2) | Air Force National Security Preparedness..... | \$+1.1 |
| | Supports realignment of the Air Force National Security Preparedness (AFNSEP) agency from a Field Operating Agency (FOA) of Air Combat Command to a HQ USAF Field Operating Agency (FOA). Funding and endstrength realigned from Subactivity Group: Management/Operational Headquarters. | |
| 3) | Competition and Privatization | \$+0.3 |
| | This is a transfer into O&M from the Military Personnel Appropriation. After careful review, the Air Force has designated these activities/functions as not military essential. A cost comparison study/direct conversion is underway to determine whether the workload will be contracted or remain in-house in accordance with the guidelines in OMB Circular A-76. | |
| b. | Transfers Out..... | \$-0.3 |
| 1) | Competition and Privatization Savings..... | \$-0.3 |
| | This decrease reflects estimated savings which will be achieved by reducing costs through increased competition and expanded employee/private sector participation. These savings have been realigned to Air Force modernization accounts. | |
| 11. | Program Increases | \$+34.9 |
| a. | Anti-Terrorism (FY 1999 Base \$8.9) | \$+7.9 |

AIR FORCE

Operation and Maintenance, Active Forces

Budget Activity: Operating Forces

Activity Group: Combat Related Operations

Detail by Subactivity Group: Other Combat Operations Support
Air Force Security Forces assessed USAFE as the most vulnerable command to terrorist attacks in the Air Force. Increase supports physical security equipment requirements to detect, delay and deny threats.

- b. Civil Engineer Squadrons (HV Repair) (FY 1999 Base \$6.8) \$+7.8
Increase will support new readiness reportable training for the three Red Horse Squadrons (RHS) that are now all at Full Operational Capability (FOC).
- c. Air Base Ground Defense (FY 1999 Base \$14.5) \$+5.3
Increase will finance anti-terrorist equipment requirements (i.e., security lighting, security fences, portable explosive devices, and blast barriers) defined by vulnerability assessments.
- d. Combat Air Intel System Activities (FY 1999 Base \$38.7) \$+4.9
Increased funds supports contracted commercial land and radar satellite (Intelligence, Surveillance and Reconnaissance) imagery recently approved (Congress, Mar 98) for the KEEN SAGE program. Details are classified and can be provided upon request.
- e. Combat Developments (FY 1999 Base \$78.2) \$+3.9
Adjusts the Depot Level Reparables funding from 95 to 100 percent of requirement.
- f. Air Force Technical Exploitation of National Capabilities (TENCAP) (FY 1999 Base \$6.0) \$+1.9
The increase funds studies of National Space systems used in designing military space system requirements. These space system requirements and capabilities will be evaluated by MAJCOMs, for their utility in space operations, during joint service exercises and training.

AIR FORCE

Operation and Maintenance, Active Forces
Budget Activity: Operating Forces
Activity Group: Combat Related Operations
Detail by Subactivity Group: JCS Exercises

- I. Description of Operations Financed: The Chairman, Joint Chiefs of Staff (CJCS) Joint Exercise and Training Program is the principal vehicle for achieving joint and multinational training. It provides a tangible demonstration of US resolve and a joint readiness capability to project military presence anywhere in the world in support of national interests and commitments to US allies. This program funds incremental O&M costs incurred as a direct result of planning for or taking part in an exercise. Air Force O&M funding for participation in CJCS exercises is based on requirements identified in the Joint Training Master Schedule. Costs are incurred in categories such as transportation of equipment, travel of personnel, supplies, and for other exercise related requirements. Air Force funding under this program also supports incremental funding incurred by those unified and joint agency staffs for which the Air Force is the Service Executive Agent (United States Central Command; USCENTCOM, United States Space Command; USSPACECOM, United States Strategic Command; USSTRATCOM, United States Transportation Command; USTRANSCOM, North American Aerospace Defense Command; NORAD, and the Joint Command and Control Warfare Center, JC2WC).

AIR FORCE

Operation and Maintenance, Active Forces

Budget Activity: Operating Forces

Activity Group: Combat Related Operations

Detail by Subactivity Group: Management/Operational Headquarters

- I. Description of Operations Financed: Management Headquarters activities include overhead costs for civilian pay, travel, supplies and equipment. The various headquarters supported include US Strategic Command at Offutt Air Force Base; the North American Aerospace Defense Command (NORAD) Combat Operations Staff located at Cheyenne Mountain Air Force Station; US Central Command at MacDill Air Force Base; Air Combat Command at Langley Air Force Base; US Pacific Air Forces; US Air Forces in Europe; Space Command locations; and the Air Intelligence Agency at Kelly Air Force Base. Overall adjustments to military manpower in this sub-activity reflect an ongoing transition to an Expeditionary Air Force (EAF) structure, as well a shift in support personnel positions into primary mission areas to more accurately depict the balance between the "tooth" and "tail" of the Air Force.

II. Force Structure Summary:

	FY 1998	FY 1999	FY 2000
Military End Strengths	7,123	7,164	5,955
Civilian End Strengths	1,323	1,327	1,282

AIR FORCE

Operation and Maintenance, Active Forces

Budget Activity: Operating Forces

Activity Group: Space Operations

Detail by Subactivity Group: Launch Facilities

- I. Description of Operations Financed: The spacelift ranges are composed of the Western Range (WR) headquartered at the 30th Space Wing, Vandenberg AFB, CA and the Eastern Range (ER) headquartered at the 45th Space Wing, Patrick AFB, FL. The spacelift ranges provide tracking, telemetry, communications, range safety, weather and other support for DoD, civil and commercial space launches, intercontinental and sea-launched ballistic missile test and evaluations (T&E) and aeronautical T&E. The spacelift ranges consist of range operations control centers, hardware and software required to provide command and control of day-to-day range and launch operations. They consist of instrumentation that provides range safety and user metric data through the use of launch vehicle telemetry, weather instruments, metrics, optics and uplink capabilities. They also provide a conduit for sending all voice, video, and data to and from remote and local instrumentation sites. The spacelift ranges are responsible for infrastructure maintenance functions, to include heating and air conditioning, fire protection/detection, and corrosion control. Also, spacelift range funding pays for contractor payload/vehicle operations necessary to ensure successful space launches, contract range activities necessary to support launch of operational space vehicles and payloads, and contract activities necessary to operate and maintain range systems. The spacelift range functions are critical to the success of all DoD, civil, and commercial space launch, ballistic missile and aeronautical test and evaluation from the Eastern and Western Ranges. Operations and maintenance of launch pads is funded in Subactivity Group, Launch Vehicles.

Detail by Subactivity Group: Launch Facilities

8.	Functional Transfers.....	\$+0.3
	a. Transfers In.....	\$+0.3
	(1) Competition and Privatization.....	\$+0.3
	This is a transfer into O&M from the Military Personnel Appropriation. After careful review, the Air Force has designated these activities/functions as not military essential. A cost comparison study/direct conversion is underway to determine whether the workload will be contracted or remain in-house in accordance with the guidelines in OMB Circular A-76.	
9.	Program Increases.....	\$+5.9
	a. Eastern Space Launch Facility/Range (FY 1999 Base \$145.5)	\$+5.9
	Increase supports Range Technical Services to include engineering, software and design programming for real time and non-real time data processing, system performance analysis, and analysis of range user requirements. This funding will allow integration of the Cape Command Destruct System upgrades, engineering analysis of Space Launch Complex 41 prior to dismantle/modify efforts by Lockheed Martin for Evolved Expendable Launch Vehicle, and capability to engineer/produce spares. Historically the Eastern Range produces 900-1,000 spares per year for parts that are out of production.	
10.	FY 2000 Budget Request.....	\$218.7

AIR FORCE
Operation and Maintenance, Active Forces
Budget Activity: Operating Forces
Activity Group: Space Operations
Detail by Subactivity Group: Launch Vehicles

- I. Description of Operations Financed: Launch vehicles for satellites include Delta II, Atlas IIA, Titan II, and Titan IV launch vehicles, and the Inertial Upper Stage (IUS) flown on the Titan IV for Defense Support Program Satellites. The medium launch vehicles and the Titan II and IV programs provide consolidated launch and orbital support for operational DoD space programs. The Atlas IIA, Titan IV, and Delta II space launch capability at Cape Canaveral AS, FL and the Delta II, Titan II and Titan IV space launch capability at Vandenberg AFB, CA must satisfy the launch requirements of the DoD satellite programs. Atlas II capability at Vandenberg AFB, CA is scheduled for December 1998. Delta II, Atlas II and Titan IV launch vehicles will transition to the Evolved Expendable Launch Vehicle (EELV) beginning in FY 2002. EELV will satisfy the launch requirements of the DoD, National and civil users at Vandenberg AFB, CA and Cape Canaveral AS, FL. The requirements are a function of the number of satellites on-orbit and their success and failure rates. Resources finance contractual services supporting the various launch capabilities; fuel; overtime; and pad refurbishment and maintenance.

AIR FORCE

Operation and Maintenance, Active Forces

Budget Activity: Operating Forces

Activity Group: Space Operations

Detail by Subactivity Group: Space Control Systems

- I. Description of Operations Financed: Space Control Systems include the Air Force Satellite Control Network (AFSCN). AFSCN support is for operational satellites and provides the global network of control centers, Remote Tracking Stations, and communications links required to operate military satellites, both operational and R&D. AFSCN activities include AFSCN Operations, Satellite Control Network (SCN) Communications, and sustainment. AFSCN Operations provides funding for operations and maintenance, logistics, and management of control centers, Remote Tracking Stations, and support elements. SCN Communications provides funding for the operation and maintenance of an extensive mission communications network interfacing Onizuka Air Station, California, and Schriever AFB, Colorado, with the worldwide tracking stations to support assigned DoD, NASA, and classified space programs. SCN Communications funds satellite mission communications, launch, wire and administrative communications, and radio frequency analysis required by operational DoD and National satellites. In addition, the sustainment effort provides software and hardware maintenance, engineering support, on-site operations support to the Air Force Space Command (AFSPC), and Program Office support.

II. Force Structure Summary:

Air Force Satellite Control Network:	FY 1998	FY 1999	FY 2000
Antennas.....	15	15	15
Control Nodes.....	2	2	2
Remote Tracking Sites	8	8	8
Spacecraft Check-out facilities (Transportable)	1	1	1
External Agencies Supported.....	11	11	11
Military End Strengths.....	1,408	1,268	1,200
Civilian End Strengths.....	273	309	305

C. Reconciliation of Increases and Decreases (\$s in Millions):

1.	FY 1999 President's Budget	\$246.9
a.	Congressional Adjustment (Distributed)	\$+7.0
1)	Space Command Operations (Maui Telescope)	\$+7.0
2.	FY 1999 Revised	\$253.9
a.	Undistributed Congressional Adjustments	\$-11.6
1)	Bulk Fuel Savings	\$-5.3
2)	ADP Legacy	\$-4.8
3)	TDY Expenses	\$-1.0
4)	Miscellaneous Equipment	\$-0.3
5)	Section 8108 Economic Assumption	\$-0.2
3.	FY 1999 Appropriation	\$242.3
4.	Price Changes	\$-0.9
5.	Program Decreases	\$-7.3
a.	Space Command Operations (Maui Telescope)	\$-7.0
Realigned to reflect program execution.		
b.	Base Realignment and Closure (BRAC)	\$-0.3
Reflects a refinement in the distribution of anticipated BRAC savings associated with relocating Onizuka Air Station, CA operations and inactivation of 321 st Missile Group at Grand Forks AFB, ND.		
6.	FY 1999 Current Estimate	\$234.1

AIR FORCE

Operation and Maintenance, Active Forces
Budget Activity: Operating Forces
Activity Group: Space Operations
Detail by Subactivity Group: Space Control Systems

7.	Price Growth.....	\$+5.2
8.	Program Transfers.....	\$0.7
	a. Transfers In.....	\$+0.7
	(1) Competition and Privatization	\$+0.7
	This is a transfer into O&M from the Military Personnel Appropriation. After careful review, the Air Force has designated these activities/functions as not military essential. A cost comparison study/direct conversion is underway to determine whether the workload will be contracted or remain in-house in accordance with the guidelines in OMB Circular A-76.	
9.	Program Increases.....	\$+21.9
	a. Space Control Systems Operations (FY 1999 Base \$246.9).....	\$+11.5
	Increase in maintenance and sustainment due to extending the service life of systems because of the deferment of modernization. Operational workarounds and increased maintenance will continue until newer/improved systems can be procured. The need to maintain and replace ground transmitters interference filtering systems is also increasing because of communication devices (\$10.0). Increase in critical space contract operations and lease costs of commercial communications circuits due to transition to the Defense Information Systems Agency (DISA) Defense Information System Network (DISN) asynchronous transfer mode (ATM) capability to provide improved mission support between control centers and remote tracking systems (\$1.5).	
b.	Evolved Expendable Launch Vehicle (EELV) (Space) (FY 1999 Base \$0).....	\$+9.5
	FY 2000 is the first year for funding EELV operations and maintenance efforts needed in preparation for the first launch no later than FY 2002. Funding includes launch base support, general supplies/equipment, range technical services, range visual information technical services, and flight safety analysis.	

AIR FORCE

Operation and Maintenance, Active Forces

Budget Activity: Operating Forces

Activity Group: Space Operations

Detail by Subactivity Group: Space Control Systems

c.	Undefined Reengineering (Competition & Privatization).....	\$+0.9
	The Air Force is eliminating unrealized savings for Undefined Reengineering (Competition & Privatization). This one-time funding increase restores programs to historical funding levels.	
10.	Program Decreases.....	\$-2.7
a.	Base Realignment and Closure (BRAC).....	\$-2.0
	Reflects a refinement in the distribution of anticipated Air Force Material Command BRAC savings associated with relocating and/or privatizing San Antonio and Sacramento Air Logistics Centers	
b.	AFMC Civilian/Military Realignment Within Command.....	\$-0.4
	Decrease in civilian pay, travel, and supplies due to realignment of civilian and military positions out of SAG 13C, Space Control Systems.	
c.	Non-Fly Depot Level Reparables	\$-0.3
	Decrease due to reduced depot repair requirements as old equipment is phased out and replaced with new items from AFSCN modernization program.	
11.	FY 2000 Budget Request	\$259.2

AIR FORCE

Operation and Maintenance, Active Forces
Budget Activity: Operating Forces
Activity Group: Space Operations
Detail by Subactivity Group: Satellite Systems

- I. Description of Operations Financed: The Defense Meteorological Satellite Program (DMSP) collects and disseminates global visible/infrared cloud imagery and other specialized meteorological, oceanographic and solar-geophysical data to support worldwide DoD operations and high priority national programs. DMSP is the sole source of high resolution weather imagery supporting critical Air Force, Navy, Army, and Marine Corps centralized and theater missions. DMSP consists of two fully operational satellites, in polar orbit, a command and control (C2) system (alternate ops center, mission planning, satellite engineering, and logistics facilities) ground based satellite data processing equipment, and field/ship based terminals deployed worldwide. Operations and Maintenance funds provide for: C2 segment hardware/software maintenance, user terminals hardware/software maintenance, maintenance of DMSP equipment at remote tracking stations, support and service contract for launch pad maintenance and launch preparation activities, support and services contract for satellite and sensor daily operations support (factory experts performing telemetry analysis/trending, troubleshooting, and anomaly resolution), independent verification, validation, and modification of C2 system software, and civilian pay for system operators.

The NAVSTAR Global Positioning System (GPS) is a space-based radio navigation network which provides 24-hour navigation information to meet the needs of the US and allied military services worldwide. These services include: extremely accurate three-dimensional positioning, velocity and time; a worldwide common grid, passive all-weather operations; continuous real-time information; support to an unlimited number of users and areas and support to civilian users at a slightly less-accurate level. The NAVSTAR satellites circle the globe every 12 hours, emitting continuous navigational signals. The Delta II expendable launch vehicle is used to launch the NAVSTAR satellites from Cape Canaveral Air Force Station, FL into 11,000 mile circular orbits. O&M funding for the NAVSTAR GPS sustains the operational control segment and launch operations. These costs include maintenance, contractor logistics support, and funding for an interim backup mission control center. The new GPS Operational Control Segment (OCS) support Contract (GOSC) is now updating the ground control architecture to combine these tasks and reduce the complexity. Air Force Space Command is also building a fully functional Alternate Master Control Station (AMCS) at Vandenberg AFB, CA, which will fulfill operational back up requirements currently fulfilled by the interim back up. The AMCS is also critical for transition to the new GPS Operational Control Segment and will serve as the Air Education Training Command Initial Qualification Training Facility, which includes a high fidelity simulator trainer.

AIR FORCE

Operation and Maintenance, Active Forces

Budget Activity: Operating Forces

Activity Group: Space Operations

Detail by Subactivity Group: Other Space Programs

- I. Description of Operations Financed: Spacetrack is a worldwide space surveillance network (SSN) of dedicated, collateral and contributing electro-optical, passive radio frequency (RF), and radar sensors. The SSN is tasked to provide space object cataloging and identification, satellite attack warning, timely notification to US forces of satellite flyover, space treaty monitoring, and scientific and technical intelligence gathering. O&M funds provide support and maintenance to the many sensors that support this mission. Supportability as well as the continued increase in the satellite and orbital debris populations, increased use of different launch trajectories, nonstandard orbits, and geosynchronous altitudes necessitate upgrades to detection and tracking sensors to meet existing requirements. Air Force Space Command's Space Operations Center (SOC) is the critical Command & Control (C2) node for the planning, integrating and executing of space forces (launch, satellite control, missile warning and space control) in support of air and space campaigns worldwide.

Management Headquarters and National Security Space Architecture activities include management overhead such as civilian pay, travel, supplies and equipment

II. Force Structure Summary:

	FY 1998	FY 1999	FY 2000

Operation and Maintenance, Active Forces

Budget Activity: Operating Forces

Activity Group: Space Operations

Detail by Subactivity Group: Other Space Programs

C. Reconciliation of Increases and Decreases (\$s in Millions):

1.	FY 1999 President's Budget	\$85.3	
a.	Congressional Adjustment (Distributed)	\$+5.0	
1)	University Partnering for Operational Support.....		
2.	FY 1999 Revised.....	\$90.3	
a.	Undistributed Congressional Adjustments	\$-5.5	
1)	TDY Expenses.....	\$-2.6	
2)	Bulk Fuel Savings.....	\$-1.6	
3)	ADP Legacy Systems.....	\$-1.1	
4)	Miscellaneous Equipment.....	\$-0.1	
5)	Revised Economic Assumptions	\$-0.1	
b.	Realignment to meet Congressional Intent	\$2.0	
1)	Space Command Operations (Maui Telescope)	\$7.0	
2)	University Partnering for Operational Support.....	\$-5.0	
3.	FY 1999 Appropriation	\$86.8	
4.	Price Changes.....	\$-.1	
5.	Program Increases	\$+5.0	
a.	Other Space Programs (FY 1999 Base \$85.3)	\$+5.0	
	Program requirements increase due to various system enhancements and associated support for the Reentry Assessment Workstation , Orbital Debris Measurement, Modeling, and Monitoring, and the Space Surveillance Network Analysis Model.		

AIR FORCE

Operation and Maintenance, Active Forces

Budget Activity: Operating Forces

Activity Group: Space Operations

Detail by Subactivity Group: Other Space Programs

6.	Program Decreases.....	\$-.2
	a. Civilian Pay Adjustment	\$-.2
	The decrease represents revised civilian pay funding requirements based on updated assessment of actual workyear costs to reflect the impact of changes such as FY 1998 locality pay.	
7.	FY 1999 Current Estimate	\$91.5
8.	Price Growth	\$2.3
9.	Transfers Out	\$-.5
	a. Defense Messaging System Manpower.....	\$-.5
	This decrease realigns the Defense Messaging System (DMS) manpower from multiple subactivity groups into the DMS program element in Subactivity Group: Servicewide Communications. It will support manpower to run the DMS mail servers at each base in the Air Force.	
10.	Program Increases	\$+5.0
	a. HQ U.S. Space Command (FY 1999 Base \$7.8)	\$+1.4
	Increase funds the design contracts necessary for the installation of a secure, high-speed communications network installed at the new USSPACECOM's headquarters building at Peterson AFB, Colorado. Without this increase, the headquarters building will not be ready for occupancy in FY 2002..	
	b. Operational HQ Space (FY 1999 Base \$2.1)	\$+2.6
	Increase supports first year contracts for the sustainment of the Space Operations Center (SOC) concept at Vandenberg AFB. Program concept of operations and planning began in FY1996 and continued through FY 1999. FY 2000 will be the first	

AIR FORCE

fully operational year for the SOC providing enhanced battlespace information to the warfighter.

- | | | |
|-----|--|--------|
| c. | Space Communications Combat Operations (FY 1999 Base \$5.3)..... | \$+1.0 |
| | Increase due to the expansion of the USCINCSPACE role in the Unified Command Plan. The increased role includes engineering assistance for systems support to tactical forces and various intelligence initiatives. | |
| 11. | Program Decreases..... | \$-7.8 |
| a. | Spacetrack (FY 1999 Base \$49.9)..... | \$-4.7 |
| | Decrease reflects the downscoping efforts associated with the 1.6 meter telescope and the Advanced Electro-Optical System (AEOS) at the Maui Space Surveillance Complex. These program are scheduled for transfer from Spacetrack to the Air Force Research Laboratory in FY 2001-2002 time frame. | |
| b. | HQ Space Command (FY 1999 Base \$26.0)..... | \$-3.1 |
| | Decrease reflects a portion of the FY99 University Partnering which will not be conducted in FY 2000 along with reduced local area network services previously provided to U.S. Space Command. | |
| 12. | FY 2000 Budget Request..... | \$90.5 |

AIR FORCE

Operation and Maintenance, Active Forces

Budget Activity: Operating Forces

Activity Group: Space Operations

Detail by Subactivity Group: Real Property Maintenance

- I. Description of Operations Financed: Real Property Maintenance functions include maintenance and repair projects, demolition and minor construction accomplished by contract and by an in-house workforce. This Subactivity group supports and maintains our primary space systems launch, tracking, and recovery complexes, AFSPC Headquarters at Peterson AFB, Colorado, the Cheyenne Mountain complex, and other space tracking and support operations worldwide. Our objectives are to sustain mission capability, quality of life, workforce productivity and preserve our physical plant. Overall adjustments to military manpower in this sub-activity reflect an ongoing transition to an Expeditionary Air Force (EAF) structure, as well as a shift in support personnel positions into primary mission areas to more accurately depict the balance between "tooth" and "tail" of the Air Force.

Infrastructure support encompasses a variety of systems, services, and operations. The most significant categories receiving this support are listed below:

Maintenance, Repair, and Minor Construction of:

Real Property
Aircraft Maintenance Complexes
Aircraft Runways
Roads
Dormitories
Missile Silos

C. Reconciliation of Increases and Decreases (\$s in Millions):

1.	FY 1999 President's Budget	\$122.5
2.	FY 1999 Revised	\$122.5
a.	Undistributed Congressional Adjustments	\$-2.8
1)	ADP Legacy Systems.....	\$-.2
2)	Economic Assumptions	\$-.1
3)	Bulk Fuel Savings.....	\$-2.5
3.	FY 1999 Appropriation	\$119.7
4.	Emergency Supplemental	\$.3
a.	Storm Damage Repair	\$.3
5.	Price Changes	\$-.4
6.	Program Increases	\$.4
a.	Program Increases in FY 1999	
1)	Civilian Pay Adjustment.....	\$.4
	The increase represents revised civilian pay funding requirements based on updated assessment of actual workyear costs to reflect the impact of changes such as FY 1998 locality pay.	
7.	Total Increases	\$.4
8.	Revised FY 1999 Estimate	\$120.0

	AIR FORCE	
	Operation and Maintenance, Active Forces	
	Budget Activity: Operating Forces	
	Activity Group: Space Operations	
	Detail by Subactivity Group: Real Property Maintenance	
9.	Price Growth	\$2.6
10.	Transfers In.....	\$4
	(1) Competition and Privatization	\$4
	This is a transfer into O&M from the Military Personnel Appropriation. After careful review, the Air Force has designated these activities/functions as not military essential. A cost comparison study/direct conversion is underway to determine whether the workload will be contracted or remain in-house in accordance with the guidelines in OMB Circular A-76.	
11.	Transfers Out.....	\$-71.9
	(1) Realignment of Real Property Maintenance.....	\$-71.9
	In FY 2000, the Department transferred funds (\$1,845 million, DoD-wide) from the O&M account into the Quality of Life Enhancements, Defense appropriation. Funds budgeted for repair and maintenance of QOL-type facilities are included in this account to give it special emphasis and to encourage better management of the funds by giving them a two-year life.	
12.	Program Increases.....	\$6.1
a.	Program Increases in FY 2000	\$6.1
	1) Real Property Maintenance Programs.....	
	Increase realigns funds to the preventive maintenance level (PML) of one percent of plant replacement value. PML represents the resources necessary to accomplish day-to-day recurring maintenance required to continue the existing life cycle of real property facilities and infrastructure. However, this increase has been offset by the transfer of funds to the Quality of Life Enhancement, Defense account. Current funding only supports emergency and critical repair work. The	

AIR FORCE

Operation and Maintenance, Active Forces

AIR FORCE

Operation and Maintenance, Active Forces
Budget Activity: Operating Forces
Activity Group: Space Operations
Detail by Subactivity Group: Base Support

- I. Description of Operations Financed: This subactivity provides funding for base support functions, and engineering and environmental programs in support of Air Force Space Command (AFSPC). The main objectives are to sustain mission capability, quality of life, workforce productivity and infrastructure support. Overall adjustments to military manpower in this sub-activity reflect an ongoing transition to an Expeditionary Air Force (EAF) structure, as well a shift in support personnel positions into primary mission areas to more accurately depict the balance between the "tooth" and "tail" of the Air Force. Significant categories of support are listed below:

Audiovisual Information Activities: Funds audiovisual support for video production, graphic art, photo lab, visual information library equipment maintenance, presentation sections, video teleconferencing system, management and operation of audiovisual product distribution, armament delivery recording, still photo, motion picture, television and audio recordings, and electronic and graphics imaging.

Base Communications: Supports base telephone systems, maintenance of intra-base radio systems, base wire communications, official toll calls, Class B toll call, and other base government-owned commercial communication requirements; dedicated leased long lines that provide connectivity to Air Force and DoD networks; Global Decision Support Systems to support command and control of worldwide airlift/tanker mission requirements; Phase IV standard base level computer equipment; and secure voice teleconferencing command and control systems.

Base Operating Support: Program funds transportation, security forces, comptroller, staff judge advocate, claims, and personnel organizations; dining facilities, lodging, contracting services, chaplain, administration, mess attendant and equipment maintenance contracts, postal services, data processing, airfield and air operations, furnishings management, and other authorized service activities.

Child Development Centers (CDC) and Family Support Centers (FSC): CDCs, which support provisions of the Military Child Care Act of 1989, include Family Day Care (FDC). CDCs provide full-day, part-day, and hourly care for children. The FDC program supervises individuals who reside in on-base housing and provide full-day care for children. FSCs support readiness and retention as the focal point for family matters and provide core services such as: consultation, family readiness, crisis assistance, Air Force Aid Society, personal financial management, spouse employment, volunteer resource, and relocation and transition assistance programs.

Real Property Services: Provides essential installation facility support for purchased utilities, utility plant operations, grounds maintenance, fire protection, crash rescue, snow removal and ice alleviation, entomological services, elevator maintenance/inspection, and rents and leases. Contracted engineering services include custodial services, refuse collection, corrosion control, sewer and waste systems, facility engineering and public works management, other installation engineering services and annual service requirements performed in-house or by contract.

Detail by Subactivity Group: Base Support

Environmental Conservation/Compliance: Environmental Conservation provides for protection and enhancement of natural and cultural resources, environmental surveys, consultations with environmental regulators, and mapping and planning support systems. Environmental Compliance ensures all federal, state, and local environmental laws are enforced through sampling, analysis, and monitoring; hazardous waste characterization and disposal; underground storage tank removal/repair/replacement; leak detection and monitoring; spill response and clean-up; training; maintenance, repair, and minor construction projects for environmental facilities and infrastructure.

Pollution Prevention: This program was established to prevent future pollution by reducing hazardous material use and releases of pollutants into the environment to as near zero as feasible to alleviate environmentally harmful discharges to the air, land, surface and ground water.

C. Reconciliation of Increases and Decreases (\$s in Millions):

1.	FY 1999 President's Budget Request	\$309.4
2.	FY 1999 Revised.....	\$309.4
a.	Undistributed Congressional Adjustments	\$-11.2
1)	Bulk Fuel Savings	\$-5.4
2)	TDY Reduction.....	\$-2.0
3)	ADP Legacy Systems.....	\$-2.1
4)	Communication Purchases.....	\$-.8
5)	Miscellaneous Equipment.....	\$-.3
6)	Revised Economic Assumptions	\$-.5
7)	Foreign Currency	\$-.1
3.	FY 1999 Appropriation.....	\$298.2
4.	Emergency Supplemental.....	\$.8
a.	Storm Damage Repair	\$.8
5.	Price Changes.....	\$-.6
6.	Functional Transfers	\$-.1
a.	Transfers Out	\$-.1
1)	Competition and Privatization Savings.....	\$-.1

This decrease reflects estimated savings which will be achieved by reducing costs through increased competition and expanded employee/private sector participation. These savings have been realigned to Air Force modernization accounts.

AIR FORCE
Operation and Maintenance, Active Forces
Budget Activity: Operating Forces
Activity Group: Space Operations
Detail by Subactivity Group: Base Support

7.	Program Decreases.....	\$-.2
	a. Civilian Pay Adjustment.....	\$-.2
	The decrease represents revised civilian pay funding requirements based on updated assessment of actual workyear costs to reflect the impact of changes such as FY 1998 locality pay.	
8.	Revised FY 1999 Estimate.....	\$298.1
9.	Price Growth.....	\$4.4
10.	Transfers In.....	\$6.9
	a. Competition and Privatization.....	\$5.7
	This is a transfer into O&M from the Military Personnel Appropriation. After careful review, the Air Force has designated these activities/functions as not military essential. A cost comparison study/direct conversion is underway to determine whether the workload will be contracted or remain in-house in accordance with the guidelines in OMB Circular A-76.	
	b. Leased Vehicles.....	\$.9
	The FY 1999 Appropriations Conference Report reduced the Air Force Procurement appropriation by \$12.6 million and approved \$2.4 million for leasing vehicles. The committee recommended each service lease general purpose vehicles in order to exploit the competitive market, reduce base motor pool personnel and plan for infrastructure reductions. In response to the conference mark, the Air Force has realigned FY 2000 funds from the Procurement appropriation account to O&M to continue the transition to increased leasing of vehicles.	

AIR FORCE

Operation and Maintenance, Active Forces

Budget Activity: Operating Forces

Activity Group: Space Operations

Detail by Subactivity Group: Base Support

c.	Financial Services Officer	\$3
	Increase reflects a transfer from military to civilian authorizations, to create a senior accountant position within the Financial Services Offices (FSO) at the wing level.	
	Implements an Air Force Inspection Agency Financial Management Review recommendation. By strengthening the financial accounting function at the wing level, deficiencies within FSOs can be corrected.	
11.	Program Increases	\$16.0
a.	Pollution Prevention (FY 1999 Base, \$1.2).....	\$6.6
	This increase supports use of pollution prevention as the first choice to achieve compliance and the Air Force's Environmental mission to achieve and maintain compliance with U.S. environmental laws.	
b.	Real Property Services (FY 1999 Base, \$133.3)	\$3.7
	This increase funds required essential installation facility support such as fire protection, utilities, municipal services and dormitory furnishings.	
c.	Base Operating Support (FY 1999 Base, \$96.7)	\$2.7
	This increase addresses critical Base Operating Support shortfalls. The Air Force can no longer sustain readiness without an adequate level of BOS funding for combat service support and quality of life for home base and forward deployed forces. Funds mobility/deployment requirements (mobility gear, weapons qualification equipment, HAZMAT protective clothing), bench stock (supplies and equipment for transient alert, aircraft maintenance, airfield operations), vehicle operations and maintenance, transportation of forces, transportation of engines and other repair parts, training of services personnel (wartime readiness training), and messing service contracts.	

AIR FORCE
Operation and Maintenance, Active Forces
Budget Activity: Operating Forces
Activity Group: Space Operations
Detail by Subactivity Group: Base Support

d.	Base Communications (FY 1999 Base, \$27.6).....	\$2.0
	Increase funds land mobile radio maintenance contracts to support end user equipment, radio networks and systems, secure and non-secure voice systems maintenance, and base contracted telephone communications systems. Failure to fund will result in an inability to sustain the minimum required level of base communications systems and services.	
e.	Undefined Re-engineering (Competition and Privatization).....	\$1.0
	Increase eliminates unrealized FY 1999 savings for Undefined Reengineering. This one-time funding increase restores programs to historically funded levels.	
12.	Program Decreases	\$-.9
a.	Competition and Privatization Savings.....	\$-.9
	This decrease reflects estimated savings which will be achieved by reducing costs through increased competition and expanded employee/private sector participation. These savings have been realigned to Air Force modernization accounts.	
13.	FY 2000 Budget Request.....	\$324.5

AIR FORCE

Operation and Maintenance, Active Forces

Budget Activity: Mobility

Activity Group: Mobility Operations

Detail by Subactivity Group: Airlift Operations

I. Description of Operations Financed: Airlift Operations support the day-to-day mission activity of Mobility Operations. Aircraft operations incorporate: C-130 theater airlift; air refueling KC-10s and KC-135s; Operational Support Airlift for movement of personnel and cargo with time, place or mission sensitive requirements; Short Takeoff and Landing C-27 tactical airlifters; headquarters operations at Air Mobility Command (AMC), its detachments, and numbered Air Force headquarters. Airlift Operations includes the entire spectrum for aircrew training activities directly related to school-house and proficiency training for C-5, C-130, C-141, C-17, C-12, C-21, UH-1N, and HH-60 aircrews. Program funding also supports direct costs associated with training and operating KC-135 and KC-10 air refueling aircraft. Additionally, funding pays for operating the Operational Support Airlift (OSA) program, which includes the operation of C-9 (non-Medical Evacuation), C-12, C-20, C-21, C-135, UH-1N, CT-43, and EC-135Y aircraft. Also funded in OSA are Air Force One aircraft used by the President of the United States, and C-137, C-32A, and C-37A aircraft used by the Vice President of the United States, Cabinet Members, and other high ranking dignitaries. Funding for Aircrew Training Systems (ATS) also included in this activity group, support Weapon System Trainers, Operational Flight Trainers, and Cockpit Procedures Trainers. Other Airlift Operations programs include Combat Airlift Training at Nellis AFB, NV; the Air Transportation Training Center at Travis AFB, CA; the Air Mobility Warfare Center at McGuire AFB, NJ; and the Queen Bee Jet Engine Intermediate Maintenance Facility for helicopters at Kirtland AFB, NM. Overall adjustments to military manpower in this sub-activity reflect an ongoing transition to an Expeditionary Air Force (EAF) structure, as well as a shift in support personnel positions into primary mission areas to more accurately reflect the balance between the "tooth" and "tail" of the Air Force.

	FY 1998	FY 1999	FY 2000
Flying Hours.....	277,634	268,115	268,360
Manpower	37,601	37,765	41,424
Military	36,141	36,347	40,074
Civilian.....	1,460	1,418	1,350
Primary Authorized Aircraft (PAA).....	608	609	605
Total Aircraft Inventory (TAI)	687	674	671

Flying hour decreases (net) from FY 1998 to FY 1999 of -9,519 are attributable to: KC-10 (-866); KC-135 (-18,230); C-130 (+6,194); C-9 (+570); C-12 (-188); C-20 (+377); C-21 (+2,903); C-135 (+529); EC-135 (+177); C-137B/C (-1,875); UH-1N (+708); CT-43 (+124); VC-25 (+155); C-32 (+1,984); C-37 (+936); C-27 (-2,853); C-5 (-301); C-17 (+65); C-141B (-636); and HH-60 (+708). Flying hour increases (net) from FY 1999 to FY 2000 of +245 are attributable to: KC-10 (+150); KC-135 (+1,233); C-130 (-848); C-12 (+11); C-21 (+375); UH-1N (-41); C-5 (-346); C-17 (+114); and C-141 (-403). Primary Authorized Aircraft increase (net) from FY 1998 to FY 1999 of +1 is attributable to: C-32 (+2); UH-1N (+1); HH-60G (+1); and C-137 (-3). Primary Authorized Aircraft decreases (net) from FY 1999 to FY 2000 of -4 are attributable to: C-21 (-1); C-141B (-1); UH-1N (-1); and HH-60G (-1).

5.	Price Changes.....	\$-2.6
6.	Program Increases	\$+18.1
a.	Management Headquarters (FY 1999 Base \$26.7).....	
	An increase is required to account for Management Headquarters funding which was incorrectly programmed in Training (PE 41897) during preparation of previous FY 1999 estimates. This action is consistent with actual Management Headquarters obligations incurred in FY 1997, estimated FY 1998 actuals, and programmed amounts for FY 2000.	
b.	Civilian Pay (FY 1999 Base \$68.3).....	\$1.7
	The increase represents revised civilian pay funding requirements based on updated assessment of actual workyear costs to reflect the impact of changes such as FY 1998 locality pay, and various civilian force structure adjustments.	
c.	C-130 Airlift Squadrons (FY 1999 Base \$114.5)	\$+1.2

AIR FORCE

Operation and Maintenance, Active Forces

Budget Activity: Mobility

Activity Group: Mobility Operations

Detail by Subactivity Group: Airlift Operations

Resources increase in support of revised consumption estimates for non-fly supply bench-stock replenishment and support equipment purchases.

7.	Program Decreases.....	\$-18.2
	a. Training (FY 1999 Base \$570.1)	\$-18.2
	Resources initially programmed in FY 1999 included a portion of Management Headquarters funding; this action realigns funds to the Management Headquarters account.	
8.	FY 1999 Current Estimate	\$1,339.4
9.	Price Growth	\$-36.4
10.	Program Transfers.....	\$+6.6
	a. Transfers In	\$+6.6
	(1) Competition and Privatization.....	
	This is a transfer into O&M from the Military Personnel Appropriation. After careful review, the Air Force has designated these activities/functions as not military essential. A cost comparison study/direct conversion is underway to determine whether the workload will be contracted or remain in-house in accordance with the guidelines in OMB Circular A-76.	
11.	Program Increases.....	\$+55.8
	a. C-130 Airlift Squadrons (FY 1999 Base \$115.2)	\$+23.0
	Program resources increase (\$+23.6) due to: a) increased operation and maintenance (\$+8.0) for depot level reparables, supplies, and equipment associated with the installation of Global Positioning System receivers, new auto-pilots, micro-wave landing systems, and missile warning sensors on Air Mobility Command C-130's; b)	

AIR FORCE

- Operation and Maintenance, Active Forces
- Budget Activity: Mobility
- Activity Group: Mobility Operations
- Detail by Subactivity Group: Airlift Operations

non-standard avionics equipment installed on late model C-130's transitioning from Interim Contractor Support (ICS) to O&M (radar, auxiliary power unit, etc.) increasing contracts for system support (\$+7.8); and c) technical orders (\$+6.3) consistent with AF decentralization policy to align resources where executed. Finally, the FY 2000 Flying Hour Program was repriced to reflect the latest CY 1998 AF Cost Analysis Improvement Group (AFCAIG) approved cost factors. Included in this reprice are AVPOL, flying hour supplies, and Depot Level Reparables (DLRs). The most significant changes have occurred in the costs of Depot Level Reparables (\$+1.4) and aviation fuel (\$+.1). Offsetting program decreases (\$-.6) are attributable to: a) flying hours decreasing by -848 due to a reassessment of the number of wartime crews required for tactical airdrop missions among Pacific Air Forces (PACAF) C-130's; resources decrease among flying hour aviation fuels, supplies, and depot level reparables (\$-.5); and b) remaining reductions include civilian streamlining efforts (\$-.1).

- Training (FY 1999 Base \$558.0)\$+19.6
- b. Net funding changes are attributable to increases (\$+52.7) among: a) proficiency training flying hours for Air Mobility Command (AMC) (\$+21.0) driven by Air Education and Training Command's increase in pilot production. AMC hours increase among C-17's (13 new pilots from the AETC school-house, increased aircraft deliveries, and increased proficiency events for tactical and air-drop training), and C-5's (14 new pilots from the AETC school-house); b) contract logistics support (CLS) for C-17 off-wing engine maintenance supporting AETC's school-house aircraft (\$+16.3); c) Air Education and Training Command (AETC) increased graduate pilot production. This action increases AETC's graduate pilot production flying hours by +114 for C-17, +375 for C-21, and +225 for KC-135's for a total cost of \$8.4 for flying hour aviation fuel, depot level reparables, general and system support supplies, and non-fly supplies; d) miscellaneous contracts for \$+2.9 in support of the Mission Training Support System (MTSS) replacing components in 12 mobility training devices; e) Air Mobility Command simulator software updates and upgrades (\$+2.5); and f) Air Force Materiel Command requirements for C-5 and C-141 sustaining

AIR FORCE

Operation and Maintenance, Active Forces

Budget Activity: Mobility

Activity Group: Mobility Operations

Detail by Subactivity Group: Airlift Operations

engineering (\$+1.6). Offsetting program funding decreases (\$-33.1) are attributed to:
a) a reduction in Air Mobility Command proficiency training (\$-18.0) due to ongoing C-141 retirements and seven less co-pilots; b) a reduction in non-proficiency training for AETC school-house flying hours and PAA among C-5's (-346 hours), C-12's (-389 hours) C-141B's (-403 hours and -1 PAA), UH-1N's (-41 hours and -1 PAA), and HH-60G (-1 PAA) due to a combination of graduate pilot production restructuring and aircraft retirements. Reduced costs in flying hours and support areas amount to \$-13.0; and c) ongoing reductions in the civilian workforce (\$-2). Finally, the FY 2000 Flying Hour Program was repriced to reflect the latest CY 1998 AF Cost Analysis Improvement Group (AFCAIG) approved cost factors. Included in this reprice are AVPOL, flying hour supplies, and Depot Level Reparables (DLRs). The most significant changes (\$-1.9) have occurred in the costs of depot level reparables and aviation fuel.

- | | | |
|----|---|--------|
| c. | KC-10 Aircraft (FY 1999 Base \$206.7)..... | \$+6.3 |
| | Program increases are attributable to: a) increased contract logistics support (CLS) (\$+4.8) for engine repair, primarily driven by FAA airworthiness directives; and b) an increase of +150 flying hours (\$+1.5) due to additional syllabus requirements to maintain proficiency. | |
| d. | KC-135 Aircraft (FY 1999 Base \$173.1)..... | \$+4.6 |
| | Resource increases (\$+6.5) are driven by flying hours and travel associated with United States Air Forces in Europe (USAFE) 351 st Air Refueling Squadron (ARS) crew continuation training requirements (total flying hour increase of +967). This requirement was not previously incurred since the European Tanker Task Force (ETTF) mission and six air refueling tankers previously belonged to Fairchild Air Force Base, WA, for operational missions only. Having now realigned to USAFE, permanent party airmen require continuation training in addition to operational mission flying associated with ETTF. Additionally, the 351 st ARS is now required to deploy to the CONUS for exercise requirements and aircrew simulator training. Accordingly, flying hour costs (aviation fuel, depot level reparables, and consumables) | |

AIR FORCE

Operation and Maintenance, Active Forces

Budget Activity: Mobility

Activity Group: Mobility Operations

Detail by Subactivity Group: Airlift Operations

increase \$+1.0 and travel increases \$+1.2. Remaining program increases occur among:
a) technical orders and sustaining engineering (\$+2.8) in support of the aging Air Mobility Command fleet; b) an increase of 41 flying hours for Air Mobility Command tankers to pay for additional Navigator System Operator training (\$+1.0); and c) the FY 2000 Flying Hour Program reprice to reflect the latest CY 1998 AF Cost Analysis Improvement Group (AFCAIG) approved cost factors. Included in this reprice are AVPOL, flying hour supplies, and Depot Level Reparables (DLRs). The most significant changes (\$+.5) have occurred in the costs of depot level reparables and aviation fuel. Offsetting program decreases (\$-1.9) are attributable to completed cockpit upgrades (equipment, supplies, and travel) among Air Mobility Command PACER CRAG efforts.

- \$+2.3
- e. Operational Support Airlift (FY 1999 Base \$235.2)
- Program increases (\$+7.8) are due to various changes in contract logistics support funding (CLS), miscellaneous contracts, supplies, and non-fly depot level reparables driven by scheduled maintenance and component overhauls among C-21's, C-9's, C-20's, VC-25's, C-137, C-12F's, T-43's, C-32's, and C-37's (\$+5.6). Increases are also driven by various Department of Defense Group Travel airlift requirements to include Capstone, Defense and Foreign Attaché groups, and the International American Defense College (\$+1.6). OSA also increases (\$+.5) due to flying hour restructuring among C-12F's (+134 hours) and C-12 J's (+266 hours) based in the Pacific Air Forces (PACAF) region. Finally, the FY 2000 Flying Hour Program was repriced to reflect the latest CY 1998 AF Cost Analysis Improvement Group (AFCAIG) approved cost factors. Included in this reprice are AVPOL, flying hour supplies, and Depot Level Reparables (DLRs). The most significant changes (\$+.1) have occurred in the costs of depot level reparables and aviation fuel. Offsetting program decreases (\$-5.5) are attributable to decreased transportation requirements, including anticipated reduction in Presidential airlift, Alaska theater airlift support contract, and one less C-21 Primary Aircraft Authorization for Air Mobility Command resulting from force structure streamlining.

AIR FORCE

Operation and Maintenance, Active Forces

Budget Activity: Mobility

Activity Group: Mobility Operations

Detail by Subactivity Group: Airlift Operations C3I

- I. Description of Operations Financed: Airlift Operations C3I activities support the core of Mobility Operations through the provision of AMC Command and Control systems. These systems provide the capability to direct and control world-wide deployment of airlift assets and aircrew forces. They provide in-transit visibility of cargo and passengers; generate billing data; provide for deliberate planning, analysis and modeling; and provide for software maintenance and personnel to operate current systems including the Global Decision Support System (GDSS). These resources also replace out-of-date manual command and control processes with the AMC Command and Control Information Processing System (C2IPS), and integrated automated multi-level secure systems reaching from the airfield through AMC to USTRANSCOM and the National Command Authority. Resources also support engineering and installation support activities, as well as various military airlift intelligence system activities.

AIR FORCE

Operation and Maintenance, Active Forces

Budget Activity: Mobility

Activity Group: Mobility Operations

Detail by Subactivity Group: Airlift Operations C3I

C. Reconciliation of Increases and Decreases (\$s in Millions):

1.	FY 1999 President's Budget	\$21.7
2.	Revised FY 1999 Estimate.....	\$21.7
a.	Undistributed Congressional Adjustments	\$-1.1
1)	TDY Expenses.....	\$-0.3
2)	ADP Legacy Systems.....	\$-0.7
3)	Revised Economic Assumptions.....	\$-0.1
3.	FY 1999 Appropriation	\$20.6
4.	Reprogrammings/Transfers	\$-1.0
a.	Depot Maintenance Reprogramming.....	\$-1.0
5.	Price Changes	\$-0.1
6.	FY 1999 Current Estimate	\$19.5
7.	Price Growth	\$+.6
8.	Transfers In.....	\$+5.8
(1)	Engineering & Installation (E&I) Reengineering	\$+2.6
	Increase is due to reengineering the 38 th Engineering and Installation Wing (EIW) at Tinker AFB divesting organic installation and engineering services (from Sub Activity Group, Other Servicewide Activities). In FY 2000 these services will be accomplished via centrally managed contracts.	

AIR FORCE
Operation and Maintenance, Active Forces
Budget Activity: Mobility
Activity Group: Mobility Operations
Detail by Subactivity Group: Airlift Operations C3I

- | | |
|---|--------|
| (2) Core Automated Maintenance Systems..... | \$+3.2 |
| A review of the Core Automated Maintenance System (CAMS) revealed that a portion of the Data Systems Designator program was not in support of the Transportation Working Capital Fund (TWCF). Resources transfer from the TWCF to the Air Force O&M appropriation, Air Mobility Command - Command and Control System program. | |
| 9. Program Increases.. | \$+4.5 |
| 1) AMC Command & Control System (FY 1999 Base \$12.1)..... | |
| Increase is driven by Air Mobility Command's Wing Local Area Network (LAN) requirement to meet the implementation of the Combat Information Transport System (CITS). CITS modernizes and fixes base communications and infrastructure to meet airlift command and control needs. | |
| 10. Total Increases. | \$+4.5 |
| 11. FY 2000 Budget Request | \$30.4 |

C. Reconciliation of Increases and Decreases (\$ in Millions):

1.	FY 1999 President's Budget	\$134.8
a.	Distributed Congressional Adjustment.....	\$-13.7
1)	Industrial Preparedness	\$-13.7
2.	Revised FY 1999 Estimate.....	\$121.1
a.	Undistributed Congressional Adjustment.....	\$-3.7
1)	TDY Expenses.....	\$-1.2
2)	Miscellaneous Equipment.....	\$-1.4
3)	Economic Assumptions	\$-0.5
4)	Foreign Currency	\$-0.6
3.	FY 1999 Appropriation	\$117.4
4.	Reprogrammings/Transfers.....	\$-6.4
a.	Depot Maintenance Reprogramming	\$-6.4
5.	Price Changes.....	\$-0.3
6.	Program Increase.....	\$+0.3
a.	Civilian Pay.....	\$+0.3
	The increase represents revised civilian pay funding requirements based on updated assessment of actual work-year costs to reflect the impact of changes such as FY98 locality pay.	

AIR FORCE

Operation and Maintenance, Active Forces
Budget Activity: Mobility
Activity Group: Mobility Operations
Detail by Subactivity Group: Mobilization Preparedness

7.	FY 1999 Current Estimate.....	\$111.0
8.	Price Changes.....	\$+4.8
9.	Program Transfers.....	\$+0.9
a.	Transfer In	\$+0.9
1)	Competition and Privatization	\$+0.9
	This is a transfer into O&M from the Military Personnel Appropriation. After careful review, the Air Force has designated these activities/functions as not military essential. A cost comparison study/direct conversion is underway to determine whether the workload will be contracted or remain in-house in accordance with the guidelines in OMB Circular A-76.	
10.	Program Increases.....	\$+26.3
a.	WRM-equipment/Secondary Items (FY 1999 Base \$91.3).....	\$+17.8
	A \$+17.8 increase results from an expanded Southwest Asia contract. The present contract only covers storage, maintenance and reconstitution at three sites (Seeb, Masirah, and Thumrait) in the country of Oman. CENT AF modified the contract to include a reconstitution operation for the reconditioning of WRM-SWA pre-positioned vehicles as a result of GAO audit findings. This new contract will include the three Oman sites, one site in Bahrain and a site in Qatar. Additionally, the Qatar site and the Thumrait site will switch from a basic caretaker site to a fully operated depot. The remaining sites (Seeb and Masirah) will become deep storage/reconstitution sites.	
b.	WRM-Ammunition (FY 1999 Base \$18.7).....	\$+4.2
	Funds increased contract/sustaining engineering improvements in the inertial guidance systems on stored WRM ammunition (Laser Guided Bombs -LGBs).	

AIR FORCE

Operation and Maintenance, Active Forces

Budget Activity: Mobility

Activity Group: Mobility Operations

Detail by Subactivity Group: Mobilization Preparedness

c.	Industrial Preparedness (FY 1999 Base \$ 9.3).....	\$+3.5
	This increase restores 24-hour runway operations, 24-hour crash-fire-rescue services and increases maintenance and supply support for the Air Force Plant 42 at Palmdale.	
d.	Medical Contingency Hospitals (FY 1999 Base \$3.5).....	\$+0.8
	Program growth (\$+0.8) is attributable to the Air Force Medical Service's purchase of reengineered Medical WRM capabilities to replace outdated equipment. (Critical Care Air Transport Team equipment, Preventive Aerospace Medicine equipment, and sustainment/replacement expense equipment for Air Transportable Hospitals and Mobile Air Staging Facilities)	
11.	FY 2000 Budget Request	\$143.0

a.	The decrease represents the programming of one less KC-135 PDM in FY 1999. Funding was realigned to Air Operations.....
	\$-3.1
6.	FY 1999 Current Estimate
	\$344.9
7.	Price Change
	\$-15.3
8.	Program Increases..
	\$+13.9
a.	Increased repair and overhaul of aircraft loaders and fire trucks due to accelerated use during increased deployment activities. As a result of accelerated use, equipment is arriving for inspection and servicing at faster intervals and requiring more extensive overhauls
	\$+4.4

AIR FORCE

Operation and Maintenance, Active Forces

Budget Activity: Mobilization

Activity Group: Mobility Operations

Detail by Subactivity Group: Depot Maintenance

- | | | |
|-----|--|---------|
| b. | New requirement to inspect power supplies for serviceability prior to depot induction for repair or overhaul. Prevents costly overhauls of serviceable power supply units | \$+2.1 |
| c. | Increase required to repair discrepancies to jet engine test stands found during FY 1999 inspections | \$+2.5 |
| d. | Eliminates the backlog of 5,000 reparable pallets and 5,500 nets generated during increased deployment activities..... | \$+3.7 |
| e. | Costs associated with the overhauling of 12 additional refueling trucks. Currently, there is a shortfall in operational refuelers to support numerous world-wide AF mission requirements.
Funding will allow overhaul of world-wide aging equipment to meet mission requirements..... | \$+1.2 |
| 9. | Program Decreases..... | \$-31.4 |
| a. | One-time decrease results from FY 1999 cost to recover Depot Maintenance Activity Group operating losses outside the stabilized pricing structure | \$-27.0 |
| b. | Results from the effects of fewer C-130 PDMs and T-56 engine overhauls. These reductions in FY 2000 are the result of one-time Emergency Supplemental which increased DPEM funding in FY 1999 thereby reducing the DPEM backlog | \$-4.4 |
| 10. | FY 2000 Budget Request..... | \$312.1 |

AIR FORCE
Operation and Maintenance, Active Forces
Budget Activity: Mobilization
Activity Group: Mobility Operations
Detail by Subactivity Group: Real Property Maintenance

- I. Description of Operations Financed: Real property maintenance activities include maintenance, repair, and minor construction accomplished by contract and by an in-house workforce. This Sub-Activity group predominately supports Air Mobility Command's main operating bases. Overall adjustments to military manpower in this sub-activity reflect an ongoing transition to an Expeditionary Air Force (EAF) structure, as well as a shift in support personnel positions into primary mission areas to more accurately depict the balance between "tooth" and "tail" of the Air Force. Infrastructure support encompasses a variety of systems, services, and operations. Our objectives are to sustain mission capability, quality of life, workforce productivity, and preserve our physical plant. The most significant categories receiving this support are listed below:

Maintenance, Repair, and Minor Construction of:

- Real Property
- Aircraft Maintenance Complexes
- Aircraft Runways
- Roads
- Dormitories

5.	Price Changes	\$-.3
6.	Program Decreases	\$-3.0
a.	Program Decreases in FY 1999	\$-3.0
1)	Civilian Pay Adjustment.....	\$-3.0
	The decrease represents revised civilian pay funding requirements based on updated assessment of actual workyear costs to reflect the impact of changes such as FY 1998 locality pay.	
7.	Revised FY 1999 Estimate.....	\$138.4

AIR FORCE
 Operation and Maintenance, Active Forces
 Budget Activity: Mobilization
 Activity Group: Mobility Operations
 Detail by Subactivity Group: Real Property Maintenance

8.	Price Growth	\$3.8
9.	Transfers In	\$6.2
	(1) Competition and Privatization.....	\$6.2
	This is a transfer into O&M from the Military Personnel Appropriation. After careful review, the Air Force has designated these activities/functions as not military essential. A cost comparison study/direct conversion is underway to determine whether the workload will be contracted or remain in-house in accordance with the guidelines in OMB Circular A-76.	
10.	Transfers Out	\$-52.2
	(1) Grounds Maintenance	\$-1.5
	The transfer of grounds services to Real Property Services is twofold. First, it is based upon a decision to better align this function with the in-house manpower resources and improves cost accounting within the Real Property Maintenance Activities (RPMA) program. Additionally, grounds services are similar in nature to refuse collection, custodial and other municipal-type services.	
	(2) Realignment of Real Property Maintenance.....	\$50.7
	In FY 2000, the Department transferred funds (\$1,845 million, DoD-wide) from the O&M account into the Quality of Life Enhancements, Defense appropriation. Funds budgeted for repair and maintenance of QOL-type facilities are included in this account to give it special emphasis and to encourage better management of the funds by giving them a two-year life.	
11.	Program Increases.....	\$.4
a.	Program Increases in FY 2000	

AIR FORCE

Operation and Maintenance, Active Forces

Budget Activity: Mobilization

Activity Group: Mobility Operations

Detail by Subactivity Group: Real Property Maintenance

1) Civilian Separation Incentives.....	\$.4	
1) Civilian separation incentives are authorized by Section 4436 of P.L. 102-484. These costs reflect the incremental funds required in FY 2000 over and above salary savings. DoD activities may pay up to \$25,000 for separation incentives plus 15% of basic pay to OPM. The current policy is to offer incentives before a person is involuntarily separated.		
12. Program Decreases.....	\$-24.5	
a. Program Decreases in FY 2000	\$-24.5	
1) Competition and Privatization Savings.....	\$-.8	
This decrease reflects estimated savings which will be achieved by reducing costs through increased competition and expanded employee/private sector participation. These savings have been realigned to Air Force modernization accounts.		
2) Real Property Maintenance Programs	\$-23.7	
Decrease realigns funds to the preventive maintenance level (PML) of one percent of plant replacement value. PML represents the resources necessary to accomplish day-to-day recurring maintenance required to continue the existing life cycle of real property facilities and infrastructure. Current funding only supports emergency and critical repair work. The impact of deferred maintenance is reduced productivity in maintenance shops, along the flight line and in office areas.		
13. FY 2000 Budget Request.....	\$72.1

AIR FORCE

Operation and Maintenance, Active Forces
Budget Activity: Mobilization
Activity Group: Mobility Operations
Detail by Subactivity Group: Base Support

- I. Description of Operations Financed: This subactivity provides funding for base support functions, and engineering and environmental programs in support of the Air Mobility Command (AMC). The main objectives are to sustain mission capability, quality of life, workforce productivity and infrastructure support. Overall adjustments to military manpower in this sub-activity reflect an ongoing transition to an Expeditionary Air Force (EAF) structure, as well a shift in support personnel positions into primary mission areas to more accurately depict the balance between the "tooth" and "tail" of the Air Force. Significant categories of support are listed below:

Audiovisual Information Activities: Funds audiovisual support for video production, graphic art, photo lab, visual information library equipment maintenance, presentation sections, video teleconferencing system, management and operation of audiovisual product distribution, armament delivery recording, still photo, motion picture, television and audio recordings, and electronic and graphics imaging.

Base Communications: Supports base telephone systems, maintenance of intra-base radio systems, base wire communications, official toll calls, Class B toll calls, and other base government-owned commercial communication requirements; dedicated leased long lines that provide connectivity to Air Force and DoD networks; Global Decision Support Systems to support command and control of worldwide airlift/tanker mission requirements; standard base level computer equipment; and secure voice teleconferencing command and control systems.

Base Operating Support: Program funds transportation, security forces, comptroller, staff judge advocate, claims, and personnel organizations; and dining facilities, lodging, contracting services, chaplain, administration, mess attendant and equipment maintenance contracts, postal services, data processing, airfield and air operations, furnishings management, and other authorized service activities.

Child Development Centers (CDC) and Family Support Centers (FSC): CDCs support provisions of the Military Child Care Act to include Family Day Care (FDC). Full-day, part-day, and hourly care for children is provided by CDCs. The FDC program supervises individuals who reside in on-base housing and provide full-day care for children. FSCs support readiness and retention as the focal point for family matters and provide core services such as: consultation, family readiness, crisis assistance, Air Force Aid Society, personal financial management, spouse employment, volunteer resource, and relocation and transition assistance programs.

Real Property Services: Provides essential installation facility support for purchased utilities, utility plant operations, grounds maintenance, fire protection, crash rescue, snow and ice removal, entomological services, elevator maintenance/inspection, and rents and leases. Contracted engineering services include custodial services, refuse collection, corrosion control, sewer and waste systems, facility engineering and public works management, other installation engineering services and annual service requirements performed in-house or by contract.

AIR FORCE

Operation and Maintenance, Active Forces
Budget Activity: Mobilization
Activity Group: Mobility Operations
Detail by Subactivity Group: Base Support

Environmental Conservation/Compliance: Environmental Conservation provides for protection and enhancement of natural and cultural resources, environmental surveys, consultations with environmental regulators, and mapping and planning support systems. Environmental Compliance ensures all federal, state, and local environmental laws are enforced through sampling, analysis, and monitoring; hazardous waste characterization and disposal; underground storage tank removal/repair/replacement; leak detection and monitoring; spill response and clean-up; training; maintenance, repair, and minor construction projects for environmental facilities and infrastructure.

Pollution Prevention: This program was established to prevent future pollution by reducing hazardous material use and releases of pollutants into the environment to as near zero as feasible to alleviate environmentally harmful discharges to the air, land, surface and ground water.

1)	Depot Maintenance Reprogramming.....	\$-12.8
5.	Price Changes.....	\$-.3
6.	Program Increases	\$4.7
a.	Civilian Pay Adjustment	\$4.7

The increase represents revised civilian pay funding requirements based on updated assessment of actual workyear costs to reflect the impact of changes such as FY 1998 locality pay.

AIR FORCE

Operation and Maintenance, Active Forces
Budget Activity: Mobilization
Activity Group: Mobility Operations
Detail by Subactivity Group: Base Support

7.	Total Increases	\$4.7
8.	Revised FY 1999 Current Estimate	\$367.8
9.	Price Growth	\$11.3
10.	Transfers In.....	\$33.1
a.	Competition and Privatization.....	\$31.6
	This is a transfer from the Military Personnel Appropriation. After careful review, the Air Force has designated these activities/functions as not military essential. A cost comparison study/direct conversion is underway to determine whether the workload will be contracted or remain in-house in accordance with the guidelines in OMB Circular A-76.	
b.	Grounds Maintenance.....	\$1.5
	The transfer of grounds services to Real Property Services is twofold. First, it is based upon a decision to better align this function with the in-house manpower resources and improves cost accounting within the Real Property Maintenance Activities (RPMA) program. Additionally, grounds services are similar in nature to refuse collection, custodial and other municipal-type services.	
11.	Transfers Out	\$-.5
a.	Common User Communications.....	\$-.5
	Transitions dedicated long haul communications to common user communications. Transition will provide C2 and combat support users with common user voice and data communications access. Transferred to Servicewide Communications (SAG 42B).	

AIR FORCE
Operation and Maintenance, Active Forces
Budget Activity: Mobilization
Activity Group: Mobility Operations
Detail by Subactivity Group: Base Support

12.	Program Increases.....	\$64.7
	a. Panama Canal Treaty Implementation Plan: The increase reflects funding added to facilitate the relocation of C-130 aircraft from Howard Air Force Base.	\$16.0
	b. Undefined Re-engineering (Competition and Privatization) Increase eliminates unrealized FY 1999 savings for Undefined Reengineering. This one-time funding increase restores programs to historically funded levels.	\$14.6
	c. Base Communications (FY 1999 Base, \$36.8)..... Increase provides funding to support base telephone communications systems, maintenance and leased intercom, fire-crash, radio interface, key systems, remote control circuits, official toll calls, contract maintenance of intrabase radio nets, and dedicated lease long line equipment and circuits for Air Mobility Command command and control systems as well as other unique-communications systems. Funding updates antiquated base infrastructure with fiber optics, local area networks, routers, servers, and switches. Deteriorated copper cables are failing, while current bandwidth limitations cannot meet mission and user demands. Additionally, land mobile radios must be replaced to keep the Air Force compliant with new Federal Communication frequency standards.	\$11.8
	d. Pollution Prevention Program (FY 1999 Base, \$2.0) This increase supports the use of pollution prevention as the first choice to achieve compliance and the Air Force's Environmental mission to achieve and maintain compliance with U.S. environmental laws.	\$8.4

- | | | |
|----|--|-------|
| e. | Base Operating Support (FY 1999 Base, \$181.7) | \$7.9 |
| | This increase addresses critical Base Operating Support shortfalls. The Air Force can no longer sustain readiness without an adequate level of BOS funding for combat service support and quality of life for home base and forward deployed forces. Funds mobility/deployment requirements (mobility gear, weapons qualification equipment, HAZMAT protective clothing), bench stock (supplies and equipment for transient alert, aircraft maintenance, airfield operations), vehicle operations and maintenance, transportation of forces, transportation of engines and other repair parts, training of services personnel (wartime readiness training), and messing service contracts. | |
| f. | Real Property Services (FY 1999 Base, \$95.1) | \$4.0 |
| | This increase reflects funding required for essential installation facility support such as fire protection, utilities, municipal services and dormitory furnishings. | |
| g. | Civilian Separation Incentives | \$2.0 |
| | Civilian separation incentives are authorized by Section 4436 of P.L. 102-484. These costs reflect the incremental funds required in FY 2000 over and above salary savings. DoD activities may pay up to \$25,000 for separation incentives plus 15% of basic pay to OPM. The current policy is to offer incentives before a person is involuntarily separated. | |

AIR FORCE

Operation and Maintenance, Active Forces

Budget Activity: Training and Recruiting

Activity Group: Accession Training

Detail by Subactivity Group: Officer Acquisition

- I. Description of Operations Financed: Operations support three of the four officer accession training programs within the Air Force. Majority of funding supports the United States Air Force Academy to include direct mission support for cadets, preparatory school students, and faculty. The Officer Training School (OTS) and Airman Education and Commissioning Program (AECP) are located at Maxwell AFB, AL and are managed by Air University. AECP is the Air Force's primary source of commissioning airmen.

AIR FORCE

Operation and Maintenance, Active Forces

Budget Activity: Training and Recruiting

Activity Group: Accession Training

Detail by Subactivity Group: Officer Acquisition

a. Civilian Pay Reprice (FY 1999 Base \$53.0).....\$1.0

The increase represents revised civilian pay funding requirements based on updated assessment of actual workyear costs to reflect the impact of changes such as FY 1998 locality pay.

7. FY 1999 Current Estimate.....\$57.1

8. Price Growth

9. Program Increases

a. Conversion of Lodging Positions APF to NAF (FY 1999 Base \$52.9).....\$.4

Increase of \$2 a day in TDY Per Diem to cover increased cost in lodging activities due to the transfer of positions from APF to NAF. In addition, increase is partially driven by conversions of courseware.

b. Non-Fly Training (FY 1999 Base \$52.9).....\$1.5

Funds non-flying training devices necessary to teach a heavily scientific/engineering curricula; keep pace with technological advances and maintain quality academic institution standards. Includes up-to-date computer technology/systems, adequate academic materials and basic sciences and engineering laboratory equipment such as hydrometers, electrophoresis apparatus, microscopes, generators, oscilloscopes, etc. that directly impact cadet non-fly training.

c. USAFA Laboratory Equipment (FY 1999 Base \$529).....\$1.1

Funding for acquiring advanced equipment and life-cycle replacement of existing equipment required to maintain the academic standards of the Air Force Academy.

AIR FORCE

Operation and Maintenance, Active Forces

Budget Activity: Training and Recruiting

Activity Group: Accession Training

Detail by Subactivity Group: Recruit Training

I. Description of Operations Financed: This program provides for a smooth transition from civilian life to the military environment. Operations financed include support for the Basic Military Training Group (BMTG) located at Lackland AFB, Texas. The BMTG provides basic military training to Non-Prior Service (NPS) recruits for active duty, Air National Guard (ANG), and Air Force Reserve (AFRC) recruits. These recruits receive six weeks of training in preparation for military duty. The BMTG operates six Basic Military Squadrons, a Military Training Instructor School, a confidence course, a drill and ceremonies function, a drum and bugle corps, 20 flights, and over 120 classrooms.

- I. Description of Operations Financed: Real Property Maintenance (RPM) activities include maintenance and repair projects and minor construction accomplished by contract and by an in-house workforce. RPM activities maintain base infrastructure and personnel support functions at the United States Air Force Academy (USAFA). Our objectives are to sustain mission capability, quality of life, workforce productivity, and preserve the USAFA's physical plant.

USAFA infrastructure support encompasses a variety of systems, services, and operations. The most significant categories receiving this support are listed below:

Maintenance, Repair, and Minor Construction of:

Real Property

Aircraft Maintenance Complexes

Roads

Dormitories

7.	Price Growth.....	\$.9
8.	Transfers Out	\$-29.9
(1)	Realignment of Real Property Maintenance	\$-29.9
	In FY 2000, the Department transferred funds (\$1,845 million, DoD-wide) from the O&M account into the Quality of Life Enhancements, Defense appropriation. Funds budgeted for repair and maintenance of QOL-type facilities are included in this account to give it special emphasis and to encourage better management of the funds by giving them a two-year life.

AIR FORCE

Operation and Maintenance, Active Forces
Budget Activity: Training and Recruiting
Activity Group: Accession Training
Detail by Subactivity Group: Base Support

I. Description of Operations Financed: Provides funding for base support functions, and engineering and environmental programs in support of the United States Air Force Academy (USAFA). The main objectives are to provide quality, realistic, cost effective training for cadets. The major programs in this Subactivity group are listed below:

Audiovisual Information Activities: Funds audiovisual support for video production, graphic art, photo lab, visual information library equipment maintenance, presentation sections, video teleconferencing system, management and operation of audiovisual product distribution, still photo, motion picture, television and audio recordings, and electronic and graphics imaging.

Base Communications: Supports base telephone systems, maintenance of intra-base radio systems, base wire communications, official toll calls, Class B toll calls, and other base government-owned commercial communication requirements; dedicated leased long lines that provide connectivity to Air Force and DoD networks; and base level computer equipment.

Base Operating Support: Program funds transportation, security forces, comptroller, staff judge advocate, claims, and personnel organizations; and dining facility upkeep, lodging, contracting services, chaplain, administration, mess attendants and equipment maintenance contracts, postal services, data processing, airfield and air operations, furnishings management, and other authorized service activities.

Child Development Centers (CDC) and Family Support Centers (FSC): CDCs, which include Family Day Care (FDC), provide full-day, part-day, and hourly care for children. The FDC program provides oversight/guidance to individuals who reside in on-base housing and provide full-day care for children. FSCs support readiness and retention as the focal point for family matters and provide core services such as: consultation, family readiness, crisis assistance, Air Force Aid Society, personal financial management, spouse employment, volunteer resource, and relocation and transition assistance programs.

Real Property Services: Provides essential installation facility support for purchased utilities, utility plant operations, grounds maintenance, fire protection, crash rescue, snow removal and ice alleviation, entomological services, elevator maintenance/inspection, and rents and leases. Contracted engineering services include custodial services, refuse collection, corrosion control, sewer and waste systems, facility engineering and public works management, other installation engineering services and annual service requirements performed in-house or by contract.

AIR FORCE

Operation and Maintenance, Active Forces

Budget Activity: Training and Recruiting

Activity Group: Accession Training

Detail by Subactivity Group: Base Support

Environmental Conservation/Compliance: Environmental Conservation provides for protection and enhancement of natural and cultural resources, environmental surveys, consultations with environmental regulators, and mapping and planning support systems. Environmental Compliance ensures all federal, state, and local environmental laws are enforced through sampling, analysis, and monitoring; hazardous waste characterization and disposal; underground storage tank removal/repair/replacement; leak detection and monitoring; spill response and clean-up; training; maintenance, repair, and minor construction projects for environmental facilities and infrastructure.

Pollution Prevention: This program was established to prevent future pollution by reducing hazardous material use and releases of pollutants into the environment to as near zero as feasible to alleviate environmentally harmful discharges to the air, land, surface and ground water.

5.	Program Increases	\$.7
a.	Program Increases in FY 1999	\$.7
1)	Civilian Pay Adjustment.....	\$.7
	The increase represents revised civilian pay funding requirements based on updated assessment of actual workyear costs to reflect the impact of changes such as FY 1998 locality pay.	
6.	FY 1999 Current Estimate	\$57.0
7.	Price Growth	\$1.8
8.	Transfers In	\$1.5
a.	Grounds Maintenance	\$1.4
	The transfer of grounds services to Real Property Services is twofold. First, it is based upon a decision to better align this function with the in-house manpower resources and improves cost accounting within the Real Property Maintenance Activities (RPMA) program. Additionally, grounds services are similar in nature to refuse collection, custodial and other municipal-type services.	
b.	Competition and Privatization	\$.1
	This is a transfer into O&M from the Military Personnel Appropriation. After careful review, the Air Force has designated these activities/functions as not military essential. A cost comparison study/direct conversion is underway to determine whether the workload will be contracted or remain in-house in accordance with the guidelines in OMB Circular A-76.

9.	Program Increases.....	\$2.8
	a. Program Increases in FY 2000	
1)	Base Support (FY 1999 Base, \$28.4)	\$2.8
	This increase addresses critical Base Operating Support shortfalls. The Air Force must sustain BOS to avoid further degradation of readiness, and mission support activities. An adequate funding level is required for combat service support and quality of life for home base and forward deployed forces. Funds mobility/deployment requirements (mobility gear, weapons qualification equipment, HAZMAT protective clothing), bench stock (supplies and equipment for transient alert, aircraft maintenance, airfield operations), vehicle operations and maintenance, transportation of forces, transportation of engines and other repair parts, training of services personnel (wartime readiness training), and messing service contracts.	
10.	Total Increases.....	\$2.8
11.	FY 2000 Budget Request	\$63.1

AIR FORCE

Operation and Maintenance, Active Forces

Budget Activity: Training and Recruiting

Activity Group: Basic Skills and Advanced Training

Detail by Subactivity Group: Specialized Skill Training

- I. Description of Operations Financed: These training operations provide Air Force members and personnel of other Services the individual training and education essential to effectively and efficiently operate, maintain, and manage complex weapon systems. This training provides our people the technical know how and leadership skills needed to function as an integral part of the Air Force. Programs include requirements for initial and follow-on technical skill training.

Initial skill training, which is normally provided to recruit training graduates, includes technical courses ranging in length from 5 to 50 weeks and covers a broad spectrum of courses from administration specialist to precision measurement equipment repair. Air Force members with initial training and job experience, but who require a higher degree of skill or familiarization with new equipment and operating techniques, will receive follow-on skill progression training.

Overall adjustments to military manpower in this sub-activity reflect an on-going transition to an Expeditionary Air Force (EAF) structure, as well as, a shift in support personnel positions into primary mission areas to more accurately depict the balance between the "tooth" and "tail" of the Air Force.

Operation and Maintenance, Active Forces

Budget Activity: Training and Recruiting

Activity Group: Basic Skills and Advanced Training

Detail by Subactivity Group: Specialized Skill Training

1) Competition and Privatization.....	\$6	
This is a transfer into O&M from the Military Personnel Appropriation. After careful review, the Air Force has designated these activities/functions as not military essential. A cost comparison study/direct conversion is underway to determine whether the workload will be contracted or remain in-house in accordance with the guidelines in OMB Circular A-76.		
7. Program Decreases.....	\$-1.8	
a.) Competition and Privatization Savings.....	\$-1.8	
This decrease reflects estimated savings which will be achieved by reducing costs through increased competition and expanded employee/private sector participation. These savings have been realigned to Air Force modernization accounts.		
8. FY 1999 Current Estimate.....	\$212.8	
9. Price Growth	\$6.0	
10. Program Transfers.....	\$13.0	
a. Transfer-In	\$12.1	
(1) DoD Computer Forensics Lab.....		
Implements Defense Reform Initiative Decision (DRID) #27 that directed the Air Force to establish a joint DoD Computer Forensics Lab and Training Program. Additionally, the DRID called for the Defense Criminal Investigation Organization (DCIO) and other defense agencies to provide appropriate staffing and funding. The transfer represents those resource adjustments agreed to by various government agencies.		

AIR FORCE

Operation and Maintenance, Active Forces

Budget Activity: Training and Recruiting

b. Functional Transfer \$.9

(1) Competition and Privatization \$.9

This is a transfer into O&M from the Military Personnel Appropriation. After careful review, the Air Force has designated these activities/functions as not military essential. A cost comparison study/direct conversion is underway to determine whether the workload will be contracted or remain in-house in accordance with the guidelines in OMB Circular A-76.

11. Program Increases..... \$11.1

a.) General Skills Training (FY 1999 Base, \$177.9).....

Funds 100% enlisted/officers attendance at initial skills training courses and reverses plans to convert 3% of enlisted and 22% of officer initial skills courses to Direct Duty Assignment (DDA). It also fully funds 8,750 MAJCOM-prioritized slots for Level 1 Mission Readiness Training.

12. Program Decreases..... \$-2.5

a.) Competition and Privatization Savings.....

This decrease reflects estimated savings which will be achieved by reducing costs through increased competition and expanded employee/private sector participation. These savings have been realigned from Air Force O&M to Air Force modernization accounts.

13. FY 2000 Budget Request..... \$240.4

AIR FORCE

Operation and Maintenance, Active Forces
Budget Activity: Training and Recruiting
Activity Group: Basic Skills and Advanced Training
Detail by Subactivity Group: Flight Training

- I. Description of Operations Financed: Flying training programs include flight screening, undergraduate pilot training, specialized undergraduate pilot training (Supt), undergraduate and advanced navigator training, and pilot instructor training.

Flying training operations start with flight screening operations administered by Air Education and Training Command at both the Air Force Academy and Randolph AFB, TX. The flight screening program identifies individuals who have the basic aptitude to become pilots. Units at three bases, Vance AFB, OK; Columbus AFB, MS; and Laughlin AFB, TX, conduct our Supt programs. Sheppard AFB hosts the EURO-NATO Joint Jet Pilot Training mission which produces pilots for participating NATO countries. Randolph AFB, trains our SUPT instructor pilots and is also responsible for navigator training.

Overall adjustments to military manpower in this sub-activity reflect an on-going transition to an Expeditionary Air Force (EAF) structure, as well as, a shift in support personnel positions into primary mission areas to more accurately depict the balance between the "tooth" and "tail" of the Air Force.

- | | |
|--|--------|
| 12. Program Increases..... | \$77.6 |
| a.) Undergraduate Pilot Training (FY 1999 Base, \$287.0) | \$53.8 |
| Increase funds all costs associated with increased pilot production, such as simulator time, contract maintenance, AVPOL, Depot Level Reparables (DLR), and flying hour supplies. Provides the resources necessary to meet required pilot production levels of 1,100 active duty total/370 fighter pilots. Funds increases in Contractor Logistics Support for the T-1A, T-3, T-6, and T-37 aircraft associated with increased pilot production. Also funds the T-38 Avionics Upgrade and Air Reserve Component Instructor Pilot programs which are required to meet pilot production levels (\$33.0). | |

Funds Joint Undergraduate Pilot and Navigator training conducted by the Navy.

Funding required to increase production to 150 C-130 pilots, which will alleviate critical C-130 pilot shortfalls (\$13.4).

Moves Electronic Warfare Officer (EWO) Training from NAS Pensacola to Randolph AFB. Increases navigator production by 30 graduates in FY 2000.

Regenerates 5 of 39 T-38 aircraft returning from lease with Taiwan to USAF baseline. Aircraft are needed to keep EWO graduate production on schedule (\$5.7).

Civilian Pay Adjustment: The increase represents revised civilian pay

funding associated with the increase in pilot production (\$1.7).

- | | | |
|-----|---|---------|
| b) | Other Flight Training (FY 1999 Base, \$26.1) | \$18.1 |
| | Funds increased Specialized Undergraduate Pilot Training (SUPT) production by 30 Intermediate Fighter Fundamentals (IFF) students enabling the Air Force to reduce its fighter pilot shortfall and reach its pilot production goal of 1,100 pilots per year by FY 2000. Supports additional simulators, contract maintenance, AVPOL, Depot Level Reparables (DLR), flying hour supplies and contracted classroom instructors. | |
| c) | EURO-NATO Joint Jet Pilot Training (ENJJPT) (FY 1999 Base, \$34.1) | \$3.9 |
| | The increase produces additional 15 US pilot graduates per year. This funding increase supports additional simulators, contract maintenance, AVPOL, Depot Level Reparables (DLR), and flying hour supplies. Also funds the stand-up of the AF Reserve instructor pilot program at Sheppard | |
| | AFB. This program uses reservists as instructors, which releases active duty instructor pilots for return to operational cockpits. | |
| d) | Undergraduate Navigator/NFO Training (FY 1999 Base, \$39.0) | \$1.8 |
| | Funds Joint Undergraduate Pilot and Navigator training conducted by the Navy. Required to meet Air Force navigator production goals. Funding increase allows the Navy to produce 300 navigators. | |
| 13. | FY 2000 Budget Request | \$471.5 |

Detail by Subactivity Group: Professional Development Education

- I. Description of Operations Financed: Professional Military Education (PME) programs enhance and develop critical leadership skills of commissioned officers, civilians, and noncommissioned officers and prepare them for progressively more responsible positions. Officer PME contributes to development of warfighting leaders capable of strategic thinking, cultivates expertise in employment of airpower, and provides an understanding of Joint and Combined operations. Enlisted PME strengthens leadership and management capability and broadens knowledge of the military profession. PME resident programs include Air War College, Air Command and Staff College, Squadron Officer School, Air and Space Basic Course, Airman Leadership Schools, the Non-Commissioned Officer Academy, and the Senior Non-Commissioned Officer Academy. All except the Non-Commissioned Officer Academy and Airman Leadership Schools may also be taken by correspondence.

Professional development programs for civilian and military personnel provide specialized education to meet needs in specific functional areas. A broad range of continuing education and graduate education programs are offered through the Center for Professional Development; School of Advanced Airpower Studies, Office of Academic Support, College of Enlisted Professional Military Education, the Education Development Center; the Center for Aerospace Doctrine, Research, and Education; and the Air Force Institute of Technology (AFIT). Courses are conducted at resident facilities and at civilian colleges or universities throughout the country.

C. Reconciliation of Increases and Decreases (\$\$ in Millions):

1.	FY 1999 President's Budget Request	\$90.7
2.	FY 1999 Revised.....	\$90.7
	a. Undistributed Congressional Adjustments	\$-1.6
	1) TDY Reductions	\$-1.3
	2) Equipment Reductions	\$-.2
	3) Revised Economic Assumptions	\$-.1
3.	FY 1999 Appropriation	\$89.1
4.	Reprogrammings/Transfers.....	\$-1.3
	a. Transfers Out	\$-1.3
	1) Depot Maintenance Reprogramming	\$-1.3
5.	Price Changes.....	\$-1
6.	Program Decreases.....	\$-.5
	a.) Air University Headquarters (FY1999 Base \$4.2)	\$-.5
	Decreased funding in equipment is a result of various efficiency initiatives at Air University, such as restructuring like functions, merging several offices, and A-76 studies.	
7.	FY 1999 Current Estimate	\$87.2

AIR FORCE

Operation and Maintenance, Active Forces

Budget Activity: Training and Recruiting

Activity Group: Basic Skills and Advanced Training

Detail by Subactivity Group: Professional Development Education

8.	Price Growth.....	\$2.5
9.	Program Increases.....	\$9.2
	a.) Professional Military Education (FY1999 Base, \$39.4).....	\$5.0
	Funding added to repair the Squadron Officer School (SOS) facility in order to establish the Aerospace Basic Course (ABC) and merge both schools into a shared environment. One ABC course was initiated in FY 1998 as a seven-week test program. SOS and ABC will produce 3,200 and 800 students, respectively, in FY 2000, with ABC scheduled for full implementation by FY 2003.	
	b.) Other Professional Education (PCE) (FY 1999 Base, \$46.5).....	\$4.2
	Supports Air Force decision to fully fund level I mission critical Professional Continuing Education courses to correct broken links between optempo taskings, low retention rates and the functional expertise needed to ensure continued mission accomplishment. This action assists in funding 1,628 College of Professional Development students, 500 CADRE students, 627 Academic Instructor Students, 124 students for the College of Enlisted PME, and 911 students in AFIT PCE courses for the Schools of Systems and Logistics, and Civil Engineering.	
10.	Program Decreases.....	\$-.1
	a.) Competition and Privatization Savings.....	\$-.1
	This decrease reflects estimated savings which will be achieved by reducing costs through increased competition and expanded employee/private sector participation. These savings have been realigned to Air Force modernization accounts.	
11.	FY 2000 Budget Request.....	\$98.8

Operation and Maintenance, Active Forces

Budget Activity: Training and Recruiting

Activity Group: Basic Skills and Advanced Training

Detail by Subactivity Group: Training Support

- I. Description of Operations Financed: Activities that fulfill other essential training functions include Headquarters Air Education and Training Command -- provides positive command, control, and guidance to the training establishment; Field Training Detachments -- conduct on-site training at Active, Guard, and Reserve installations on weapon systems identified to specific commands; and the Air Force Extension Course Institute (ECI) -- offers correspondence course programs covering mandatory career development courses, upgrading in most airmen skills and other training directed toward total force military education requirements.

II. Force Structure Summary:

C. Reconciliation of Increases and Decreases (\$s in Millions):

1.	FY 1999 President's Budget Request	\$65.7
2.	FY 1999 Revised	\$65.7
	a. Undistributed Congressional Adjustments	\$-.8
	1) TDY Reductions	\$-.7
	2) Equipment Reductions	\$-.1
3.	FY 1999 Appropriation	\$64.9
4.	Reprogrammings/Transfers.....	\$-.4
	a. Transfers Out	\$-.4
	1) Depot Maintenance Reprogramming	\$-.4
5.	Price Changes.....	\$1
6.	Program Increases.....	\$1.5
	a.) Civilian Pay Adjustment.....	\$1.5
	The increase represents revised civilian pay funding requirements based on updated assessment of actual workyear costs to reflect the impact of changes such as FY 1998 locality pay.	
7.	FY 1999 Current Estimate	\$66.1

	AIR FORCE	
	Operation and Maintenance, Active Forces	
	Budget Activity: Training and Recruiting	
	Activity Group: Basic Skills and Advanced Training	
	Detail by Subactivity Group: Training Support	
8.	Price Growth	\$2.6
9.	Functional Transfer	\$1.7
	a. Transfers In.....	\$1.7
	1) Competition and Privatization	\$1.7
	This is a transfer from the Military Personnel Appropriation. After careful review, the Air Force has designated these activities/functions as not military essential. A cost comparison study/direct conversion is underway to determine whether the workload will be contracted or remain in-house in accordance with the guidelines in OMB Circular A-76.	
10.	Program Decreases.....	\$-.5
	a.) Support of Training Establishment (FY 1999 Base, \$12.5)	\$-.5
	Decrease represents cancellation of contracts for the warehouse that stocks and ships textbooks and manuals to all non-resident Professional Military Education and Professional Continuing Education courses. Work is being performed in-house.	
11.	FY 2000 Budget Request	\$69.9

AIR FORCE
Operation and Maintenance, Active Forces
Budget Activity: Training and Recruiting
Activity Group: Basic Skills and Advanced Training
Detail by Subactivity Group: Real Property Maintenance

- I. Description of Operations Financed: Real Property Maintenance functions include maintenance and repair projects and minor construction accomplished by contract and by an in-house workforce. This Subactivity group supports Air Education and Training Command's (AETC) main operating bases. Objectives are to sustain mission capability, quality of life, and workforce productivity and to preserve AETC's physical plant. Overall adjustments to military manpower in this sub-activity reflect an ongoing transition to an Expeditionary Air Force (EAF) structure, as well as a shift in support personnel positions into primary mission areas to more accurately depict the balance between "tooth" and "tail" of the Air Force.

AETC's infrastructure support encompasses a variety of systems, services, and operations. The most significant categories receiving this support are listed below:

Maintenance, Repair, and Minor Construction of:

Real Property
Aircraft Maintenance Complexes
Aircraft Runways
Roads
Dormitories

	Decrease reflects a refinement in the distribution of anticipated Base Realignment and Closure (BRAC) savings by Air Education & Training Command for the closure of Reese Air Force Base, TX.

AIR FORCE

Operation and Maintenance, Active Forces

Budget Activity: Training and Recruiting

Activity Group: Basic Skills and Advanced Training

Detail by Subactivity Group: Real Property Maintenance

7.	Revised FY 1999 Estimate.....	\$115.7
8.	Price Growth.....	\$3.3
9.	Transfers In.....	\$2.8
	(1) Competition and Privatization.....	\$2.8
	This is a transfer into O&M from the Military Personnel Appropriation. After careful review, the Air Force has designated these activities/functions as not military essential. A cost comparison study/direct conversion is underway to determine whether the workload will be contracted or remain in-house in accordance with the guidelines in OMB Circular A-76.	
10.	Transfers Out	\$-51.3
	(1) Grounds Maintenance.....	\$-7.6
	The transfer of grounds services to Real Property Services is twofold. First, it is based upon a decision to better align this function with the in-house manpower resources and improves cost accounting within the Real Property Maintenance Activities (RPMA) program. Additionally, grounds services are similar in nature to refuse collection, custodial and other municipal-type services.	
	(2) Realignment of Real Property Maintenance	\$-43.7
	In FY 2000, the Department transferred funds (\$1,845 million, DoD-wide) from the O&M account into the Quality of Life Enhancements, Defense appropriation. Funds budgeted for repair and maintenance of QOL-type facilities are included in this account to give it special emphasis and to encourage better management of the funds by giving them a two-year life.	
11.	Program Decreases.....	\$-6.9

AIR FORCE

Operation and Maintenance, Active Forces

Budget Activity: Training and Recruiting

Activity Group: Basic Skills and Advanced Training

Detail by Subactivity Group: Real Property Maintenance

a. Program Decreases in FY 2000.....\$-6.9

1) Civilian Separation Incentives\$-1.6

Civilian separation incentives are authorized by Section 4436 of P.L. 102-484.
These costs reflect the incremental decrease required in FY 2000 as compared to
FY 1999.

2) Competition and Privatization Savings.....\$-1.5

This decrease reflects estimated savings which will be achieved by reducing costs
through increased competition and expanded employee/private sector participation.
These savings have been realigned from Air Force O&M to Air Force
modernization accounts.

3) Real Property Maintenance\$-3.8

This RPM reduction reflects field commanders' decisions of how to best to meet
mission requirements while sustaining an austere level of facility maintenance and
repair (such as periodic maintenance of heating, ventilation, and air conditioning,
pavement, water and sewer distribution systems, service calls to fix failed
plumbing, electrical distribution, and engineering contract and design support).

This decrease does not reflect a decline in requirements and will result in increased
costs in future years. The impact of deferred maintenance is reduced productivity
in maintenance shops, along the flight line and in office areas. In FY 2000, this
problem will be further aggravated by insufficient military construction funding to
replace worn-out, inefficient and uneconomical facilities and infrastructure.

AIR FORCE

Operation and Maintenance, Active Forces

Budget Activity: Training and Recruiting

Activity Group: Basic Skills and Advanced Training

Detail by Subactivity Group: Base Support

- I. Description of Operations Financed: This subactivity provides funding for base support functions, and engineering and environmental programs in support of Air Education and Training Command (AETC). The main objectives are to sustain mission capability, quality of life, workforce productivity and infrastructure support. Overall adjustments to military manpower in this sub-activity reflect an ongoing transition to an Expeditionary Air Force (EAF) structure, as well a shift in support personnel positions into primary mission areas to more accurately depict the balance between the "tooth" and "tail" of the Air Force. The major programs in this subactivity group are listed below:

Audiovisual Information Activities: Funds audiovisual support for video production, graphic art, photo lab, visual information library equipment maintenance, presentation sections, video teleconferencing system, management and operation of audiovisual product distribution, still photo, motion picture, television and audio recordings, and electronic and graphics imaging.

Base Communications: Supports base telephone systems, maintenance of intra-base radio systems, base wire communications, official toll calls, Class B toll calls, and other base government-owned commercial communication requirements; dedicated leased long lines that provide connectivity to Air Force and DoD networks; and standard base level computer equipment.

Base Operating Support: Program funds transportation, security forces, comptroller, staff judge advocate, claims, and personnel organizations; and personnel, dining facilities, lodging, contracting services, chaplain, administration, mess attendant and equipment maintenance contracts, postal services, data processing, airfield and air operations, furnishings management, and other authorized service activities.

Child Development Centers (CDC) and Family Support Centers (FSC): CDCs, which support provisions of the Military Child Care Act of 1989, also include Family Day Care (FDC). CDCs provide full-day, part-day, and hourly care for children. The FDC program supervises individuals who reside in on-base housing and provide full-day care for children. FSCs support readiness and retention as the focal point for family matters and provide core services such as: consultation, family readiness, crisis assistance, Air Force Aid Society, personal financial management, spouse employment, volunteer resource, and relocation and transition assistance programs.

Real Property Services: Provides essential installation facility support for purchased utilities, utility plant operations, grounds maintenance, fire protection, crash rescue, snow and ice removal, entomological services, elevator maintenance/inspection, and rents and leases. Contracted engineering services include custodial services, refuse collection, corrosion control, sewer and waste systems, facility engineering and public works management, other installation engineering services and annual service requirements performed in-house or by contract.

AIR FORCE

Operation and Maintenance, Active Forces

Budget Activity: Training and Recruiting

Activity Group: Basic Skills and Advanced Training

Detail by Subactivity Group: Base Support

Environmental Conservation/Compliance: Environmental Conservation provides for protection and enhancement of natural and cultural resources, environmental surveys, consultations with environmental regulators, and mapping and planning support systems. Environmental Compliance ensures all federal, state, and local environmental laws are enforced through sampling, analysis, and monitoring; hazardous waste characterization and disposal; underground storage tank removal/repair/replacement; leak detection and monitoring; spill response and clean-up; training; maintenance, repair, and minor construction projects for environmental facilities and infrastructure.

Pollution Prevention: This program was established to prevent future pollution by reducing hazardous material use and releases of pollutants into the environment to as near zero as feasible to alleviate environmentally harmful discharges to the air, land, surface and ground water.

7.	Program Increases		
a.	Program Increases in FY 1999	\$3.0	
1)	Civilian Pay Adjustment.....	\$3.0	
	The increase represents revised civilian pay funding requirements based on updated assessment of actual workyear costs to reflect the impact of changes such as FY 1998 locality pay.		
8.	Revised FY 1999 Estimate.....	\$389.4	
9.	Price Growth	\$10.4	
10.	Functional Program Transfers	\$9.7	
a.	Transfers In.....	\$12.5	
1)	Grounds Maintenance	\$6.2	
	The transfer of grounds services to Real Property Services is twofold. First, it is based upon a decision to better align this function with the in-house manpower resources and secondly, improves cost accounting within the Real Property Maintenance Activities (RPMA) program. Additionally, grounds services are similar in nature to refuse collection, custodial and other municipal-type services.		
2)	Competition and Privatization	\$4.2	
	This is a transfer into O&M from the Military Personnel Appropriation. After careful review, the Air Force has designated these activities/functions as not military essential. A cost comparison study/direct conversion is underway to determine whether the workload will be contracted or remain in-house in accordance with the guidelines in OMB Circular A-76.		

AIR FORCE

Operation and Maintenance, Active Forces
Budget Activity: Training and Recruiting
Activity Group: Basic Skills and Advanced Training
Detail by Subactivity Group: Base Support

- | | |
|---|--------|
| 3) Interservice Training Review Organization | \$1.8 |
| Increase provides base operating support costs in support of medical training studies as identified in the interservice Training Review Organization studies. | |
| 4) Financial Services Officer | \$.3 |
| Increase reflects a transfer from military to civilian authorizations, to create a senior accountant position within the Financial Services Offices (FSO) at the wing level. Implements an Air Force Inspection Agency Financial Management Review recommendation. By strengthening the financial accounting function at the wing level, long standing deficiencies within FSOs can be corrected. | |
| b. Transfers Out | \$2.8 |
| 1) Common User Communications | |
| Transfer complies with OSD direction to transition dedicated long haul communications to common user communications. Transition will provide C2 and combat support users with common user voice and data communications access. Transferred to Servicewide Communications (SAG 42B). | |
| 2) Defense Messaging System | \$-1.0 |
| This decrease realigns the Defense Messaging System (DMS) manpower from multiple program elements into the DMS program element. It will support manpower to run the DMS mail servers at each base in the Air Force. | |
| 3) Base Communications | \$.6 |
| Realigns program and funding from multiple base communication programs to a single base communication function. | |

Activity Group: Basic Skills and Advanced Training
Detail by Subactivity Group: Base Support

11. Program Increases.....	\$13.3
a. Program Increases in FY 2000	\$13.3
1) Undefined Re-engineering (Competition and Privatization)	\$9.2
Increase eliminates unrealized FY 1999 savings for Undefined Reengineering. This one-time funding increase restores programs to historically funded levels.	
2) Child Development Centers (FY 1999 Base, \$9.9).....	\$2.8
Overall funding was increased to operate new or expanded child development centers at Altus, Laughlin, and Lackland AFBs and to fund the special needs child development center at Lackland AFB.	
3) Pollution Prevention Program (FY 1999 Base \$.9).....	\$.1.3
This increase supports the use of pollution prevention as the first choice to achieve compliance and the Air Force's Environmental mission to achieve and maintain compliance with U.S. environmental laws.	
12. Program Decreases.....	\$-11.2
a. Program Decreases in FY 2000	\$-11.2
1) Base Support (FY 1999 Base, \$249.6)	\$-6.7
Contractual services is a level of effort program. This decrease recognizes program efficiencies and provides funding for a balanced and properly priced program. Programmed funding level also complies with congressional language to accurately report and define contract services requirements.	

AIR FORCE

Operation and Maintenance, Active Forces

Budget Activity: Training and Recruiting

Detail by Subactivity Group: Base Support

- 2) Competition and Privatization Savings.....\$-3.1

Civilian separation incentives are authorized by Section 4436 of P.L. 102-484.

These costs reflect the incremental decrease required in FY 2000 as compared to FY 1999.

- 3) Civilian Separation Incentives.....\$-1.4

Civilian separation incentives are authorized by Section 4436 of P.L. 102-484.

DoD activities may pay up to \$25,000 for separation incentives plus 15% of basic pay to OPM. The current policy is to offer incentives before a person is involuntarily separated. Since most of the drawdown has been achieved, this decrease reflects the incremental decrease required in FY 2000 as compared to FY 1999. (Projected incentives to be paid in FY 1999 and FY 2000 are \$6 million and \$4.6M, respectively).

AIR FORCE

Operation and Maintenance, Active Forces

Budget Activity: Training and Recruiting

Activity Group: Recruiting & Other Training & Education

Detail by Subactivity Group: Recruiting and Advertising

- I. Description of Operations Financed: Recruiting, processing and classification operations provide personnel in the required quantity, quality, and skills, both non-prior and prior service (officer and enlisted), to fulfill Air Force end strength and force structure manpower requirements. Advertising efforts support the following personnel procurement programs: Enlisted, Career Motivation, Air Force Academy, Reserve Officer Training Corps, Officer Training, Health Professional and Specialized Recruiting (hard-to-fill skills). The thrust in advertising is to achieve a balance between lead generation which supports current objectives and awareness programs which support long-range efforts aimed at future prospects.

8.	Revised FY 1999 Estimate	\$61.0
9.	Price Growth	\$1.3
10.	Program Increases	\$40.2
		\$36.0
a.	Advertising Activities (FY 1999 Base, \$38.2)	
	Increase is due to difficulties maintaining optimal number of accessions in the Delayed Entry Program (DEP). Failure to keep the DEP bank at 43% of the next year's accession requirements may result in a missed recruiting goal and empty class seats at Basic Military Training (BMT). Other negative indicators include a low propensity to enlist, a competitive youth market, and a steady decline in the number of quality enlistees (based on Air Force Qualification Test scores). Based on current trends, the Air Force expects to enter FY 1999 with only 76% of the DEP scoring in the top half of the AFQT. Advertising increases launch the first Air Force paid national TV advertising campaign, provides for sustained national magazine advertising, continued presence in the growing Internet market, increased quantities of Air Force literature, additional localized advertising, a shift from network radio syndication to select spot radio market purchases, and annual production of "refreshed" TV public service announcements.	
b.	Recruiting Activities (FY 1999 Base, \$38.8)	\$4.2
	Increase supports additional supplies and equipment to ensure recruiters can effectively pursue new officer/enlisted accession goals. Increase also funds equipment maintenance on worn equipment with expired warranties and some contractor support costs of developing, testing, and implementing the Air Force Recruiting Information Support System (AFRISS).	
11.	FY 2000 Budget Request	\$102.5

5.	Program Increases	\$.3
a.	Program Increase in FY 2000	\$.3
1)	Examining Activities (FY 1999 Base \$.8)	\$.3
	Increase is for the Air Force Officer Qualifying Test (AFOQT) review cycle. These tests are reviewed periodically to prevent obsolescence. The next review cycle will begin in FY 2000 and end in FY 2002. The AFOQT is a critical tool for selection into Air Force Reserve Officer Training Corps, Officer Training School, Undergraduate Pilot Training, Air Force Reserve, and Air National Guard pilot training. It consists of 16 subtests that are combined into composites for pilot, navigator/technical, and nonrated officer selection.

5.	Price Changes	\$-.2
6.	Program Decreases	\$-.3
a.	Off Duty & Voluntary Education (FY 1999 Base, \$84.1)	\$-.3
	Decrease reflects increased civilian labor reimbursements and cost savings resulting from computer equipment and software.	
7.	FY 1999 Current Estimate	\$81.9
8.	Price Growth	\$2.0
9.	Functional Program Transfers	\$4

AIR FORCE
 Operation and Maintenance, Active Forces
 Budget Activity: Training and Recruiting
 Activity Group: Recruiting & Other Training & Education
 Detail by Subactivity Group: Off-Duty & Voluntary Education

a.	Transfers In.....	\$.4
	1) Competition and Privatization	\$.4
	This is a transfer into O&M from the Military Personnel Appropriation. After careful review, the Air Force has designated these activities/functions as not military essential. A cost comparison study/direct conversion is underway to determine whether the workload will be contracted or remain in-house in accordance with the guidelines in OMB Circular A-76.	
	10. Program Increases	\$3.4
a.	Civilian Separation Incentives (FY 1999 Base, \$0)	\$2.6
	Civilian separation incentives are authorized by Section 4436 of P.L. 102-484. These costs reflect the incremental funds required in FY 2000 over and above salary savings. DoD activities may pay up to \$25,000 for separation incentives plus 15% of basic pay to OPM. The current policy is to offer incentives before a person is involuntarily separated.	
b.	Off-Duty Voluntary Education Program (FY 1999 Base, \$81.4)	\$.8
	Reflects anticipated increases to miscellaneous tuition contracts in excess of inflation. The University Continuing Education Association publication dated Oct 1998, confirms the cost of college tuition has outpaced the nation's inflation rate over the last five years. According to the article, "for the second year in a row, the average cost of tuition and fees at public, four year colleges and universities rose." Information provided by the National Center for Education Statistics through the University Continuing Education Association revealed the education inflation rate was 5% for the school year 1997-1998.

AIR FORCE
Operation and Maintenance, Active Forces
Budget Activity: Training and Recruiting
Activity Group: Recruiting & Other Training & Education
Detail by Subactivity Group: Civilian Education & Training

- I. Description of Operations Financed: Civilian education and training programs provide: technical, professional, and specialized skill training; supervisory and management development, and administrative and clerical instruction to over 89,000 Air Force O&M civilian employees. Funds are used to train a broad array of civilians, those who maintain Air Force facilities and aircraft to those who are involved in the research and design of advanced systems. Requirements are modeled based on actual and projected force structure/demographic changes by major occupational families, grade and training type.
- The program supports Air Force intern programs which fund salaries and benefits for force renewal programs to meet long term replacement requirements. Requirements are determined based on an inventory projection model that identifies the number of new hires needed to sustain the force. It includes Copper Cap for the acquisition/contracting career field, PALACE Knight designated for the scientific fields, and PALACE Acquire for all functional areas.

The program also funds reemployment opportunities offered to former Air Force employees who are injured on the job. It supports areas where essential training must be provided to fulfill legal and/or other directives as well as training that is related to the modernization and/or acquisition of systems that need specialized skills to maintain and operate.

- II. Force Structure Summary: N/A

AIR FORCE

Operation and Maintenance, Active Forces
Budget Activity: Administration and Servicewide Activities
Activity Group: Logistics Operations
Detail by Subactivity Group: Logistics Operations

- I. Description of Operations Financed: Logistics Operations O&M provides funding for Air Force Materiel Command's (AFMC) Air Logistics Centers, Product Centers, Headquarters, the Air Force's Acquisition Program Executive Offices and several Field Operating Agencies. Resources in this subactivity group provide primarily for the pay of the civilian workforce, along with the associated cost of travel and transportation, purchased equipment maintenance, supplies, equipment, contractual services, including sustaining engineering for munitions, oil analysis, vehicles, common support equipment and their exchangeable components, and reimbursement for information services provided by Defense Information Systems Agency (DISA) and Air Force Information Services Business Area (AFISBA).

In addition, Logistics Operations funds depot maintenance of systems and equipment that are not weapon specific. Resources are managed by AFMC and work is accomplished at organic, interservice, or contract facilities. The majority of the comprehensive logistics and acquisition support activities work together to ensure Air Force readiness and sustainability. They are located at ten CONUS bases; Brooks, Hanscom, Hill, Kelly, Kirtland, Los Angeles, McClellan, Robins, Tinker, and Wright-Patterson.

Overall adjustments to military manpower in this sub-activity reflect an ongoing transition to an Expeditionary Air Force (EAF) structure, as well a shift in support personnel positions into primary mission areas to more accurately depict the balance between the "tooth" and "tail" of the Air Force.

II. Force Structure Summary:

	<u>FY 1998</u>	<u>FY 1999</u>	<u>FY 2000</u>
Number of Air Logistics Centers supported	5	5	5
Number of Product Centers supported	4	4	4
Labs supported	4	4	4

The Air Force Materiel Command's five Air Logistics Centers, four Product Centers, and four Labs continue to provide cradle-to-grave acquisition and logistics support Air Force-wide. On 1 Nov 97, an organizational restructuring consolidated four (4) superlabs into one (1) megalab now known as Air Force Research Laboratory (AFRL). The consolidation was accomplished to effect efficient operations while retaining the original number of research sites.

AIR FORCE

Operation and Maintenance, Active Forces

Budget Activity: Administration and Servicewide Activities

Activity Group: Logistics Operations

Detail by Subactivity Group: Logistics Operations

a. Transfer In

1) Air Force Materiel Command DISA funding consolidation.....

To improve identification and uses, Air Force Materiel Command consolidated Defense Information Service Agency (DISA) funding for more efficient and effective management.

2) E&I Reengineering

Increase is due to the Jan 1998 Air Force Council decision to reengineer the 38th Engineering and Installation Wing (EIW) at Tinker AFB divesting unit of organic installation and engineering services. In FY 2000 these services will be accomplished via centrally managed contracts.

b. Transfers Out

1) Competition and Privatization Savings.....

This decrease reflects estimated savings which will be achieved by reducing costs through increased competition and expanded employee/private sector participation. These savings have been realigned from Air Force O&M to Air Force modernization accounts.

10. Program Increases.....

a. Logistics Operations (FY 1999 Base \$721.3).....

Increases to this program provide: an additional \$14.8 required for updating the backlog of technical orders that provide rules, guidance and instruction for the repair of aircraft engines, equipment used to repair aircraft, and ground support equipment; an increase of \$4.0 to support modernization of the Installation Logistic System - Supply (ILSS) that manages \$45B of spare parts inventory, providing the ability to accurately predict future weapon spares demand using a combination of embedded algorithms and accurate data; an increase of \$2.9 for the Air Force Quick Reaction Capability Support Center (QRCSC) to purchase minimum supply support for distinct systems on selected aircraft.

AIR FORCE
Operation and Maintenance, Active Forces
Budget Activity: Administration and Servicewide Activities
Activity Group: Logistics Operations
Detail by Subactivity Group: Logistics Operations

b.	One-Time FY 2000 Costs (FY 1999 Base \$721.3).....	\$+1.9
	This one year realignment of RDT&E funds will support the Joint Ammunition Management Standard System (JAMSS). JAMSS is the joint migration system to improve and integrate ammunition management business functions and data across DoD. It directly supports the goals of the DoD Logistics Strategic Plan to reduce logistics response times, provide total asset visibility, develop seamless logistics systems and streamline the logistics infrastructure.	
11.	Program Decreases.....	\$-20.4
a.	Logistics Operations (FY 1999 Base \$721.3).....	\$-20.4
1)	End Strength Adjustments	\$ -5.2
	Decrease represents the distribution of management headquarters reduction and force structure support adjustment.	
2)	Voluntary Separation Incentive Payment (VSIP).....	\$ - 5.1
	Decrease represents a reduction of 166 personnel from FY 1999 to FY 2000 electing separation incentives. FY 1999 required 200 personnel separate prior to the end of the fiscal year compared to 34 personnel in FY 2000.	
3)	REMIS	\$-10.1
12.	FY 2000 Budget Request.....	\$744.8

AIR FORCE

Operation and Maintenance, Active Forces

Budget Activity: Administration and Servicewide Activities

Activity Group: Logistics Operations

Detail by Subactivity Group: Technical Support Activities

- I. Description of Operations Financed: This subactivity group funds acquisition functions at Air Force Materiel Command (AFMC) product centers. These centers include the Aeronautical Systems Center (ASC), Wright Patterson AFB, OH; Electronic Systems Center (ESC), Hanscom AFB, MA; Space and Missile Systems Center (SMC), Los Angeles, CA; and Human Systems Center (HSC), Brooks AFB, TX. It does not provide funds for Research, Development, Test and Evaluation (RDT&E) activities which are funded in the RDT&E appropriation. These product centers conceive, design, develop, integrate and acquire AF systems, subsystems, and equipment. ASC is responsible for management of aeronautical systems acquisition. ESC is responsible for command, control, communications, and intelligence systems acquisition. SMC plans, programs, and manages space systems. HSC manages aerospace medicine studies, analysis, and technology.

The Air Force Operational Test and Evaluation Center (AFOTEC) mission is to manage the Air Force Operational Test and Evaluation (OT&E) program in accordance with Air Force and Department of Defense (DoD) policy and guidance. OT&E provides an evaluation of the operational capabilities of a weapon system and identifies deficiencies in the system before designated production and acquisition decisions. This program element pays for all phases of HQ AFOTEC conducted Follow-On OT&E (FOT&E) and Qualification OT&E (QOT&E), also normal overhead and administration operating expenses for the Headquarters, 3 Detachments, and 22 operating locations.

The Defense Standardization Program provided for the achievement of standardization within the Department of Defense required by Public Law Title 10, U.S. Code, Chapter 145, Cataloging and Standardization, in accordance with the DoD Instruction 5000.2, Part 6, SECTION Q, and Defense Standardization Manual 4120.3M. This program element included manpower authorizations and funding for accomplishing standardization within Department of Defense and its components (in accordance with defense and component policy). Funding for this program terminated in FY 1998.

Acquisition and Command Support (ACS) provides resources to support the staff functions, technical mission, and support activities at Air Force Materiel Command acquisition organizations. Resources within ACS include costs to pay civilian personnel, travel, transportation, contractual services, supplies and equipment for the four centers.

AIR FORCE

Operation and Maintenance, Active Forces

Budget Activity: Administration and Servicewide Activities

Activity Group: Logistics Operations

Detail by Subactivity Group: Servicewide Transportation

- I. Description of Operations Financed: This subactivity group contains the programs that supply the Air Force with worldwide transportation services. The Second Destination Transportation (SDT) program provides movement of cargo for various Air Force activities and Air Post Office (APO) mail for all overseas Air Force activities. SDT provides for the CONUS/OCONUS movement of non-DWCF Air Force materiel (vehicles, munitions, aircraft engines, support equipment, etc.) from depot to depot or base to base as directed by the item manager. SDT funds maintenance to maintenance shipments entering the Defense Transportation System (DTS). The DTS includes airlift and over-ocean movement by Air Mobility Command (AMC) and Military Sealift Command (MSC). Most costs incurred support overseas warfighting commands. Also included is support for distribution of APO mail destined to, from, and between overseas installation.

Defense Courier Services (DCS) is the single DoD agency responsible for secure/rapid worldwide distribution of highly classified, time-sensitive national security material and is an integral part of National Command Authority's command, control, and communications system. The service is responsible for transporting primarily top secret, sensitive compartmented information, cryptographic keying material, and sensitive material. DCS services over 7,000 customers, including DoD components, federal agencies, NATO, U.S. allies, and government contractors. Air Force customers total 1,150 and account for 30 percent of the DoD portion of the workload. DCS receives, processes and delivers nearly 10 million pounds of material annually. DCS utilizes Air Mobility Command and commercial airlift, overnight express carriers, small charter aircraft, and ground vehicles to transport distributions.

II. Force Structure Summary:

Defense Courier Service (DCS) is a joint activity with USTRANSCOM exercising operational command as executive agent for SecDef. It is composed of a headquarters staff, three regional commanders (CONUS/North America, European, and Pacific regions), and 32 Defense Courier Stations located in 11 nations. Effective in FY 1997, this program moved into the Defense Working Capital Fund. Air Force now only has customer funding for Air Force and State Department requirements.

Operation and Maintenance, Active Forces
Budget Activity: Administration and Servicewide Activities
Activity Group: Logistics Operations
Detail by Subactivity Group: Real Property Maintenance

- I. Description of Operations Financed: Real Property Maintenance (RPM) functions include maintenance and repair projects and minor construction accomplished by contract and by an in-house workforce. This Subactivity Group supports Air Force Materiel Command's (AFMC) main operating bases. Our objectives are to sustain mission capability, quality of life, workforce productivity, and preserve AFMC's physical plant.
- AFMC's infrastructure support encompasses a variety of systems, services, and operations. The most significant categories receiving this support are listed below:

Maintenance, Repair, and Minor Construction of:

Real Property
Aircraft Maintenance Complexes
Aircraft Runways
Roads
Dormitories

6.	Price Changes	\$-.2
7.	Program Decreases.....	\$0.3
a.	Program Decreases in FY 1999.....	\$0.3
1)	Civilian Pay Adjustments	\$0.3
	The decrease represents revised civilian pay funding requirements based on updated assessment of actual workyear costs to reflect the impact of changes such as FY 1998 locality pay.	
8.	Revised FY 1999 Estimate.....	\$270.7

AIR FORCE

Operation and Maintenance, Active Forces
Budget Activity: Administration and Servicewide Activities
Activity Group: Logistics Operations
Detail by Subactivity Group: Real Property Maintenance

9.	Price Growth	\$7.3
10.	Functional Program Transfers	\$-61.7
	a. Transfers In	\$8.1
	1) Competition and Privatization	\$8.1
	This is a transfer into O&M from the Military Personnel Appropriation. After careful review, the Air Force has designated these activities/functions as not military essential. A cost comparison study/direct conversion is underway to determine whether the workload will be contracted or remain in-house in accordance with the guidelines in OMB Circular A-76.	
	b. Transfers Out	\$-69.8
	1) Grounds Maintenance	\$-20.0
	The transfer of grounds services to Real Property Services is twofold. First, it is based upon a decision to better align this function with the in-house manpower resources and improves cost accounting within the Real Property Maintenance Activities (RPMA) program. Additionally, grounds services are similar in nature to refuse collection, custodial and other municipal-type services.	
	2) Realignment of Real Property Maintenance	\$-49.8
	In FY 2000, the Department transferred funds (\$1,845 million, DoD-wide) from the O&M account into the Quality of Life Enhancements, Defense appropriation. Funds budgeted for repair and maintenance of QOL-type facilities are included in this account to give it special emphasis and to encourage better management of the funds by giving them a two-year life.	

AIR FORCE
 Operation and Maintenance, Active Forces

 Activity Group: Logistics Operations
 Detail by Subactivity Group: Real Property Maintenance

11.	Program Increases.....	\$32.5
	a. Program Increases in FY 2000	\$32.5
	1) Civilian Separation Incentives	\$2.0
	Civilian separation incentives are authorized by Section 4436 of P.L. 102-484. These costs reflect the incremental funds required in FY 2000 over and above salary savings. DoD activities may pay up to \$25,000 for separation incentives plus 15% of basic pay to OPM. The current policy is to offer incentives before a person is involuntarily separated.	
	2) Real Property Maintenance Programs.....	\$30.5
	Increase realigns funds to the preventive maintenance level (PML) of one percent of plant replacement value. PML represents the resources necessary to accomplish day-to-day recurring maintenance required to continue the existing life cycle of real property facilities and infrastructure. Current funding only supports emergency and critical repair work. The impact of deferred maintenance is reduced productivity in maintenance shops, along the flight line and in office areas.	
12.	Program Decreases.....	\$-3.6
	a. Program Decreases in FY 2000	\$-3.6
	1) Competition and Privatization Savings.....	
	This decrease reflects estimated savings which will be achieved by reducing costs through increased competition and expanded employee/private sector participation. These savings have been to Air Force modernization accounts.	
13.	FY 2000 Budget Request.....	\$245.2

AIR FORCE

Operation and Maintenance, Active Forces

Budget Activity: Administration and Servicewide Activities

Activity Group: Logistics Operations

Detail by Subactivity Group: Base Support

- I. Description of Operations Financed: This subactivity provides funding for base support functions, and engineering and environmental programs in support of the Air Force Materiel Command (AFMC). The main objectives are to sustain mission capability, quality of life, workforce productivity and infrastructure support. Overall adjustments to military manpower in this sub-activity reflect an ongoing transition to an Expeditionary Air Force (EAF) structure, as well a shift in support personnel positions into primary mission areas to more accurately depict the balance between the "tooth" and "tail" of the Air Force. Significant categories of support are listed below:

Audiovisual Information Activities: Funds audiovisual support for video production, graphic art, photo lab, visual information library equipment maintenance, presentation sections, video teleconferencing system, management and operation of audiovisual product distribution, armament delivery recording, still photo, motion picture, television and audio recordings, and electronic and graphics imaging.

Base Communications: Supports base telephone systems, maintenance of intra-base radio systems, base wire communications, official toll calls, Class B toll call, and other base government-owned commercial communication requirements; dedicated leased long lines that provide connectivity to Air Force and DoD networks; Global Decision Support Systems to support command and control of worldwide airlift/tanker mission requirements; Phase IV standard base level computer equipment; and secure voice teleconferencing command and control systems.

Base Support: Program funds transportation, security forces, comptroller, staff judge advocate, claims, and personnel organizations; and dining facilities, lodging, contracting services, chaplain, administration, mess attendant and equipment maintenance contracts, postal services, data processing, airfield and air operations, furnishings management, and other authorized service activities.

Child Development Centers (CDC) and Family Support Centers (FSC): CDCs, which support provisions of the Military Child Care Act of 1989, also include Family Day Care (FDC). CDCs provide full-day, part-day, and hourly care for children. The FDC program supervises individuals who reside in on-base housing and provide full-day care for children. FSCs support readiness and retention as the focal point for family matters and provide core services such as: consultation, family readiness, crisis assistance, Air Force Aid Society, personal financial management, spouse employment, volunteer resource, and relocation and transition assistance programs.

Real Property Services: Provides essential installation facility support for purchased utilities, utility plant operations, grounds maintenance, fire protection, crash rescue, snow and ice removal, entomological services, elevator maintenance/inspection, and rents and leases. Contracted engineering services include custodial services, refuse collection, corrosion control, sewer and waste systems, facility engineering and public works management, other installation engineering services and annual service requirements performed in-house or by contract.

AIR FORCE

Operation and Maintenance, Active Forces
Budget Activity: Administration and Servicewide Activities
Activity Group: Logistics Operations
Detail by Subactivity Group: Base Support

Environmental Conservation/Compliance: Environmental Conservation provides for protection and enhancement of natural and cultural resources, environmental surveys, consultations with environmental regulators, and mapping and planning support systems. Environmental Compliance ensures all federal, state, and local environmental laws are enforced through sampling, analysis, and monitoring; hazardous waste characterization and disposal; underground storage tank removal/repair/replacement; leak detection and monitoring; spill response and clean-up; training; maintenance, repair, and minor construction projects for environmental facilities and infrastructure.

Pollution Prevention: This program was established to prevent future pollution by reducing hazardous material use and releases of pollutants into the environment to as near zero as feasible to alleviate environmentally harmful discharges to the air, land, surface and ground water.

AIR FORCE

Operation and Maintenance, Active Forces
Budget Activity: Administration and Servicewide Activities
Activity Group: Logistics Operations
Detail by Subactivity Group: Base Support

8.	Revised FY1999 Estimate.....	\$951.7
9.	Price Growth.....	\$25.9
10.	Functional Program Transfers.....	\$55.7
a.	Transfers In.....	\$64.7
1)	Competition and Privatization	\$38.9
	This is a transfer from the Military Personnel Appropriation. After careful review, the Air Force has designated these activities/functions as not military essential. A cost comparison study/direct conversion is underway to determine whether the workload will be contracted or remain in-house in accordance with the guidelines in OMB Circular A-76.	
2)	Grounds Maintenance	\$20.0
	The transfer of grounds services to Real Property Services is twofold. First, it is based upon a decision to better align this function with the in-house manpower resources and improves cost accounting within the Real Property Maintenance Activities (RPMA) program. Additionally, grounds services are similar in nature to refuse collection, custodial and other municipal-type services.	
3)	Leased Vehicles	\$5.4
	The FY 1999 Appropriations Conference Report reduced the Air Force Procurement appropriation by \$12.6 million and approved \$2.4 million for leasing vehicles. The committee recommended each service lease general purpose vehicles in order to exploit the competitive market, reduce base motor pool personnel and plan for infrastructure reductions. In response to the conference mark, the Air Force has realigned FY 2000 funds from the Procurement appropriation account to O&M to continue the transition to increased leasing of vehicles.	

<p>AIR FORCE</p> <p>Operation and Maintenance, Active Forces</p> <p>Budget Activity: Administration and Servicewide Activities</p> <p>Activity Group: Logistics Operations</p> <p>Detail by Subactivity Group: Base Support</p>	
4) Johnston Atoll Host-Management	\$3
The Air Force has host-management responsibility of Johnston Atoll. Since 1973, host-management was delegated to the Defense Nuclear Agency (DNA), now known as the Defense Threat Reduction Agency (DTRA), to support atmospheric nuclear testing mission. In 1993, DNA's mission was terminated, however, DNA retained the host-management mission to support the Army's chemical munitions demilitarization mission. The Army's presence at Johnston Atoll is scheduled to end 1 Oct 2001. Since there are no follow-on DoD missions identified, the host-management responsibilities and funding for Johnston Atoll have been returned to the Air Force. This increase provides the resources necessary to fund day-to-day supplies, equipment and materials required by the support staff.	
5) Financial Services Officer	\$1
Increase reflects a transfer from military to civilian authorizations, to create a senior accountant position within the Financial Services Offices (FSO) at the wing level. Implements an Air Force Inspection Agency Financial Management Review recommendation. By strengthening the financial accounting function at the wing level, long standing deficiencies within FSOs can be corrected.	
b. Transfers Out	\$9.0
1) AFMC DISA Consolidation	\$-6.2
To ensure proper identification and uses, Defense Information Service Agency (DISA) funding is consolidated into one contract location for more efficient and effective management.	
2) Defense Message Center Manpower	\$-1.8

AIR FORCE
Operation and Maintenance, Active Forces
Budget Activity: Administration and Servicewide Activities
Activity Group: Logistics Operations
Detail by Subactivity Group: Base Support

This decrease realigns the Defense Messaging System (DMS) manpower from multiple program elements into the DMS program element. It will support manpower to run the DMS mail servers at each base in the Air Force.

- | | | | |
|-------|--|--------|--|
| 3) | Common User Communications | \$-1.0 | |
| | Transfer complies with OSD direction to transition dedicated long haul communications to common user communications. Transition will provide C2 and combat support users with common user voice and data communications access.

Transferred to Servicewide Communications (SAG 42B). | | |
| | | | |
| 11. | Program Increases | \$67.3 | |
| a. | Program Increases in FY 2000 | \$67.3 | |
| | 1) Base Support (FY 1999 Base, \$450.5) | \$19.4 | |
| | This increase addresses critical Base Operating Support shortfalls. The Air Force can no longer sustain readiness without an adequate level of BOS funding for combat service support and quality of life for home base and forward deployed forces. Funds mobility/deployment requirements (mobility gear, weapons qualification equipment, HAZMAT protective clothing), bench stock (supplies and equipment for transient alert, aircraft maintenance, airfield operations), vehicle operations and maintenance, transportation of forces, transportation of engines and other repair parts, training of services personnel (wartime readiness training), and messing service contracts. | | |
| 2) | Pollution Prevention Program (FY 1999 Base, \$26.9) | \$17.7 | |
| | This increase supports the use of pollution prevention as the first choice to achieve compliance and the Air Force's Environmental mission to achieve and maintain compliance with U.S. environmental laws. | | |

<u>AIR FORCE</u>		
Operation and Maintenance, Active Forces		
Budget Activity: Administration and Servicewide Activities		
Activity Group: Logistics Operations		
Detail by Subactivity Group: Base Support		
3) Base Communications (FY 1999 Base, \$92.8).....	\$16.3	
Increase reflects realignment of base communications requirements in the Defense Standardization program. This realignment follows SECDEF directed acquisition reform initiative to eliminate the use of military specifications and standards in system acquisition. This effort will provide for the achievement of standardization within Department of Defense required by Title 10, U.S. Code, Chapter 145, Defense Cataloging and Standardization. This action results in consolidation of financial and performance management for base communication products and services under one program element code, thereby increasing efficiency, productivity and support activities.		
4) Civilian Separation Incentives.....	\$11.2	
Civilian separation incentives are authorized by Section 4436 of P.L. 102-484. These costs reflect the incremental funds required in FY 2000 over and above salary savings. DoD activities may pay up to \$25,000 for separation incentives plus 15% of basic pay to OPM. The current policy is to offer incentives before a person is involuntarily separated. This increase is related to competition, re-engineering and privatization initiatives at Air Force Materiel Command.		
5) Child Development Centers (FY 1999 Base, \$16.3).....	\$1.5	
Additional funds are required to operate new child development centers and school age centers at Robins and Wright-Patterson AFBs. Additional funding is required for the appropriated fund personnel, supplies, equipment to operate the centers.		
6) Environmental Conservation (FY 1999 Base, \$21.2).....	\$1.2	
Increase reflects additions to the conservation account to fund Class I environmental requirements.

12.	Program Decreases.....	\$-26.7
a.	Program Decreases in FY 2000.....	\$-26.7
1)	Competition and Privatization Savings.....	\$-14.3
	This decrease reflects estimated savings which will be achieved by reducing costs through increased competition and expanded employee/private sector participation. These savings have been realigned to Air Force modernization accounts.	
2)	Environmental Compliance (FY 1999 Base, \$98.7).....	\$-11.0
	Decrease reflects realignment of compliance funds to pollution prevention accounts to use pollution prevention as the first choice to achieve compliance.	
3)	Visual Information Services (FY 1999 Base, \$9.4).....	\$-1.4
	Costs for contract support/supplies reduced based on increased use of in-house electronic products for graphics support.	
13.	FY 2000 Budget Request.....	\$1,073.9

AIR FORCE

Operation and Maintenance, Active Forces
Budget Activity: Administration and Servicewide Activities
Activity Group: Servicewide Activities
Detail by Subactivity Group: Administration

- I. Description of Operations Financed: This subactivity group includes funding for the Air Force Combat Operations Staff which provides Air Force senior leadership global information impacting Air Force operations and hosts the Air Force Crisis Action Team, Air Force Official Representation Funds and Miscellaneous Current Expenses, funds designated to maintain the standing and prestige of the United States by extending official courtesies to United States and foreign dignitaries, finance travel for members of Congress and their professional staffs when traveling under certain statutory conditions, and respond to unspecified emergency and extraordinary expenses identified by the SECAF pursuant to 10 USC 127, Emergency and Extraordinary Expense.

Funding is also included for operations of the Office of the Secretary of the Air Force, Air Staff, and a portion of the 11th Support Wing which provides direct support to Headquarters US Air Force; Air Force personnel detailed to non-DoD activities on a non-reimbursable basis; Air Force portion of the Engineering and Science Exchange Program; and the Air Force Security Forces Center. The Air Force Security Forces Center provides explosive detection dog teams to support presidential visits worldwide. This subactivity also finances mission essential communications-computer support to the Office of the Secretary of the Air Force (SAF/OS), Air Staff Offices, the Air Force Communications and Information Center, and various offices within the Office of the Secretary of Defense and the Joint Staff.

The Air Force Pentagon Communications Agency supports several major programs including: Air Force Departmental Systems, designed to provide HQ USAF with up-to-date ADP hardware, software and LANs; Headquarters Systems Replacement Program (HSRP), which covers mission-essential mainframe operations; HQ USAF LAN, which supports office automation requirements of some 6,000 Air Staff personnel; a major contract covering small systems maintenance for over 37,000 computer assets, and the Air Staff Office Automation System Computer Assisted Information Support System Follow-on (ASCAF) maintenance contract, which provides seven day-a-week, 24-hour service on systems such as DRS 6000s, Power 6s and Power 5s.

C. Reconciliation of Increases and Decreases (\$\$ in Millions):		
1. FY 1999 President's Budget Request	\$140.9	
2. FY 1999 Revised	\$140.9	
a. Undistributed Congressional Adjustments	\$-7.4	
1) Financial Information Resource System (FIRST) Elimination	\$-7.0	
2) Revised Economic Assumptions	\$-.4	
3. FY 1999 Appropriation Enacted	\$133.5	
4. Reprogramming/Transfer	\$3.1	
a. Bulk Fuel Savings	\$3.1	
5. Price Change	\$-.2	
6. Program Increases	\$4.2	
a. Program Growth in FY 1999	\$4.2	
1) Civilian Pay Reprice (FY 1999 Base \$140.9)	\$4.2	
The increase represents revised civilian pay funding requirements based on updated assessment of actual workyear costs to reflect the impact of changes such as FY 1998 locality pay.		
7. Revised FY 1999 Estimate	\$140.6	

AIR FORCE
Operation and Maintenance, Active Forces
Budget Activity: Administration and Servicewide Activities
Activity Group: Servicewide Activities
Detail by Subactivity Group: Administration

8.	Price Growth	\$4.2
9.	Program Increases	\$7.2
	a. Program Growth in FY 2000	\$7.2
	1) Management HQ - ADP Support (FY 1999 Base \$62.2)	\$6.5
	Increase in communications/computer equipment buys (less than \$100 thousand) to: replace certain Air Force computer systems and equipment that must be Year 2000 compliant; respond to growing information demands as business practices adapt to new information technology; improve information security; upgrade personal computers to be compatible with OSD and field activities' office automation software; and buy the necessary replacements for some printers, scanner, network routers, and hubs. Also funds the continued support of Legacy Systems due to the reduction of the Financial Information Resource System (FIRST).	
	2) Management HQ - (Administrative) (FY 99 Base \$8.9)	\$.7
	Funding increase was the result of a realignment from Other Servicewide Activities to align printing funds with proper activities for execution.	
10.	Program Decreases	\$-1.7
	a. Program Decrease in FY 2000	\$-1.7
	1) Management HQ (Departmental) (FY 1999 Base \$66.0)	\$-1.5
	Decrease is due to a Civilian Pay reduction and realignment within the Management HQ program.

AIR FORCE

Operation and Maintenance, Active Forces

Budget Activity: Administration and Servicewide Activities

Activity Group: Servicewide Activities

Detail by Subactivity Group: Servicewide Communications

- I. Description of Operations Financed: The Air Force servicewide communications systems provide a vital network link of support ranging from telephone service to data communications at all Air Force locations. Programs include: basic worldwide voice capability such as the Defense Switched Network (DSN); electronic mail; and basic message service across the Air Force through the Defense Message System (DMS). Programs ensure the interoperability and integration of systems for the entire Command, Control, Communications, and Computer (C4) community and provide information systems security through "information protect systems" computer security, TEMPEST testing, and Communications Security (COMSEC) in order to protect Air Force C2, weapon systems, and overall force management systems.

The Air Force Pentagon Communications Agency supports several major programs including: Air Force Departmental Systems, designed to provide HQ USAF with up-to-date ADP hardware, software and LANs; Headquarters Systems Replacement Program (HSRP), which covers mission-essential mainframe operations; HQ USAF LAN, which supports office automation requirements of some 6,000 Air Staff personnel; a major contract covering small systems maintenance for over 37,000 computer assets; and the Air Staff Office Automation System Computer Assisted Information Support System Follow-on (ASCAF) maintenance contract, which provides seven day-a-week, 24-hour service on Pentagon network systems.

 Budget Activity: Administration and Servicewide Activities
 Activity Group: Servicewide Activities
 Detail by Subactivity Group: Servicewide Communications

C. Reconciliation of Increases and Decreases (\$\$ in Millions):

1.	FY 1999 President's Budget	\$234.1
2.	FY 1999 Revised.....	\$234.1
a.	Undistributed Congressional Adjustments	\$-1.1
1)	Revised Economic Assumptions	\$-0.8
2)	Foreign Currency	\$-0.3
3.	FY 1999 Appropriation	\$233.0
4.	Price Changes.....	\$-0.4
5.	Program Increases	\$+9.4
a.	Competition and Privatization	\$+9.4
	After careful review, the Air Force designated various activities/functions as not military essential. A cost comparison study/direct conversion was completed to determine whether the workload would be contracted or remain in-house in accordance with the guidelines in OMB Circular A-76. This one-time funding increase partially restores programs to historical funding levels due to unrealized savings for Competition & Privatization.	
6.	Program Decreases.....	\$-.4
a.	Civilian Pay Adjustment	\$-.4
	The decrease represents revised civilian pay funding requirements based on updated assessment of actual workyear costs to reflect the impact of changes such as FY 1998 locality pay.	

AIR FORCE
Operation and Maintenance, Active Forces
Budget Activity: Administration and Servicewide Activities
Activity Group: Servicewide Activities
Detail by Subactivity Group: Servicewide Communications

7.	FY 1999 Current Estimate	\$241.6
8.	Price Growth	\$+22.6
9.	Function Program Transfers	\$+10.4
a.	Transfers In	\$12.0
1)	Long Haul Communications Common User	\$+5.5
	Transfer complies with DoD direction to transition dedicated long haul communications to common user communications. Transition will provide C2 and combat support users with common user voice and data communications access.	
2)	Defense Messaging System (DMS) Manpower	\$+5.0
	This increase realigns manpower from multiple program elements into the DMS program element. The added DMS manpower will be used to run the mail servers at each base in the Air Force.	
3)	Competition and Privatization	\$+1.5
	This is a transfer from the Military Personnel Appropriation. After careful review, the Air Force has designated these activities/functions as not military essential. A cost comparison study/direct conversion is underway to determine whether the workload will be contracted or remain in-house in accordance with the guidelines in OMB Circular A-76.	

AIR FORCE
Operation and Maintenance, Active Forces
Budget Activity: Administration and Servicewide Activities
Activity Group: Servicewide Activities
Detail by Subactivity Group: Servicewide Communications

b.	Transfers Out	\$-1.6
1)	Long Haul Communications..... Resources transfer from Sub Activity Group, Servicewide Communications, into Sub Activity Group, Combat Communications, to more accurately reflect program execution and projected requirements.	\$-1.1
2)	Long Haul Communications- Air Force Pentagon Communications Agency Transfers funding to the Army for assuming operational control of the Air Force Pentagon Communications Agency.	\$-.4
3)	National Military Command Systems Communications (NMCS) Centralizes funding from Long Haul Communications into the NMCS program to more accurately reflect program execution.	\$-.1
10.	Program Increases.....	\$+75.9
a.	Long Haul Communication (FY 1999 Base \$144.2) The Defense Information Systems Agency (DISA) projects a growth in the use of communications services in the Continental United States. Currently, the Defense Information Systems Network (DISN) provides the Air Force voice, data, video, and transport services which need to be expanded to meet demand projections. Without this expansion, Air Force customers will be forced to use commercial networks which dilute DISN's economies of scale and ultimately translate into increased rates for all DOD customers.	\$+38.8

AIR FORCE
Operation and Maintenance, Active Forces
Budget Activity: Administration and Servicewide Activities
Activity Group: Servicewide Activities
Detail by Subactivity Group: Servicewide Communications

- b. Air Force Communication (FY 1999 Base \$11.3) \$+15.2
 - Provides (\$11.1) for Public Key Infrastructure which implements an emerging Federal Standard for digital signature for electronic commerce. Provides encryption capability to protect sensitive, unclassified information and networks. Provides centralized funding for communications' infrastructure to support defense-wide automated programs. Also includes (\$4.1) increase for installation of 36 fiber backbones for critical reachback capability for deployed CINCs.
- c. Long Haul Communications (FY 1999 Base \$144.2) \$+10.1
 - Increase buys additional NIPRNET and SIPRNET circuits to meet requirements of the Global Command and Control System (GCCS) and additional Secure Terminal Equipment (STE) to meet expanding requirements for classified transmission within the CONUS and deployed theater locations (\$4.7). Additional long haul circuits (\$5.4) are also funded to support remote operations of the Air Force's Global High Frequency Radio System.
- d. Defense Messaging System (FY 1999 Base \$13.4) \$+8.8
 - Increase (\$5.3) pays Air Force's fair share of the Defense Messaging System(DMS) Transition Hubs. Also includes (\$3.5) migration from Long Haul Communications to support DISA's DMS activities.
- e. High Frequency Radio Systems (FY 1999 Base \$14.1) \$+3.0
 - Increase pays for contract support and long-haul communications for reachback to the Air Force's hub at Andrews AFB. Manpower savings will be realized and will offset these costs in the outyears and provide dollars to upgrade/repair all antennas and associated cabling. This is the last phase of a system wide upgrade which has brought new, reliable HF radios to this network.

AIR FORCE

Operation and Maintenance, Active Forces

Budget Activity: Administration and Servicewide Activities

Activity Group: Servicewide Activities

Detail by Subactivity Group: Servicewide Communications

11.	Program Decreases.....	\$-3.7
	a. Migration from Long Haul Comm to DMS Migration from Long Haul Communications to support DISA's DMS activities. DMS is a Department of Defense initiative which replaces today's message communications system.	\$-3.6
	b. Competition and Privatization Savings This decrease reflects estimated savings which will be achieved by reducing costs through increased competition and expanded employee/private sector participation. These savings have been realigned from Air Force O&M to Air Force modernization accounts.	\$.1
12.	FY 2000 Budget Request.....	\$346.8

AIR FORCE

Operation and Maintenance, Active Forces

Budget Activity: Administration and Servicewide Activities

Activity Group: Servicewide Activities

Detail by Subactivity Group: Personnel Programs

I. Description of Operations Financed: This subactivity group includes Air Force-wide Civilian Compensation Programs (payable to the Department of Labor (DoL)), support of the Joint Healthcare Management Engineering Team (JHMET), and Other Personnel Programs.

Civilian Compensation Programs provide reimbursements to DoL for both unemployment and disability compensation. Unemployment compensation is paid to former Air Force employees by 53 State and Territory Employment Offices. Disability compensation provides for claims resulting from duty-related injury or death of Air Force civilian employees. Additionally, this program finances civilian personnel who administer these programs.

JHMET is a tri-service organization chartered to jointly design, measure and survey in order to develop common health care manpower standards for all peacetime elements of the Military Health Services System. The Air Force Management Engineering Agency (AFMEA) acts as the executive agent for the JHMET with budgeting, technical assistance, and other support responsibilities.

Personnel Administration funds Air Force Personnel Center (AFPC) operations associated with management of personnel life cycle activities -- accessions, training, assignments, and sustainment programs such as promotions, recognition, retention, separation and retirement. Funds the civilian salaries and benefits for the Air Force Personnel Operations Agency (AFPOA). Funds for beddown of the Palace Compass - Civilian Regionalization program and the modernization effort of the military Personnel Data System (PDS). AFPC supports the Air Staff and field commanders worldwide, including the Air National Guard and the Air Force Reserve. Also provides funding and central management of Permanent Change-of-Station (PCS) requirements for the Civilian Career Programs.

II. Force Structure Summary:

	<u>FY 1998</u>	<u>FY 1999</u>	<u>FY 2000</u>
Personnel Programs *			
Military Personnel Flights (Active Duty)	84	84
Civilian Personnel Flights	98	96

* This force structure is financed across all subactivities, however, AFPC financed in this subactivity provides support for these programs.

Detail by Subactivity Group: Personnel Programs

C. Reconciliation of Increases and Decreases (\$s in Millions):

1.	FY 1999 President's Budget Request	\$127.7
a.	Distributed Congressional Adjustment	\$-12.0
1)	Personnel Programs	\$-12.0
2.	FY 1999 Revised	\$115.7
3.	FY 1999 Appropriation Enacted	\$115.7
4.	Reprogramming/Transfer	\$2.1
a.	Bulk Fuel Savings	\$2.1
5.	Price Change	\$.1
6.	Program Increases	\$.6
a.	Civilian Pay Reprice (FY 1999 Base \$101.8)	\$.3
	This increase represents revised civilian pay funding requirements based on updated assessment of actual workyear costs to reflect the impact of changes such as prior year locality pay increases.	

AIR FORCE

Operation and Maintenance, Active Forces
Budget Activity: Administration and Servicewide Activities
Activity Group: Servicewide Activities
Detail by Subactivity Group: Personnel Programs

b.	Civilian Personnel Decision Support System (CPDSS) (FY 1999 Base \$101.8)	\$.3
	This increase maintains this Air Force required system used to process requirements such as Career Program "whole Person" scores and to store and update the experience records. Neither Oracle nor Resumix, the current software systems, provide a database of full employment history. The increase funds system maintenance and upgrade to keep CPDSS current and compatible with the newest versions of Oracle and Resumix.	
7.	Revised FY 1999 Estimate.....	\$118.5
8.	Price Growth	\$2.0
9.	Transfers In.....	\$.5
a.	Competition and Privatization (FY 1999 Base \$92.3)	\$.5
	This is a transfer into O&M from the Military Personnel Appropriation. After careful review, the Air Force has designated these activities/functions as not military essential. A cost comparison study/direct conversion is underway to determine whether the workload will be contracted or remain in-house in accordance with the guidelines in OMB Circular A-76.	
10.	Program Increases.....	\$11.4
a.	Civilian PCS (FY 1999 Base \$101.8)	\$11.4
	This increase represents the funding needed to maintain the minimum number of Career Program Civilian PCS moves during the fiscal year. During a normal year, the various Career Programs have historically moved 1,100 to 1,150 people. This increase provides the necessary funding to meet this minimum number of moves but does not increase the program beyond its historical level. Civilian moves are essential in maintaining a seasoned, knowledgeable workforce in critical positions throughout the Air Force.

AIR FORCE

Operation and Maintenance, Active Forces

Budget Activity: Administration and Servicewide Activities

Activity Group: Servicewide Activities

Detail by Subactivity Group: Rescue and Recovery Services

- I. Description of Operations Financed: This subactivity covers civil as well as combat rescue and recovery activities. In the civil arena, funds support the Search and Rescue Satellite Aided Tracking (SARSAT) and Air Force Rescue Coordination Center (AFRCC) operations. These programs use satellites to facilitate the detection and tracking of distress signals worldwide. SARSAT is a joint international project with Canada, France and Russia. The AFRCC is designated the DoD representative for SARSAT and coordinates with the Department of Transportation, National Oceanic and Atmospheric Administration, National Aeronautics and Space Administration (NASA), and similar agencies from participating countries. Funds also support the operation of Headquarters, Civil Air Patrol-USAF. This activity provides staff supervision over 8 regions and 52 wings, administers day-to-day programs, issues necessary policy guidance and directives, and functions as liaison with the Air Force and other DoD agencies. In the combat arena, funds support operation of the Combat Rescue and Tactics School, the Rescue Coordination Center, aircraft squadrons and detachments, field maintenance, organizational maintenance, and NASA space activity support. By demonstrating the capability to search for, locate, and recover personnel anywhere in the world, this mission saves resources, increases survivability of fighting forces, and promotes aircrew confidence and morale.

II. Force Structure Summary:

C. Reconciliation of Increases and Decreases (\$s in Millions):

1.	FY 1999 President's Budget Request	\$48.5
2.	FY 1999 Revised	\$48.5
3.	FY 1999 Appropriation	\$48.5
4.	Reprogramming/Transfers	\$4
a.	Bulk Fuel Savings	\$ 4
5.	Price Change	\$-.1
6.	Program Increases	\$.9
a.	Program Growth in FY 1999	\$.9
7.	1) Combat Rescue & Recovery (FY 1999 Base \$45.3)	\$.9
	The FY 1999 Flying Hour Program was repriced to reflect the latest CY 1998 AF Cost Analysis Improvement Group (AFCAIG) approved cost factors which are based on the most current consumption data available. Included in this reprice are AVPOL, System & General Support supplies, and Depot Level Reparables (DLRs). The most significant changes have occurred in the costs of General Support supplies and Depot Level Reparables.	
7.	FY 1999 Current Estimate	\$49.7
8.	Price Growth	\$.7
9.	Program Increases	\$9.8

a.	Program Growth in FY 2000	\$9.8
1)	Combat Rescue and Recovery (FY 1999 \$46.4)	\$9.8
	The increase is to convert two C-130 aircraft from BAI to PTAI (HC-130P) and four HH-60 aircraft from BAI to PAA at Kirtland AFB, NM for needed additional pilot training in refueling procedures and rescue and recovery operations before reporting to their units. Funds will provide the associated flying hour, spare parts, supplies, manpower and contract support, and Technical Orders (T.O.s) in support of additional aircraft and pilot training.

AIR FORCE
Operation and Maintenance, Active Forces
Budget Activity: Administration and Servicewide Activities
Activity Group: Servicewide Activities
Detail by Subactivity Group: Arms Control

- I. Description of Operations Financed: Arms Control encompasses all efforts directly associated with implementing arms control treaties and agreements such as the Strategic Arms Reduction Treaty (START), Conventional Forces Europe (CFE), Open Skies, Intermediate Nuclear Forces (INF) Treaty, and Chemical Weapons Convention (CWC). Funding supports: on-site inspections; monitoring and compliance with arms control agreements, planning and preparation activities; and relocation, modification, retirement or destruction of equipment. This subactivity group also funds destruction of Minuteman II, and Peacekeeper silos, B-52 destruction at the Aerospace Maintenance and Regeneration Center (AMARC), and flying hours for the Open Skies aircraft. Also financed are studies, analysis and implementation support to institutionalize Air Force's counterproliferation mission area. The functional areas contained in counterproliferation include weapons of mass destruction, chemical and biological agents, and any other dangerous or potentially dangerous technologies, events or situations.

II. Force Structure Summary:

C. Reconciliation of Increases and Decreases (\$s in Millions):

1.	FY 1999 President's Budget	\$30.0
2.	FY 1999 Revised.....	\$30.0
	a. Undistributed Congressional Adjustments	\$-0.1
	1) Revised Economic Assumptions	\$-0.1
3.	FY 1999 Appropriation	\$29.9
4.	Reprogrammings/Transfers.....	\$+1.1
	a. Transfers In.....	\$+1.1
	1) Competition and Privatization	\$+1.1
	After careful review, the Air Force designated various activities/functions as not military essential. A cost comparison study/direct conversion was completed to determine whether the workload would be contracted or remain in-house in accordance with the guidelines in OMB Circular A-76. This one-time funding increase partially restores programs to historical funding levels due to unrealized savings for Competition & Privatization.	
5.	Price Changes.....	\$-0.1

AIR FORCE

Operation and Maintenance, Active Forces

Budget Activity: Administration and Servicewide Activities

Activity Group: Servicewide Activities

Detail by Subactivity Group: Arms Control

6.	Program Increases.....	\$+.5
a.	Civilian Pay Adjustment.....	\$+.5
	The increase represents revised civilian pay funding requirements based on updated assessment of actual workyear costs to reflect the impact of changes such as FY 1998 locality pay.	
7.	FY 1999 Current Estimate.....	\$31.4
8.	Price Growth	\$+.3
9.	Program Increases.....	\$+3.8
a.	Arms Control (FY 1999 Base \$31.)	\$+.1
	Program growth attributed to increased silo destruction efforts to maintain compliance with START treaty.	
b.	Counterproliferation (FY 1999 Base \$0)	\$+3.7
	This is a new start in FY 2000 to support Air Force Counterproliferation efforts. This mission includes attack, defense, and deterrence of threats similar in nature to proliferation of missile technology, nuclear technology, weapons of mass destruction, and chemical and biological agents. Funding includes contract engineers with highly specialized skills in these areas.	
10.	FY 2000 Budget Request.....	\$35.5

AIR FORCE

Operation and Maintenance, Active Forces

Budget Activity: Administration and Servicewide Activities

Activity Group: Servicewide Activities

Detail by Subactivity Group: Other Servicewide Activities

- I. Description of Operations Financed: This subactivity includes a wide variety of programs which support Air Force units around the world. It includes execution of the Air Force portion of the DoD Counterdrug Program. Air Force communications systems and Engineering and Installation (E&I) provide a vital network link of support ranging from telephone service to data communications at all Air Force locations. The Information Management Automation Program (IMAP) maintains existing systems and supports the design, implementation, testing and operation of new automated systems. In addition to day-to-day expenses, operational costs include systems analysis, software development, and hardware/software maintenance. The IMAP also includes funds for automated data processing (ADP) consolidation.

The Servicewide Support program includes the Air Force effort to realign mission support to appropriate Field Operating Agencies or Air Force Elements, as well as funding for offices such as the Inspector General, Judge Advocate, Administration and Public Affairs. The Operational Capability and Air Power Assessment program provides senior leadership with an analytical basis for making decisions affecting contingency operations, force structure and sizing, air power employment strategies and warfighting capabilities. The Productivity Investment Program is a self-sustaining means of providing capital investment funding to purchase expendable equipment, minor construction, and equipment that will improve government service, products, quality, or productivity.

Overall adjustments to military manpower in this sub-activity reflect an ongoing transition to an Expeditionary Air Force (EAF) structure, as well a shift in support personnel positions into primary mission areas to more accurately depict the balance between the "tooth" and "tail" of the Air Force.

II. Force Structure Summary:

8.	Price Growth	\$11.8
9.	Functional Program Transfers	\$-13.4
a.	Transfer In	\$4
	1) AF Television News Program	\$4
	Transfer of the AF Television News Program from Other Personnel Support SAG as part of the Air Force decision to improve and expand the AF Television News Programs.	
b.	Transfer Out	\$-13.8
	1) Reengineer E & I	\$-13.8
	Decrease is due to the Air Force decision to reengineer the 38 th Engineering and Installation Wing (EIW) at Tinker AFB divesting unit of organic installation, engineering services and manpower. In FY 2000 these services will be accomplished via centrally managed contracts.	
10.	Program Increases	\$96.0
a.	Service-Wide Support (FY 1999 Base \$331.1)	\$58.6
	1) Privatizing Utility Systems	\$40.0
	Increase for Privatizing Utility Systems provides funding to comply with Congressional direction to cover the costs of economic and feasibility studies, environmental baseline studies and contractor support.	

<p>AIR FORCE</p> <p>Operation and Maintenance, Active Forces</p> <p>Budget Activity: Administration and Servicewide Activities</p> <p>Activity Group: Servicewide Activities</p> <p>Detail by Subactivity Group: Other Servicewide Activities</p>	
2) Defense Finance and Accounting Service (DFAS) Payments	\$8.0
Increase in Defense Finance and Accounting Service (DFAS) payments due to the delay in full implementation of the IMPAC card and the implementation delays in the Electronic Document Management (EDM) System and the Defense Joint Military Pay System (DJMS). These delays force DFAS to continue using labor intensive methods to process transactions which drives an increase to our customer bill.	
3) Army Correctional Facilities	\$2.9
Increase in funds required to support the higher costs charged to house Air Force Level III inmates in Army Correctional facilities.	
4) Visibility and Management of Operating and Support Costs System.....	\$2.5
Increase in funding to support the proposed improvement plan for the Visibility and Management of Operating and Support Costs System (VAMOSC) which will expand the number of weapon systems included in the VAMOSC system and increase the level of cost details available. This funding will expand the data collection system, conduct verification/validation of the data, and institute Web-based technology for improved customer access.	
5) Foreign Area Officer (FAO) Proponent Office	\$2.2
Increase in funding to establish the Foreign Area Officer (FAO) Proponent Office and the Command Language Program in response to mandates to develop language enhancement and FAO programs.

|---|--------|
| 6) Explosives Safety Testing | \$1.3 |
| Increase is to fund explosives safety testing and analysis for current weapon projects. The Air Force Red Ribbon Panel identified a deficiency in the safety tests needed by the USAF to comply with DoD Directive 6055.9 to bring the explosives database on some of the weapons/munitions in the field to their full potential capabilities for risk assessments in an operational environment. | |
| 7) Military Funeral Honors..... | \$1.1 |
| This funding is in support of Section 567 of the FY 1999 National Defense Authorization Act which amends Title 10 to require the Military Departments to make a three-member honor guard available for veterans' funerals beginning January 1, 2000. | |
| 8) Billeting Rate Increase | \$.6 |
| Increase in TDY costs due to billeting rate increase of \$.2 a day to offset operating costs. | |
| b. Civilian Separation Incentives (FY 1999 Base \$78.5)..... | \$19.0 |
| Civilian separation incentives are authorized by Section 4436 of P.L. 102-484. These costs reflect the incremental funds required in FY 2000 over and above salary savings. DoD activities may pay up to \$25,000 for separation incentives plus 15% of basic pay to OPM. The current policy is to offer incentives before a person is involuntarily separated. | |
| c. Information Services (FY 1999 Base \$41.4)..... | \$8.2 |
| Provides funding for the centrally managed information technology resources including the network back bone and equipment supporting network management, technical control, and tactical and command and control (C2) telephone switching that will be installed during the Pentagon renovation. | |

<p>AIR FORCE</p> <p>Operation and Maintenance, Active Forces</p> <p>Budget Activity: Administration and Servicewide Activities</p> <p>Activity Group: Servicewide Activities</p> <p>Detail by Subactivity Group: Other Servicewide Activities</p>	
d.	Computer Support/Information Technology (FY 1999 Base \$49.5).....
	Increase due to OMB decision to have the National Archives Records Administration move its record center program from a direct funded program to a reimbursable program.
e.	Standard Procurement System (SPS) (FY 1999 Base \$5.0)
	Increase is to obtain contractor support in achieving Initial Operation Capability (IOC) for the SPS. Contractor will help resolve technical issues, assist in the migration of legacy system acquisition data to the SPS, and support the accomplishment of the 200+ tasks each site has to complete in order to meet IOC. Also includes funding to allow a select group of MAJCOM experts to travel to their squadrons to assist with SPS deployment and to provide AF specific training on the system.
f.	Productivity Programs (FY 1999 Base \$10.3).....
	Increase is to align the appropriate dollars with the MAJCOM FY 2000 Productivity Enhancing Capital Investment (PECI) Program project requirements for the purchase of equipment costing less than \$100,000.
11.	Program Decreases
	\$-.6
a.	Servicewide Support (FY 1999 Base \$329.5).....
	Decrease in funding is due to the realignment of Printing Services to Servicewide Activities, Administration to align funding with proper activities for execution.
b.	Defense Commissary Information System (DCIS) Termination (FY 1999 Base \$39.6).....
	Funding decrease is due to the Defense Commissary Agency's termination of DCIS program support.
12.	FY 2000 Budget Request.....
	\$619.8

AIR FORCE
Operation and Maintenance, Active Forces
Budget Activity: Administration and Servicewide Activities
Activity Group: Servicewide Activities
Detail by Subactivity Group: Civil Air Patrol Corporation

I. Description of Operations Financed: This subactivity group includes funding for the Civil Air Patrol (CAP) Corporation. CAP was established on 1 December 1941 as a division of the Office of Civilian Defense and, in April 1943, was placed under the jurisdiction of the Army Air Forces. Following its wartime service, CAP was chartered by the 79th Congress on 1 July 1946 as a volunteer, nonprofit corporation and was later granted status as the civilian auxiliary of the Air Force by the 80th Congress through Public Law 557. The law authorized the Secretary of the Air Force to provide certain support to the fulfillment of Civil Air Patrol objectives and to use the services of CAP in carrying out the noncombatant missions of the Air Force.

When Congress incorporated CAP, one of its declared objectives was to "provide aviation education and training, especially to its members." The CAP cadet program is designed to develop the potential of young people through physical fitness, leadership training, morale, and aerospace education.

The U.S. Air Force is assigned responsibility by the National Search and Rescue Plan for coordinating inland search and rescue operations in the United States. As the civilian auxiliary of the Air Force, CAP is the primary resource used by the Air Force in fulfilling its responsibility for inland search and rescue.

On 14 November 1985, CAP, the U.S. Air Force, and U.S. Customs Service entered into an agreement whereby CAP would assist the U.S. Customs Service by performing air surveillance reconnaissance flights along the boundaries of the United States in support of the government's drug interdiction effort. CAP aircraft operating costs are paid by the Air Force. CAP's air surveillance activities were expanded in April 1989 when CAP, the U.S. Air Force, and Drug Enforcement Agency (DEA) entered into an agreement whereby CAP would provide air reconnaissance for detection of illicit drugs and report suspected sightings to DEA.

AIR FORCE
Operation and Maintenance, Active Forces
Budget Activity: Administration and Servicewide Activities
Activity Group: Servicewide Activities
Detail by Subactivity Group: Commissary Operations

I. Description of Operations Financed: This subactivity provides funding for Commissary support functions for the Air Force. The main objective is to provide supermarket-type grocery stores for eligible service members, as an integral part of the military compensation package. Operations funds are needed for personnel staffing (civil service employees; contract personnel and local national employees in overseas areas), transportation of merchandise, services (garbage and trash removal; sewage disposal; insect control; medical inspection; road, sidewalk, and grounds maintenance; and other administrative support functions), major losses (inventory, facilities, equipment, or supplies). Also funds utility costs for commissaries outside the 48 contiguous states.

Detail by Subactivity Group: Real Property Maintenance

I. Description of Operations Financed: Real Property Maintenance Activities include real property services, maintenance and repair projects and minor construction accomplished by contract and by an in-house workforce at Bolling AFB, MD. Our objectives are to sustain mission capability, quality of life, workforce productivity, and to preserve Bolling's physical plant.

Bolling's infrastructure support encompasses a variety of systems, services, and operations. The most significant categories receiving this support are listed below:

Maintenance, Repair, and Minor Construction of:

Real Property

Road

Dormitories

The physical plant maintained by the 11th Support Wing covers 604 acres of land and more than 130 facility structures encompassing over 3 million square feet.

1.	FY 1999 President's Budget	\$26.1
	a. Distributed Congressional Adjustment.....	\$5.0
	1) Rail Easement.....	\$5.0
	b. Realignment to meet Congressional Intent	\$-5.0
	1) Rail Easement.....	\$-5.0
2.	FY 1999 Revised.....	\$26.1
3.	FY 1999 Appropriation	\$26.1
4.	Reprogramming/Transfers.....	\$1.0
	a. Transfers In.....	\$1.0
	1) Bulk Fuel Savings.....	\$1.0
5.	Program Increases.....	\$3.8
	a. Program Increases in FY 1999	\$3.8
	1) Civilian Pay Adjustment.....	\$3.8
	The increase represents revised civilian pay funding requirements based on updated assessment of actual workyear costs to reflect the impact of changes such as FY 1998 locality pay.	
6.	Revised FY 1999 Estimate.....	\$30.9

AIR FORCE
 Operation and Maintenance, Active Forces
 Budget Activity: Administration and Servicewide Activities
 Activity Group: Servicewide Activities
 Detail by Subactivity Group: Real Property Maintenance

7.	Price Growth.....	\$.7
8.	Transfers Out	\$-1.7
a.	Grounds Maintenance.....	\$-1.2
b.	Realignment of Real Property Maintenance.....	\$-.5
	The transfer of grounds services to Real Property Services is twofold. First, it is based upon a decision to better align this function with the in-house manpower resources and improves cost accounting within the Real Property Maintenance Activities (RPMA) program. Additionally, grounds services are similar in nature to refuse collection, custodial and other municipal-type services.	
9.	Program Increases.....	\$.9
a.	Program Increases in FY 2000	\$.9
1)	Civilian Separation Incentives.....	\$.9
	Civilian separation incentives are authorized by Section 4436 of P.L. 102-484. These costs reflect the incremental funds required in FY 2000 over and above salary savings. DoD activities may pay up to \$25,000 for separation incentives plus 15% of basic pay to OPM. The current policy is to offer incentives before a person is involuntarily separated.	
10.	Program Decreases.....	\$-12.5

AIR FORCE

Operation and Maintenance, Active Forces

Budget Activity: Administration and Servicewide Activities

Activity Group: Servicewide Activities

Detail by Subactivity Group: Real Property Maintenance

卷之三

§-3
Competition and Diversification Savings

This decrease reflects estimated savings which will be achieved by reducing costs through increased competition and expanded employee/private sector participation. These savings have been realigned from Air Force O&M to Air Force modernization accounts.

2) Real Property Maintenance Programs.....\$-12.2

Decrease realigns funds to the preventive maintenance level (PML) of one percent of plant replacement value. PML represents the resources necessary to accomplish day-to-day recurring maintenance required to continue the existing life cycle of real property facilities and infrastructure. Current funding only supports emergency and critical repair work. The impact of deferred maintenance is reduced productivity in maintenance shops, along the flight line and in office areas.

AIR FORCE

Operation and Maintenance, Active Forces

Budget Activity: Administration and Servicewide Activities

Activity Group: Servicewide Activities

Detail by Subactivity Group: Base Support

1. Description of Operations Financed: This subactivity provides funding for base support functions, and engineering and environmental programs in support of the 11th Wing ("The Chief's Own" at Bolling Air Force Base) and several field operating agencies. The main objectives are to sustain mission capability, quality of life, workforce productivity and infrastructure support. Overall adjustments to military manpower in this sub-activity reflect an ongoing transition to an Expeditionary Air Force (EAF) structure, as well a shift in support personnel positions into primary mission areas to more accurately depict the balance between the "tooth" and "tail" of the Air Force. Significant categories of support are listed below:

Audiovisual Information Activities: Funds audiovisual support for video production, graphic art, photo lab, visual information library equipment maintenance, presentation sections, video teleconferencing system, management and operation of audiovisual product distribution, armament delivery recording, still photo, motion picture, television and audio recordings, and electronic and graphics imaging.

Base Communications: Supports base telephone systems, maintenance of intra-base radio systems, base wire communications, official toll calls, Class B toll calls, and other base government-owned commercial communication requirements; dedicated leased long lines that provide connectivity to Air Force and DoD networks; standard base level computer equipment; and secure voice teleconferencing command and control systems.

Base Operating Support: Program funds functions and activities as follows: transportation, security forces, comptroller, staff judge advocate, claims, personnel, dining facilities, lodging, contracting services, chaplain, administration, mess attendant and equipment maintenance contracts, postal services, data processing, airfield and air operations, furnishings management, and other authorized service activities.

Child Development Centers (CDC) and Family Support Centers (FSC): CDCs, which support provisions of the Military Child Care Act also include Family Day Care (FDC). CDCs provide full-day, part-day, and hourly care for children. The FDC program supervises individuals who reside in on-base housing and provide full-day care for children. FSCs support readiness and retention as the focal point for family matters and provide core services such as: consultation; family readiness; crisis assistance; Air Force Aid Society, personal financial management; spouse employment; volunteer resource; and relocation and transition assistance programs.

Real Property Services: Provides essential installation facility support for purchased utilities, utility plant operations, grounds maintenance, fire protection, crash rescue, snow removal and ice alleviation, entomological services, elevator maintenance/inspection, and rents and leases. Contracted engineering services include custodial services, refuse collection, corrosion control, sewer and waste systems, facility engineering and public works management, other installation engineering services and annual service requirements performed in-house or by contract.

AIR FORCE

Operation and Maintenance, Active Forces

Budget Activity: Administration and Servicewide Activities

Activity Group: Servicewide Activities

Detail by Subactivity Group: Base Support

Environmental Conservation/Compliance: Environmental Conservation provides for protection and enhancement of natural and cultural resources, environmental surveys, consultations with environmental regulators, and mapping and planning support systems. Environmental Compliance ensures all federal, state, and local environmental laws are enforced through sampling, analysis, and monitoring; hazardous waste characterization and disposal; underground storage tank removal/repair/replacement; leak detection and monitoring; spill response and clean-up; training; maintenance, repair, and minor construction projects for environmental facilities and infrastructure.

Pollution Prevention: This program was established to prevent future pollution by reducing hazardous material use and releases of pollutants into the environment to as near zero as feasible to alleviate environmentally harmful discharges to the air, land, surface and ground water.

Operation and Maintenance, Active Forces
Budget Activity: Administration and Servicewide Activities
Activity Group: Servicewide Activities
Detail by Subactivity Group: Base Support

10.	Program Increases	\$57.1
	a. Program Increases in FY 2000	\$57.1
	1) Pentagon Reservation Maintenance Revolving Fund (PRMRF) (FY 1999 Base, \$15.5) Increase reflects Air Force share of FY 2000 Pentagon Reservation Maintenance Fund requirements for the Pentagon reservation lease and renovation program. Comparable to FY 1999 requirements which were transferred out and are not reflected in the FY 1999 baseline. The total FY00 funded amount for the PRMRF is \$72.5 million, of which \$51.8 million is specifically earmarked for Pentagon renovation costs.	\$57.1
11.	Program Decreases	\$-1.2
	a. Program Decrease in FY 2000	\$-1.2
	1) Base Operating Support (FY 1999 Base, \$74.3) Contract services is a level of effort program. This decrease recognizes program efficiencies and provides funding for a balanced and properly priced program. Programmed funding level also complies with congressional language to accurately report and define contract services requirements.	\$-1.2
12.	FY 2000 Budget Request	\$194.1

Operation and Maintenance, Active Forces
Budget Activity: Administration and Servicewide Activities
Activity Group: Security Programs
Detail by Subactivity Group: Security Programs

- I. Description of Operations Financed: This Subactivity Group includes a series of classified programs and the Air Force Office of Special Investigations (AFOSI). Information on classified programs is not provided in this unclassified document. The following narrative and data will focus on the AFOSI (Security Programs, Other) which is unclassified.

The Air Force Office of Special Investigations (AFOSI) is a Field Operating Agency (FOA) under the direction and guidance of the Air Force Inspector General (SAF/IG). It performs as a federal law enforcement agency with responsibility for conducting criminal investigations, counterintelligence activities and force protection support for the Air Force. AFOSI, with its headquarters at Bolling AFB, DC, also conducts specialized investigative support in such disciplines as forensics, behavioral sciences, and hypnosis. As the executive agency for the Air Force Psychophysiological Detection of Deception (Polygraph) and Technical Surveillance Countermeasures (TSCM) programs, it offers a wide variety of services to a diverse customer base. AFOSI also plays a key role in computer intrusion investigations and DoD counterdrug programs. This exhibit does not discuss AFOSI's mission in support of Foreign Counterintelligence Activities because it is classified.

1. The AFOSI has 160 offices worldwide. In addition to the headquarters, national level operations include an Operations Center and the US Air Force Special Investigations Academy. Field operations consist of seven field investigations regions aligned with Major Commands (MAJCOM), and field detachments located at every major Air Force installation. AFOSI also operates out of several unique locations such as US embassies, foreign and US cities, and defense contractor facilities.
2. The Security and Investigative Activities program encompasses the majority of AFOSI's investigative operations. The program covers major felony crimes such as crimes against persons (homicides, sexual assaults, and physical assaults); crimes against U.S. Government property (thefts and intentional damage to aircraft); counterdrug activities (trafficking, sale and abuse); and central systems ("Top 100" contractors) procurement fraud. In addition, AFOSI provides technical security inspections of government and contractor facilities to detect electronic surveillance operations. AFOSI is the sole provider of psychophysiological detection of deception (polygraph) examinations, forensic science consultations, and computer crime investigative assistance in support of Air Force investigations. AFOSI also operates the USAF Special Investigations Academy to train AFOSI special investigators. AFOSI's mix of military (officer and enlisted) and civilian investigators work closely with other federal, state, local, and foreign investigative agencies to conduct joint interest investigations.

AIR FORCE

Operation and Maintenance, Active Forces
Budget Activity: Administration and Servicewide Activities
Activity Group: Support to other Nations
Detail by Subactivity Group: International Support

I. Description of Operations Financed: These operations support the North Atlantic Treaty Organization (NATO), Supreme Headquarters Allied Powers Europe (SHAPE), North Atlantic Treaty Organization Airborne Early Warning and Control (NATO AEW&C) program, and other international headquarters. Also included is the Technology Transfer Program which controls the transfer of critical Air Force technologies to foreign governments.

The two phases of the NATO AEW&C program consist of: (1) support for the aircraft acquisition, modification, and delivery phase; and (2) assigned Air Force personnel located at Geilenkirchen, Germany, where O&M resources support U.S. activities stipulated in the Multilateral Memorandum of Understanding.

The Technology Transfer Program identifies and controls the acquisition of advanced and sensitive military technologies by foreign governments. Activities supported include Air Force Office of Special Investigations (AFOSI) counterintelligence, U.S. Customs export control enforcement, identification of AF critical technologies for inclusion on the Military Critical Technologies List, and technical support to the U.S. State Department for the Coordinating Committee for Multilateral Export Control.
